

PRODUCT LINE 2016

"Never in the field of human conflict was so much owed by so many to so few"

Winston Churchill, Uxbridge, 16th of August, 1940

In use for more than a year with one of the world's most demanding units
- DIRECT ACTION gear is now available to YOU.

DIRECT ACTION® is a project born from combining great design and manufacturing capabilities with an up-close-and-personal understanding of the specific end-user needs of elite operations forces.

This combination has created an approach of the individual-as-a-system that is open and flexible with all necessary options, yet remains streamlined and avoids over-burdening. Each part of the system interfaces with the other components including: weapons, load bearing equipment, backpacks, jackets, combat uniforms and even camouflage patterns and colors – each of these is a part of the whole, and every component is critical to mission success.

When creating DIRECT ACTION® every detail was rigorously thought through this system-based perspective – no random choices, no compromises, no “same-old-stuff” designs, no shying away from new technology – and all based on the first-hand, real-world experience of elite special operations veterans participating in every step of the process.

Proudly made in Poland from high-quality, genuine materials and hardware,
using advanced proprietary laminate and utilizing patented designs.

DIRECT ACTION® - Experience Based Gear

GO LOUD!

This catalog contains our DA base product line. More new products will be introduced and rolled out over the course of the year ahead.

SPITFIRE plate carrier

Taking its name from a famous WWII fighter, our SPITFIRE plate carrier is a streamlined and dynamic platform.

Lightweight and non-restricting, this plate carrier is one of the lightest in its class. But at the same time it's a durable platform, unique in its modularity - converting to a cut-away rig in just a few simple steps.

Specs:

- ▲ Proprietary laser-cut laminate, Cordura® 500D and softshell construction.
- ▲ Optional accessory cutaway system.
- ▲ Front flap attached directly or via chest rig buckles in variants: PALS, kangaroo type.
- ▲ Configurable with no flap, wrap around style.
- ▲ Interchangeable cummerbund - side armor compatible.
- ▲ Back panel zipper attachment system compatible with Crye Precision AVS™ standard.
- ▲ Low profile reinforced drag handle.
- ▲ Radio and PALS wings available.

Weight: 560 g - size M / 20 oz

Product Id: PC-SPTF-CD5

Sizes: M/L/XL

Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

SPITFIRE Cutaway System

This parachute - type retrofit system allows for immediate release and field reassemble without cutaway elements. Created with waterborne ops in mind, it also allows for instant assessment, treating and re-arming of the wounded teammate.

Specs:

- ▲ Compatible with Spitfire plate carrier - available as separate kit.
- ▲ Can be assembled one side only if comms are routed on the other and would not release anyway.

Weight: 115 g - size M / 4 oz

Product Id: PC-SPQR-PEN

Sizes: matching SPITFIRE carrier size

Colors: matching SPITFIRE carrier color

SPITFIRE plate carrier

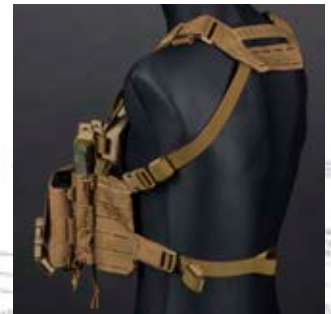

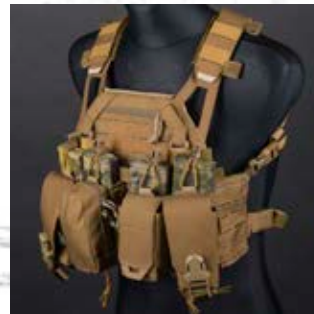

Spitfire allows for quick donning, doffing and medical access thanks to Hypalon pullers.

The carrier construction enables easy and secure comm wires routing through the plate bag and cummerbund.

Specs:

- ▲ Chest Rig attachment system compatible with Mayflower® / Velocity Systems standard.
- ▲ Front plate only configuration using the chest rig interface.
- ▲ Optional pads on front, back and shoulders area for improved airflow.
- ▲ Zippered chest admin pocket,
- ▲ PTT and comms wires / antenna routing attachment points,
- ▲ Accessory armor package for heavy configuration in development.

Weight: 560 g - size M / 20 oz
Product Id: PC-SPTF-CD5
Sizes: M/L/XL
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

HURRICANE hybrid chest rig

As in the RAF during the Battle of Britain, our HURRICANE is the workhorse of our line. This split front, full size, hybrid chest rig has fixed, integral magazine pouches for maximum weight reduction along with partial modularity for versatility. The tight split front design allows for comfortable use in stand-alone mode - and keeps your magazines close when attached to a plate carrier.

Specs:

- ▲ Proprietary laser-cut laminate, Cordura® 500D and softshell construction.
- ▲ Integrated, adjustable magazine pouches, will fit: 8 x AR type, 4 x AK type or 4 x SR type magazines.
- ▲ Fixed external pouches: two silent adjustable pouches, sealed zippered pouch and Velcro flap pouch for quick access items.
- ▲ Flat inner pockets in each chest panel.
- ▲ Low profile, adjustable harness with slots for PTT and additional accessories attachment.
- ▲ Reinforced drag handle incorporated into harness design.
- ▲ Body armor interface via buckles and additionally stabilized with a Velcro adapters.
- ▲ Comms / antenna routing.
- ▲ 9 PALS slots on the sides for radio, medical or utility pockets, horizontal PALS slots under ammunition pouches for tourniquets, pistol magazine pouches etc.

Weight: 750 g / 26 oz
Product Id: CR-HRCN-CD5
Colors: AGR, UGR, CBR, BLK
MCM, PGZ, PBL

TEMPEST chest rig

Stripped down and ready for action, TEMPEST chest rig also offers increased modularity for full user-customization. The tight split front design allows for comfortable use in stand-alone mode - and keeps your magazines close when attached to a plate carrier.

Specs:

- ▶ Proprietary laser-cut laminate, Cordura® 500D and softshell construction,
- ▶ Integrated, adjustable magazine pouches, will fit: 8 x AR type, 4 x AK type or 4 x SR type magazines,
- ▶ PALS slots on the magazine pouches and sides, horizontal PALS slots under ammunition pouches for tourniquets, pistol magazine pouches etc.,
- ▶ Body armor interface via buckles and additionally stabilized with a Velcro adapters,
- ▶ Low profile, adjustable harness with slots for PTT and additional accessories attachment,
- ▶ Reinforced drag handle incorporated into harness design,
- ▶ Flat inner pockets in each chest panel,
- ▶ Comms / antenna routing.

Weight: 530 g / 19 oz
Product Id: CR-TMPT-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

TIGER MOTH chest rig

The lightest chest rig in our line, the TIGER MOTH combines extensive customization possibilities with a compact size - for when low-profile / no bulk is a serious requirement.

Specs:

- ▶ Proprietary laser-cut laminate, Cordura® 500D and softshell construction,
- ▶ Integrated, adjustable magazine pouches, will fit: 8 x AR type, 4 x AK type or 4 x SR type magazines,
- ▶ PALS platforms on the sides for radio, medical or utility pockets, horizontal PALS slots under ammunition pouches for tourniquets, pistol magazine pouches etc.
- ▶ Body armor interface via buckles and additionally stabilized with a Velcro adapters,
- ▶ Low profile, adjustable harness with slots for PTT and additional accessories attachment,
- ▶ Flat inner pockets in chest panel,
- ▶ Comms / antenna routing

Weight: 330 g / 12 oz
Product Id: CR-TGRM-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

MUSTANG rescue / gun belt set

As sleek as its famous namesake, our MUSTANG tapered gun belt is lightweight, slim and rigid. It can be worn alone as a trouser belt, or as a duty belt in combination with the matching inner belt, or together with the MOSQUITO modular belt sleeve.

Specs:

- ▲ Made of heavy duty tubular webbing, proprietary laminate, lined with Velcro loop.
- ▲ Bartack reinforced in stress points
- ▲ Stiffened to carry weight of holsters and magazine pouches.
- ▲ Secured with certified AustriAlpin Cobra® buckle.
- ▲ Anchor point for carabiner / lanyard / tether in front portion of the belt compatible with FROG® buckle or shackles.
- ▲ Loop lined on the inside.

Weight: 185 g - size M / 6 oz

Product Id: BT-MSTG-CD5

Sizes: M/L/XL

Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

MUSTANG inner belt

Our inner belt works as a stabilizer for the MUSTANG and MOSQUITO belts. As it attaches to the inner loop panels of those belts, it prevents ride-up during dynamic movement - or when drawing a pistol from a holster. With this belt set-up there's no need to use suspenders or a drop leg panel in order to achieve a secure pistol draw.

Specs:

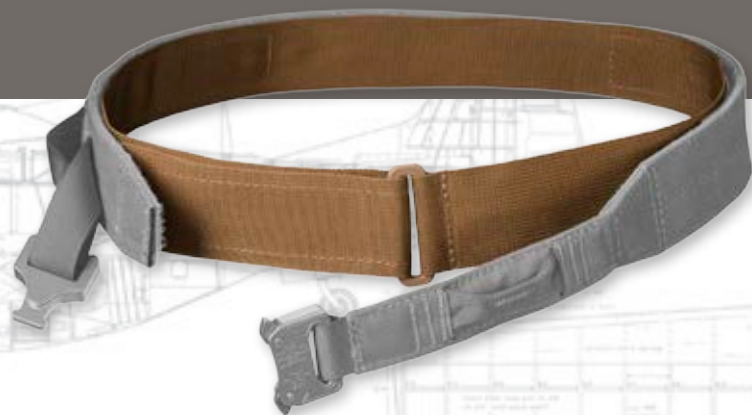

- ▲ Made out of proprietary laminate and Velcro hook.
- ▲ Flat, featherlight accessory to keep your pants & equipment belt where you'd expect them to be.
- ▲ Thin profile of the trouser belt effectively eliminates well known "buckle over buckle" discomfort.

Weight: 60 g - size M / 2 oz

Product Id: BT-INBT-CD5

Sizes: M/L/XL

Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

MOSQUITO modular belt system

Our MOSQUITO modular belt system is an extremely versatile platform - just like de Havilland's 'Wooden Wonder' from WWII. It works well in both low-profile and heavy-load configurations. It is compatible with Safariland® holster mounting screws, and accessory hip and drop leg panels.

Specs:

- ▲ Made of proprietary laminate, stiffened, Velcro loop lined,
- ▲ Designed to work as a belt sleeve for MUSTANG rescue / gun belt, will fit most standard rescue belts,
- ▲ Laser cut PALS slots interchanging with vertical openings on the sides allow for user-preferred equipment attachment options for holster, blade etc.,
- ▲ Additional stability can be achieved by using the MOSQUITO modular belt sleeve together with the MUSTANG inner belt,
- ▲ Low profile Y-style suspenders for use under armor available,
- ▲ Detachable stiffened hip panels available in two lengths available, long panel allows direct mounting,
- ▲ High ride drop leg panels available,

Weight: 240 g - size M / 8 oz
Product Id: BT-MQMS-CD5
Size: M/L/XL
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

* Please note that inner belt, hip panels and suspenders are sold separately.

Weight: 50 g / 2 oz

Weight: 130 g / 5 oz
Product Id: PL-LGPN-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

SPEED RELOAD POUCH rifle

Open top rifle magazine pouch, designed for speed reloads but with secure magazine carry at the same time. The special internal material, combined with a limited-size top opening and tension-adjusting elastic cord, prevents the magazine from falling out if it gets snagged.

Specs:

- ▲ Proprietary laminate, semi-rigid construction,
- ▲ Adjustable, holds single AR/AK/SR type magazine,
- ▲ Both PALS and direct gun belt mounting compatible,
- ▲ PALS slots on the outside for easy stacking,

Weight: 80 g / 3 oz
Product Id: PO-RFSR-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

SPEED RELOAD POUCH smg, pistol

Just like our rifle pouch, our pistol / SMG pouch is designed for speed reloads but with secure magazine carry at the same time. The special internal material, combined with tension-adjusting elastic cord, prevents the magazine from falling out if it gets snagged.

Specs:

- ▲ Proprietary laminate, semi-rigid construction,
- ▲ Adjustable, holds most double stack pistol magazines for 9 mm / .40 / .45 as well as 4.6 mm and 5.7 mm mags,
- ▲ Both PALS and direct gun belt mounting compatible,

Weight: 55 g / 2 oz
Product Id: PO-SMSR-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

Weight: 42 g / 1 oz
Product Id: PO-PTSR-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

TAC RELOAD POUCH rifle

Designed to fit all popular types of magazines (both AK and AR), our TAC RELOAD POUCH is a truly universal rifle mag pouch. Thanks to its built-in adjustable elastic cord system, the amount of tension on the magazines can be adjusted so that a partially empty pouch hold your remaining magazines/magazine just as securely as when the pouch is fully loaded.

Specs:

- ▲ Proprietary laminate construction.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Secured with adjustable Velcro flap with Hypalon puller.
- ▲ Holds up to 3 AR /2 AK /2 SR magazines.
- ▲ Can be adjusted to carry sniper rifle mags (.338, .308).

Weight: 80 g / 3 oz
Product Id: PO-RFTC-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

TAC RELOAD POUCH pistol

The TAC RELOAD PISTOL POUCH is a universal pouch designed to fit the most popular pistol magazines on the market.

Specs:

- ▲ Proprietary laminate construction.
- ▲ PALS compatible attachment.
- ▲ Secured with adjustable Velcro flap with Hypalon puller.
- ▲ Holds most double stack pistol magazines for 9mm / .40 / .45.

Weight: 40 g / 1.4 oz
Product Id: PO-PTTC-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

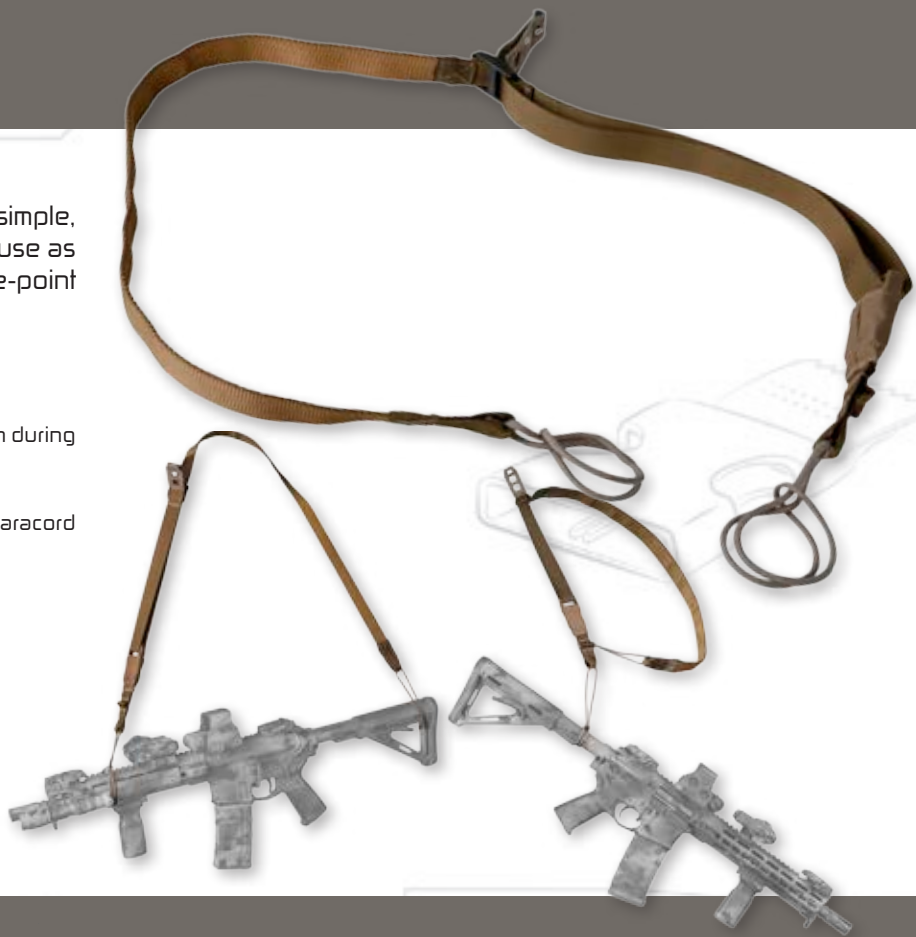

CARBINE sling

The CARBINE sling fills the requirement for a simple, lightweight, durable sling. Whilst optimized for use as a 2-point sling, it is easily convertible to a single-point configuration by the user.

Specs:

- ▲ Durable webbing construction,
- ▲ Tubular webbing in neck area to minimize abrasion during prolonged use,
- ▲ Hypalon quick adjust puller,
- ▲ Universal, no-noise, low failure rate, adjustable paracord attachment,
- ▲ Heavy duty ITW Nexus® hardware.

Weight: 85 g / 3 oz
Product Id: SL-CRBN-NLW
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

FLASHBANG pouch

A secure pouch for NICO, P1 and US type flashbang grenades. Can double as a pouch for 40 mm grenades, especially longer rounds (smoke, illum).

Specs:

- ▲ Proprietary laminate construction,
- ▲ Both PALS and direct gun belt mounting compatible,
- ▲ Elastic sides, internal safety lever sheath positioning the grenade.

Weight: 35 g / 1 oz
Product Id: PO-FLBG-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

GRENADE BANDOLEER 40 mm

This lightweight 8-round bandoleer fits most HE or similar 40 mm LV grenades. Made of laser-cut laminate. It can be carried on its own carrying strap, or attached to front portion of the MOSQUITO modular belt sleeve with T-ring type attachments and side release buckles.

Specs:

- ▲ Proprietary laminate construction.
- ▲ Can be carried on its own strap or attached via PALS or buckles.

Weight: 170 g / 6 oz
Product Id: BT-BD40-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

TRIPLE 40 mm GRENADE pouch

The PALS mounted pouch holds three 40 mm LV grenades.

Specs:

- ▲ Proprietary laminate construction.
- ▲ PALS compatible attachment

Weight: 55 g / 2 oz
Product Id: PO-40G3-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

MED POUCH vertical

Narrow, vertical setup of the individual first aid pouch. This three piece IFAK is designed to fit on chest rig side panel or on a belt - taking similar PALS real estate as a magazine pouch.

Specs:

- ▲ Proprietary laminate construction.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Holds carefully chosen setup of individual medical supplies.
- ▲ External pouch is adjustable with shockcord to minimize package.
- ▲ Internal Foldable medical insert is a separate element and can be layed out flat or stowed into a uniform pocket or dump pouch in emergency.

Weight: 170 g / 6 oz
Product Id: PO-MEDV-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

TOURNIQUET pouches

Marked "TQ" for easy identification, this pocket is made to carry most of the currently used tourniquet models such as SOFT-T or CAT. The key idea is to protect the life-saving device Velcro strips from dirt that can reduce its usability in a critical situation - whilst providing quick access and a more sturdy carry method than rubber bands.

Specs:

- ▲ Proprietary laminate construction.
- ▲ PALS and belt compatible, can be carried in vertical or horizontal position.
- ▲ Both PALS and direct gun belt mounting compatible.
- ▲ Velcro flap secured and open top variants.

Weight: 34 g / 1 oz
Product Id: PO-TNQT-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

Weight: 42 g / 1 oz
Product Id: PO-TNQT-CD5
Colors: AGR, UGR, CBR, BLK,
MCM, PGZ, PBL

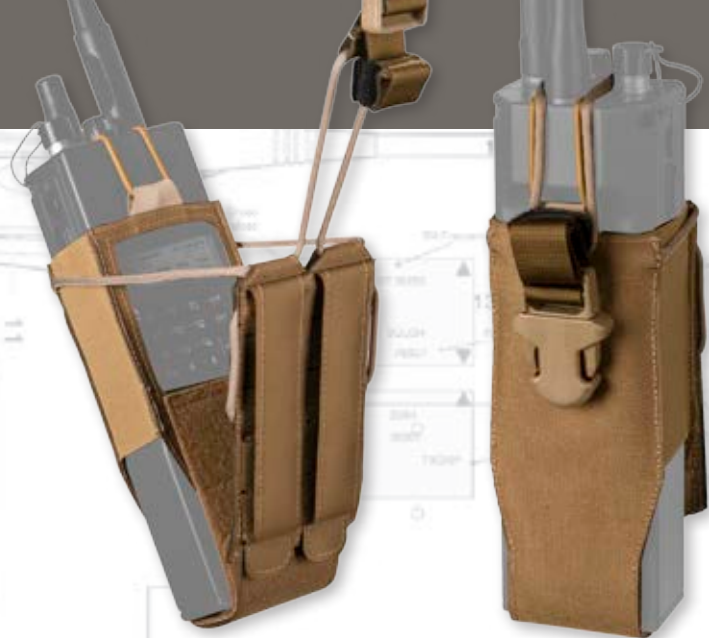

RADIO POUCH Harris 152/148

This radio pouch will securely hold and provide access to the currently most widely used radio models - whilst also allowing easy access to the control panel and screen.

Specs:

- ▶ Proprietary laminate construction.
- ▶ PALS and belt compatible.
- ▶ Adjustable to fit PRC-148 MBITR and PRC-152 FALCON III radios.

Weight: 125 g / 4 oz
Product Id: PO-RDUN-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

UTILITY POUCHES

Multipurpose, zippered utility pouches in 4 sizes. Smaller ones will hold multitools, navigational aids, weapon cleaning kit or similar small items, while bigger can hold NVDs, lightweight jackets, or small H₂O bladder.

Specs:

- ▶ Cordura® 500D and proprietary laminate construction.
- ▶ Sizes in PALS: Mini 2 x 3, Small 3 x 3, Medium 3 x 4, Large 4 x 4.
- ▶ PALS slots on bottom in medium and larger pouches.
- ▶ Elastic bands for retention of tools inside.

DUMP pouch

Classic foldable bag-type pouch for empty magazine or other items that need to be quickly stowed away. Rolls neatly into a small package and can be instantly opened with a solid tug of one hand on the long Hypalon pull tab. Bottom is made of mesh for drainage and debris, top can be tightened with a shockcord.

Specs:

- ▲ Cordura® 500D and proprietary laminate construction
- ▲ PALS and belt compatible

Weight: 125 g / 4 oz
Product Id: PO-DUMP-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

HYDRO utility pouch

Simple, lightweight pouch designed to hold the popular water containers such as USGI 1 qt canteen or 1l Nalgene® bottle - with or without cups. Pouch is adjustable to fit over smaller containers.

Specs:

- ▲ Cordura® 500D and proprietary laminate construction,
- ▲ PALS compatible.

Weight: 90 g / 3 oz
Product Id: PO-HYDR-CD5
Colors: AGR, UGR, CBR, BLK, MCM, PGZ, PBL

G17 OWB KYDEX LIGHT HOLSTER

This durable pancake style holster for Glock 17 is designed as a fail proof, emergency draw tool for CQB situations. Made to fit a suppressor ready pistol with the most popular lights on the market and red dot mounted to the slide. The adjustment screw allows for fit adjustment between different light models and adjusting the level of retention to user's preference. Integrated into the design are 3 holes allowing for use of Safariland® accessories - such as QLS system or mounting on the 6004 holster drop leg panel.

Specs:

- ▲ Thick, durable Kydex construction,
- ▲ Lightweight, sleek design to minimize snag hazard,
- ▲ Accepts Surefire's®: X400, X400V IR, X300, X200; Streamlight's: TLR-1, TLR-2, TLR-2IRW and other
- ▲ Compatible with Safariland® 3 hole attachment,
- ▲ 50 mm belt loop as standard.

Weight: 138 g / 5 oz
Product Id: HP-OWB-LU-G17-R-KDX
Colors: BLK, FDE

G17 OWB KYDEX NO LIGHT HOLSTER

This durable pancake style holster for Glock 17 designed to provide a more discrete and very comfortable carrying option. Every possible piece of excessive material was trimmed down - to lower the profile and make situations such as sitting in a car for a long time as comfortable as possible.

Specs:

- ▲ Thick Kydex construction,
- ▲ For: Glock 17,
- ▲ 50 mm belt loop as standard,
- ▲ Other pistol models in development.

Weight: 116 g / 4 oz
Product Id: HP-OWB-S-G17-R-KDX
Colors: BLK, FDE

UNIVERSAL IWB HYBRID HOLSTER

IWB holsters are a very personal thing - as you'd expect when carrying a loaded firearm in your pants. We've been through it all - and here is what we think is a best, most comfortable solution: A Hybrid design - with solid bull hide shielding your skin from the weapon and providing carrying comfort while heat molded Kydex shell takes care of proper gun retention, repeatable draw and re-holstering angle. It works best for 3/4/5 o'clock carry on your dominant side.

Specs:

- ▲ Hybrid leather / Kydex construction
- ▲ Fits: Glock 17; H&K USP/SFP; Walther P99; Sig Sauer 228/9; XDM
- ▲ 45 mm steel belt clip as standard.

Weight: 168 g / 6 oz
Product Id: HP-IWB-U-R-HYB
Colors: BLK

BALACLAVA FR

This classic balaclava design will protect your good looks against flash fire and short flame exposure. Stretchy and comfortable it provides a snug fit with most helmet liner systems and works well with ballistic goggles and glasses.

Specs:

- ▲ Full face and neck protection.
- ▲ Breathable & lightweight POLARTEC® FR stretch fabric.
- ▲ Flat seams.
- ▲ One size fits most.

Weight: 80 g / 3 oz
Product Id: CP-BIFR-CDR
Colors: LTC, AMG

NECK GAITER FR

Simple, yet surprisingly useful, this neck gaiter works great in multitude of roles. It can be used to cover and protect your neck and face from flash fire, dust or wind - next minute you can turn it into cap, scarf, headband or goggle cover.

Specs:

- ▲ Breathable & lightweight POLARTEC® FR stretch fabric.
- ▲ Flame Retardant (no melt, no drip).
- ▲ Flat seams.
- ▲ One size fits most.

Weight: 80 g / 3 oz
Product Id: CP-NGFR-CDR
Colors: LTC, AMG

BEANIE CAP FR

Cap for under the helmet or standalone use. Also good for running or just chilling.

Specs:

- ▲ Breathable & lightweight POLARTEC® FR stretch fabric.
- ▲ Flame Retardant (no melt, no drip).
- ▲ Flat seams.
- ▲ One size fits most.

Weight: 30 g / 1 oz
Product Id: CP-BNFR-CDR
Colors: LTC, AMG

For the 71st Anniversary of V-E Day, we decided to commemorate our distinguished WWII airmen, who served in the Polish Air Force Squadrons that fought alongside the RAF from the Battle of Britain to onwards.

The bravery and valor is all-too-often-forgotten. To honor them, we named our main platforms after the classic planes that these men flew, fought in, died in, and ultimately won the war in. Respect!

D.A. Legacy Line

Direct Action® story began during the IWA trade fair in Nuremberg, Germany in March 2014. It debuted as high-end nylon product line within large European apparel brand. Several models of backpacks and bags launched back then, were just a trigger for what came later and eventually led to transforming Direct Action® into an independent entity, focused on developing advanced warfighter equipment.

Innovation, quality and manufacturing capabilities showing in those designs was what brought the attention of SOF units to D.A.®. The nylon gear you can see on the following pages is what started the whole story.

DUST backpack

Dust® is a small 20+ liters backpack oriented towards use as EDC/one day pack platform.

It features two zippered compartments - main has an internal, padded laptop / hydration sleeve and an accessory mesh pocket. Smaller compartment has an internal organizer for notepads, GPS, writing utensils and other essentials, plus a clear vinyl pocket for maps and documents.

Externally there are 3 flat pockets - two on the sides can be stretched to fit water bottles. Side accessible flat pocket on the front surface is a good place to keep smaller items that need to be easily accessible without opening packs compartments.

Carrying straps and waistbelt of the Dust® backpack are adjustable and can be stowed away in the back panel, turning this pack into a slim, no-snap hand luggage.

Specs:

- ▲ Cordura® 500D laminate construction
- ▲ Laser cut PALS/MOLLE on front and sides
- ▲ Hydration bladder compatible
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Padded computer sleeve
- ▲ Woven 550 cord carrying handle
- ▲ Ventilated back panel - Combat Vent System®
- ▲ Velcro ID panel

Weight: 1210 g / 42 oz
Capacity: 20 liters / 1220 cu in
Size: 42 x 26 x 14 cm / 16.5 x 10 x 5.5 in
Product Id: PL-DST-CD
Colors: Black, Olive Green, PL Woodland, Coyote Brown, Ranger Green, Multicam®, PenCott GreenZone™, PenCott Badlands™, PenCott Snowdrift™, Kryptek Mandrake™, Kryptek Highlander™, Camogram®.

DRAGON EGG backpack

Dragon Egg® is a versatile 25+ liter platform suitable for the role of a basic assault backpack or larger EDC pack.

It features three zippered compartments - main has an internal hydration sleeve and an accessory mesh pocket. Smaller compartment has an internal organizer for notepads, GPS, writing utensils and other essentials, plus a zippered mesh pocket for small items. Third compartment is a reinforced, padded space to securely carry your laptop computer - has a separate access from the back panel side of the pack.

Externally, there are 2 side pockets than can be stretched to fit water bottles, plus a zippered, soft velour lined, glasses pocket in the upper portion of the pack. Daisy chain webbing runs along the front panel seam for attaching any carabiners or similar gear to the pack outside.

Carrying straps of the Dragon Egg® backpack are well padded for comfort and feature side release buckles for quick doffing. Waistbelt is detachable and can be stowed away.

Specs:

- ▲ Cordura® 500D laminate construction
- ▲ Laser cut PALS/MOLLE on front and sides
- ▲ Daisy chain webbing for extra gear/carabiners attachment
- ▲ Hydration bladder compatible
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Padded computer sleeve with separate access
- ▲ Woven 550 cord carrying handle
- ▲ Ventilated back panel - Combat Vent System®
- ▲ Velcro ID panel

Weight: 1580 g / 56 oz
Capacity: 25 liters / 1525 cu in
Size: 48 x 27 x 18 cm / 19 x 10.6 x 7 in
Product Id: PL-EGG-CD
Colors: Black, Olive Green, PL Woodland, Coyote Brown, Ranger Green, Multicam®, PenCott GreenZone™, PenCott Badlands™, PenCott Snowdrift™, Kryptek Mandrake™, Kryptek Highlander™, Camogrom®.

GHOST backpack

Ghost® is a 30+ liter backpack, scalable and well suited for the role of tactical 3-day pack.

It features main pack with two zippered compartments - first, larger, has an internal hydration sleeve and an accessory mesh pocket. Second, accessible from the back side of the pack is reinforced and will hold a large laptop computer.

Third pocket of the Ghost® platform is a detachable organizer pocket, completely separable from the main pack body. Normally, it is attached to the main pack via 4 buckles and adjustable shockcord, but it may be used completely on its own (it has its own carrying handle) for medical supplies etc. Internally this outer pocket has a lot of internal slots and pockets for gear organization, plus when attached to the Ghost® main pack it forms a beavertail-type flap, where you can pack additional clothing or lighter gear.

Externally, there are 4 pockets - two side pockets that may be stretched to fit water bottles. Additionally, there is a zippered, soft velour lined, glasses pocket in the upper portion of the pack and a flat zippered pocket below it.

Carrying straps of the Ghost® backpack are wide, and padded with stiffened closed cell foam, with side release buckles for quick doffing. Waistbelt of the Ghost® pack is a fully functional PALS/MOLLE belt that can be detached from the main body and used on its own with included low-profile suspenders.

Weight: 2300 g / 81 oz
Capacity: 28 + 3.5 liters / 1708 + 213 cu in

FOXTROT waist bag

Foxtrot® waist bag is a versatile piece of equipment that can be used for trekking, range, photography or as an enhanced medical kit carrier. Its zippered main compartment is Velcro lined with integral iPad/ebook sleeve and additional mesh pocket under the lid for smaller items. Set of external pockets include organizer, flat accessory pocket and side pockets - one fitting smaller water bottles, other, zippered - items like multitools etc.

One of the bag's unique features are foldable, padded belt flaps that give Foxtrot® great stability when worn in a waist bag configuration. Both flaps fold under the central pad if not used, also each has both a flat zippered pocket for small items like keys or lens cover and a PALS/MOLLE platform for additional pouches. Alternate way to carry Foxtrot® bag is to use its detachable carrying strap or handles - all depending on the application and user preferences.

Specs:

- ▲ Cordura® 500D laminate construction
- ▲ Laser cut PALS/MOLLE on body and belt flaps
- ▲ Velcro interior for user-customizable configuration
- ▲ Padded iPad/e-book sleeve
- ▲ Detachable shoulder strap with non-slip pad
- ▲ Elastic cord for packing clothing etc.
- ▲ Buckle/Velcro secured flap
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Velcro ID panel

MESSENGER bag small

Messenger bag in its smaller variant is an item designed to be compact EDC "grab bag" to carry one's essential items either for the range or civilian side of life. It will hold e-book readers or tablets as well as earpros, few packs of ammunition and a holstered sidearm. It's Velcro-lined interior and body-side pocket allow user for complete customization of the bag internal arrangement. Additional PALS/MOLLE mounting surface on the outside of the bag provide space for attaching accessory and magazine pouches under/over the bag's flap or on the sides.

Specs:

- ▲ Cordura® 500D laminate construction
- ▲ Laser cut PALS/MOLLE on flap, body and sides
- ▲ Velcro interior for user-customizable configuration
- ▲ Detachable shoulder strap with non-slip pad and stabilizing waist strap
- ▲ Low profile carrying handle
- ▲ Buckle/Velcro secured flap
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Velcro ID panel

MESSENGER bag

Medium sized messenger bag is a perfect platform for visit to the range or just daily activities. Its main compartment has a padded slot for smaller laptop or iPad type device plus its completely Velcro lined for user customization. Externally there are two zippered organizer pockets with slots for smaller electronics/tools/writing essentials. On sides there are open-top small water bottle pocket) and zippered one, that will fit a shot timer perfectly.

Bag is closed with a large flap, alternatively fastened with buckles or Velcro. On the inner side of the flap, there is a clear vinyl pocket and on the outside - a flat zippered one. Bottom of this messenger model bag is reinforced with non-slip material, plus there's an elastic cord weave if you consider carrying some clothing on the outside of the bag. Its body side has a flat, zippered pocket that can stow detachable shoulder and waist straps if you decide to carry your bag by its carrying handle alone.

Additional PALS/MOLLE mounting surface on the outside of the bag provide space for attaching accessory and magazine pouches under/over the bag's flap or on the side pocket surface.

Specs:

- ▲ Cordura® 500D laminate construction
- ▲ Laser cut PALS/MOLLE on flap, body and sides
- ▲ Velcro interior for user-customizable configuration
- ▲ Detachable shoulder strap with non-slip pad and stabilizing waist strap
- ▲ Padded laptop sleeve
- ▲ Reinforced bottom
- ▲ Elastic cord for packing clothing etc.
- ▲ Buckle/Velcro secured flap
- ▲ Heavy duty YKK® zippers, Duraflex® hardware
- ▲ Velcro ID panel
