

HELIKON-TEX®  
**35** YEARS

**2018**  
**MASTER**  
**CATALOG**

**DEAR USERS, FRIENDS, ALLIES  
AND BUSINESS PARTNERS,**

Thirty-five years is quite a milestone. It is a milestone defined by hopes, challenges, struggles, investments, failures and successes. To look into the future, we must learn from the past.

For many, 35 years may seem like ages. One may say that it is quite a feat. I won't deny it. However, I am still wondering how much further we can get, how many new challenges and undiscovered lands are still waiting ahead of us. We can't rest on our laurels. This thirty-five year milestone is a call to move on.

We are talking about the journey to perfection. Perfection is the goal that we are aiming at, although we know that perfection is unattainable. It's something that we will always aim for. Frankly, it's the best thing about it. You can always be better, and there is always room for improvement. That's why, after all, journey is the keyword in our 35th anniversary motto.

Something that at the beginning seemed to be merely a local business has developed into an international company. A sole trader business evolved into a family business, actively managed by the next family generation. Our products reach our clients from Scandinavia to South Africa, both Americas as well as Australia. We are proud to be of service to innumerable happy customers.

Thank you for all of those years and adventures together. We are happy to invite you to continue on our journey, the journey to perfection with Helikon-Tex.

Grzegorz Mieszczak  
CEO

### PAWEŁ SUPERNAT

Paweł, one of the founders of Survivaltech.pl, the largest survival company in Poland, represents so called old school. In 1988, he joined scouts where for over 20 years he learned everything about forest, trekking or bushcraft. He educated several generations of younger scouts. These were great years for developing and teaching how to use equipment because at that time almost no bushcraft or survival equipment was available in Europe. So he sew his own clothes, backpacks, pouches, or even boots or sleeping bags. The time in scouts led to his service in the 1st Special Commando Regiment. He also served in pro-defense organization as instructor, managed a scouting centre and worked in one of the major outdoor stores. He hiked across all Polish mountains, and explored caves. He imported specialist military, tactical and outdoor clothes and knives of top western brands to the Polish market and was responsible for their testing, assessment and promotion. In 2010, together with his friend he launched Survivaltech.pl brand focused on survival and bushcraft trainings and development of outdoor equipment. He created his own training program that proved to be very popular. He carried out trainings for military forces (including special forces), variety of organizations and companies. He is a designer of many popular products.

### GRZEGORZ URBAŃSKI

Reserve chief warrant officer, former special forces member with over 20-year long military experience. He enlisted in 1992 and began his military career assigned to the 62nd Special Company. After finishing noncommissioned officer school in 1994 he was assigned to the 1st Special Commando Regiment. His Last 7 years of service he spent in GROM. He has been numerous on mission abroad, including deployments to Lebanon, Iraq and three tours in Afghanistan. He is a parachutist instructor, senior combat diver and paramedic. He was discharged from military forces in 2011. He has instructed several courses for soldiers going to Afghanistan. He also trained soldiers in survival in diverse climate conditions and rough terrain in extreme climate. He took part in developing training programs for military forces. He is an experienced instructor in sport and recreation, in survival, rock climbing, self defense and shooting. In 2013, he started his own company, ŻWIRU TEAM, that provides specialist training and organizes adventure events. The company organized camps and courses for police and military schools. During his career in ŻWIRU TEAM, he provided course instruction for guards of oil installations; and also coordinated security for those installations. His ŻWIRU TEAM cooperates with numerous companies, schools and army.

### PIOTR SIEGIŃCZUK

Designer and maker of tactical gear. He made his first steps as a designer in mid 2000's drawing and making tactical gear for his own use. Soon after he decided to combine his passion with career, first in his own company in which he was designing and making custom tactical gear for most demanding users, including world's top special forces operators. Very time soon, he decided to join the Helikon-Tex R&D team, which finally became his main focus as a designer. Author and co-author of many successful projects of clothing, backpacks, vests/plate carriers/ chest rigs, battle belts, pouches or other tactical equipment. Thanks to many years of practical experience, he has huge knowledge not only in designing, types and models of equipment, but also in fabrics, hardware and narrow goods. He is also a specialist in sewing or modern and innovative methods used in making this kind of products, like laser cutting, fabric lamination or ultrasonic bonding etc. In his after work life he is a tactical and competition shooter, mainly in dynamic and 3gun competitions, firearms owner and enthusiast, author of numerous articles in gun magazines, but also person with many other passions like modern guns, model making, drawing and tattooing.

### MARCIN JĘDRZEJCZAK

Marcin Jędrzejczak has been into shooting for over 15 years. He has gained his experience mainly in his everyday work with weapons and during trainings with several instructors in Poland and abroad, which finally led him to his present job as a shooting instructor. He specializes in firearms combat, but not only in shooting, but the whole spectrum of using firearms, from weapon selection, handling through its use. Marcin launched his own company called Streetsmart that provides complex combat trainings. Streetsmart is a continuous study of practical use of weapons in everyday defense, consulting selection of weapons, equipment and training techniques. He contributes his experience into the products that were created in cooperation with Helikon-Tex company and some other anonymous persons. Stay safe and always keep your advantage!

### **Everyday's functionality**

Regardless of the activities and actions taken every day, each of us wear clothes. It is something that accompanies us daily. But clothes aren't everything – we often also carry additional equipment. Our Urban Line offers a whole range of products dedicated to everyday use. Functionality, simplicity and modern look is something that guide us in our designs.

**NEW EDC BACKPACK®**

CODE: PL-EDC-CD

FABRICS: CORDURA® 500D  
 WEIGHT: 1090 g | CAPACITY: 18 l  
 COLORS: 01 | 02 | 11 | 12 | 34 | 35

**NEW EDC BACKPACK LITE®**

CODE: PL-ECL-NL

FABRICS: NYLON 210D  
 WEIGHT: 575 g | CAPACITY: 18 l  
 COLORS: 01 | 02 | 11 | 12 | 35

EDC Backpacks® are part of the whole range of packs designed for every day use – in any place or situation. No matter if you are on the plane or fighting uneven battle with papers in the tough environment of urban jungle, we've got you covered. The packs are lightweight and even that they are simple in design, they are very versatile. Both models have front pockets that are compatible with Versatile Insert System with the possibility of mounting Insert Panel in the main compartment.

EDC Backpack® is made of 500D Cordura® with additional MOLLE/PALS system on its surface for mounting pouches etc. On front there is large velcro loop panel for easy personalization. Additionally, on front there is shock-cord section that allows you to carry rolled jacket or other light items. The stiffened back is covered with mesh fabric that enhances the breathability and comfort.

Ultralight version of EDC Backpack®. Instead of 500D Cordura® fabric, the pack is made of 210D nylon rip-stop. To even more reduce the weight of the pack it was stripped down of MOLLE/PALS webbing. On sides there are two mesh pockets. The front has shock-cord section to attach jacket or other small objects directly to the pack surface. The pack has lightweight carrying system. Thanks to technical solutions and advanced design the pack is great for Low Profile use.

- Back covered with mesh
- MOLLE/PALS system
- Compatible with Versatile Insert System
- Hydration bladder hanger
- Chest and waist straps
- Wooljin buckles
- YKK® zippers

- Lightweight construction
- Compatible with Versatile Insert System
- Chest strap
- YKK® zippers

**NEW MID-PRO BELT®**

CODE: PS-MPB-NL

FABRICS: NYLON  
WEIGHT: 140 g  
COLORS: 01

Mid-Pro Belt® is an EDC belt that can be used without getting unnecessary attention. The belt is designed to carry items such as pistol magazines, handheld flashlights, batons or other equipment with similar size and shape. The belt has one horizontal, internal zippered pocket for carrying flat, soft items. On the external layer the belt has two panels made of elastic webbing to organize the whole carried equipment. The belt is closed with AustriAlpin® Belt buckle.

- Internal, hidden zippered pocket
- Two elastic webbing panels for various equipment

- AustriAlpin® belt buckle

**NEW EDC SIDE BAG®**

CODE: TB-PPK-CD

FABRICS: CORDURA® 500D  
WEIGHT: 575 g | CAPACITY: 4,5 l  
COLORS: 01 | 02 | 11 | 35

EDC Side Bag® is a compact, universal bag for EDC equipment. The bag has spacious main chamber for larger items, and small front pocket with internal organizer. On the sides of the bag there is one small pocket for tiny essentials, and one universal, shock-cord adjustable water bottle/jacket holder. Front laser cut MOLLE/PALS system provides additional mounting space for extra pouches or other equipment. EDC Side Bag® has additional, hidden pocket that can be used to carry a full size handgun (either pistol or revolver). The pocket can also be used for mounting any Versatile Insert System-compatible items.

- External velcro panel for personalization
- 5 pockets
- Laser cut MOLLE/PALS system
- Water bottle/jacket holder
- Comfortable, adjustable shoulder strap with comfort pad
- Hidden pocket for handgun
- Mesh pocket for documents
- Versatile Insert System-compatible
- Wooljin buckles
- YKK® zippers

**NEW LAPTOP BRIEFCASE®**

CODE: TB-LBC-NL

FABRICS: NYLON 210D RIPSTOP  
WEIGHT: 425 g  
COLORS: 01 | 1101A

Tactical laptop case, designed to fit computer up to 15". Bag has two compartments lined with soft fabric to protect your precious computer from damaging or scratching. Two external pockets can fit your charger, mouse or other accessories. The bag has wide shoulder strap that can be stowed when not needed.

- Compatible with Versatile Insert System
- Wooljin buckles
- YKK® zippers

**NEW GROUNDHOG PACK®**

CODE: PL-GHG-NL

FABRICS: NYLON 210D RIPSTOP  
WEIGHT: 660 g | CAPACITY: 8,5 l  
COLORS: 01 | 11 | 12 | 35

Advanced, lightweight universal backpack. It can be used as EDC pack, during hiking or even as a light tactical pack. The pack has various, hidden features. Made of 210D nylon rip-stop fabric. The bag has integral, stowable beavertail for bike/tactical helmet or lightweight jacket. Side hidden mesh pocket with additional webbing stabilizers allow you to carry water bottles or other similar items. The backpack is compatible with MOLLE/PALS system via the 15mm wide MOLLE Lite modular system, making the pack modular, and yet keeping it lighter than with traditional 1" MOLLE webbing. On front the backpack has practical pocket for smaller items.

- Stowable beavertail made of elastic nylon mesh for helmet or jacket
- Stowable side mesh pockets
- Front expanding pocket
- Profiled shoulder strap and back covered with mesh
- Chest and waist straps
- MOLLE Lite system
- Lightweight WooJin buckles
- YKK® zippers

## TACTICAL T-SHIRT

CODE: TS-TTS-TC | TL

**FABRICS:** TOPCOOL®: 100% POLYESTER | TOPCOOL® LITE: 100% POLYESTER

**WEIGHT:** 226 g | 160 g

**COLORS:** 01 | 02 | 04 | 11 | 12 | 13 | 14 | 21 | 27 | 35 | 37

The Tactical T-shirt wicks humidity and dries quickly thanks to TopCool technology. Upper sleeve pockets can hold small items and their loops hangers are fit for eyeshades. Velcro panels would allow personalization.

- Great breathability
- Quick drying
- Webbing hanger for glasses

- Upper sleeve pockets
- Velcro ID panels

## UTL® Polo Shirt

CODE: PD-UTL-TC | TL

**FABRICS:** TOPCOOL®: 100% POLYESTER | TOPCOOL® LITE: 100% POLYESTER

**WEIGHT:** 250 g | 175 g

**COLORS:** 01 | 02 | 11 | 12 | 13 | 21 | 27 | 35 | 37

The UTL® Polo Shirt is made of thermoactive polyester with TopCool coating which keeps the shirt dry & cool. To make it even more functional, the button slot has an eyeshade holder loop, and left sleeve has a small buttoned pocket. The UTL® Polo can be utilized in all climates.

- Non-rolling collar
- Great breathability

- Loop hanger for glasses
- Left upper sleeve pocket

## WOMEN'S UTL® Polo Shirt

CODE: PD-UTW-TC

**FABRICS:** TOPCOOL®: 100% POLYESTER

**WEIGHT:** 230 g

**COLORS:** 01 | 02 | 11 | 13 | 35

Women look great in anything, they say, but our Polo Shirt makes them look even better. Bespoke profile to make every woman feel comfortable, whether on a shooting range or in everyday business. Functional Topcool fabric enhances the quality of UTL Polo experience. This fabric never wrinkles, nor pill during use, but most importantly – it wicks the humidity away from the body, which is very important in all outdoor activities.

- Anatomic, women-friendly design
- Light, breathable polyester fabric

- Non-rolling collar
- Ball-pen pocket

**DEFENDER Mk2 SHIRT short sleeve®**

CODE: K0-DS2-PR

FABRICS: POLYCOTTON RIPSTOP: 58% COTTON, 40% POLYESTER, 2% ELASTANE

WEIGHT: 320 g

COLORS: 01 | 02 | 13

The shirt is cut loose enough to allow movement, hide a low-profile body armor or IWB holster. The fabric is breathable and dries quickly. Front stiffener under the collar prevents collar rolling – it would stay neat even under duress. The button slat has an eyeshade holder. Four re-designed pockets are even spacier than before, allowing easier and more comfortable reach. Two breast outer pockets are covered with slightly oblique velcro-closed flaps. Two breast cargo pockets are underneath the outer pockets, closed with light and durable zippers.

- Breathable and quick-drying fabric
- Anatomic cut
- Non-rolling collar
- Eyeshade holder

- Two vertical outer pockets with oblique velcro-closed flaps
- Two breast cargo pockets, zippered
- Armpit ventilation openings

**DEFENDER Mk2 SHIRT long sleeve®**

**GREYMAN TACTICAL PANTS®**

CODE: SP-GTP-DC | SP-GTJ-DD

FABRICS: DURACANVAS® | DENIM MID: 76 % COTTON, 22% POLYESTER, 2% ELASTANE

WEIGHT: 430 g

COLORS: 01 | 09 | 11 | 31

The Greyman Tactical Pants® are tactical with capital T, yet discreet. They're cut straight and simple. Crotch gusset gives ease of movement and indestructibility. Waistband is elastic and velcro-fastened to allow adjustment. Belt loops would take even 50 mm wide belt. Nine pockets: two main classical cut, two inset, adding a flair of designer flavor, four back – spacious, while simple and functional plus one inner, inside the front right pocket.

- Elastic belt with velcro-closure for additional adjustment
- 50 mm wide belt loops
- Two classical front pockets
- One internal pocket inside front right pocket

- Two front inset pockets
- Four back pockets
- Crotch gusset for ease of movement and ruggedness
- YKK® - zippered fly

## URBAN TACTICAL SHORTS® 8,5"

CODE: SP-UTS-PR

FABRICS: 2-WAY ELASTIC POLYCOTTON RIPSTOP: 60% COTTON, 37% POLYESTER, 3% ELASTANE

WEIGHT: 445 g

COLORS: 01 | 09 | 11 | 12 | 13 | 27 | 32 | 35

By popular demand we have truncated out UTS® Shorts even shorter, to 8,5 inches. The cut and pockets layout allow them to stay civilian enough not to disclose the wearer's identity. By judicious layout of the pockets, equipment can be placed close to the center mass, around the hips and waist and the shorts are not at cross with human anatomy. Perfect choice for a stifling hot summertime.

- Two classical reinforced edge pockets
- Wide back pockets
- Two narrow pockets inside rear pockets
- Two thigh pockets closed with an inverted YKK® zipper
- Two front velcro-closed flapped pockets
- Elastic belt with velcro-closure
- 50 mm wide belt loops
- Two lanyard loops or D-rings at belt loops in front
- Classical blue jeans cut
- External length of the pant leg: 8.5"
- YKK® - zippered fly

## URBAN TACTICAL SHORTS® 11"

CODE: SP-UTK-PR

FABRICS: 2-WAY ELASTIC POLYCOTTON RIPSTOP: 60% COTTON, 37% POLYESTER, 3% ELASTANE

WEIGHT: 475 g

COLORS: 01 | 09 | 11 | 12 | 13 | 27 | 32 | 35 | 37

You need full UTP® functionality but it's stifling hot, and you wonder what to do? Try UTS®, or Urban Tactical Shorts®, a truncated supplement of our full-sized bestseller. The cut and pocket layout gives them a civilian enough look, but they retain full tactical functionality. The UTS® design allows them to contain all the tactical equipment of the full-sized version, while maintaining shapes following the man's anatomy.

- Two classical reinforced edge pockets
- Wide back pockets
- Two narrow pockets inside rear pockets
- Two thigh pockets closed with an inverted YKK® zipper
- Two front velcro-closed flapped pockets
- Elastic belt with velcro-closure
- 50 mm wide belt loops
- Two lanyard loops or D-rings at belt loops in front
- Classical blue jeans cut
- Internal length of the pant leg: 11"
- YKK® - zippered fly

## URBAN TACTICAL SKIRT®

CODE: ST-UTW-PR | DD

FABRICS: 2-WAY ELASTIC POLYCOTTON RIPSTOP: 60% COTTON, 37% POLYESTER, 3% ELASTANE | 80% COTTON, 19% POLYESTER, 1% ELASTANE

WEIGHT: 370 g

COLORS: 01 | 13 | 14 | 31

Up to now combining full functionality of the UTP® with our female clients clamoring for an even more feminine look seemed inconceivable. But here's our Short Tactical Skirt – a novel ladies' own Urban Tactical garment, probably the only such in the market. Full functionality of the classical UTP® in positively feminine version.

- Two classical front pockets
- Two wide back pockets
- Two thigh cargo YKK® - zippered pockets
- Two velcro flapped front pockets
- Elastic waistband with velcro fastener
- 50 mm wide belt loops
- Lanyard loops or D-rings
- Classic jeans 'neck' shape limits riding down
- YKK® - zippered fly

## URBAN TACTICAL PANTS®

CODE: SP-UTL-PR | PC | DD | NR

**FABRICS:** 2-WAY ELASTIC POLYCOTTON RIPSTOP: 60% COTTON, 37% POLYESTER, 3% ELASTANE | 2-WAY ELASTIC POLYCOTTON CANVAS: 58% COTTON, 40% POLYESTER, 2% ELASTANE | 2-WAY ELASTIC DENIM: 80% COTTON, 19% POLYESTER, 1% ELASTANE | NYCO: 50% COTTON, 50% NYLON

**WEIGHT:** 624 g

**COLORS:** 01 | 09 | 11 | 12 | 13 | 14 | 27 | 31 | 32 | 34 | 35 | 37 | 41 | 60

The Urban Tactical Pants® are main bottom apparel of the Urban Tactical Line®. By the cut and pocket layout they retain civilian enough lookout, not giving out the identity of the wearer. The UTP® design allows to carry tactical essentials and corresponds with the human anatomy. The loads are carried close to center mass – around hips and waist. Elastic fabric allows for ease of movements in tactical environment. Three types of fabric plus wide variety of colors allows to match UTP® trousers to the rest of wardrobe or working conditions.

- Elastic waistband with velcro fastener
- 50 mm wide belt loops
- Two key loops, D-ring or karabiner compatible
- Classic jeans 'neck' shape prevents riding down
- Two internal low profile pockets
- Two classical front pockets with strengthened edges for gear clips
- Two wide back pockets
- Two slim back pockets - depth-adjustable
- Two thigh cargo pockets with YKK® reverse
- Two front velcro-closed flapped pockets for smart phone or AR magazine
- Low Profile Insert Pads compatible
- Cuffs with cord channels
- YKK® - zippered fly

## COVERT TACTICAL PANTS®

CODE: SP-CTP-NL

**FABRICS:** VERSASTRETCH® 4-WAY ELASTIC NYLON 93%, ELASTANE 7% WITH DUPONT™ TEFLON® COATING

**WEIGHT:** 470 g

**COLORS:** 01 | 09 | 12 | 13 | 32 | 35 | 60

Covert Tactical Pants® are everyday tactical trousers, discreet yet functional. All tactical features are neatly disguised. There are ten pockets in total, of which four inner. Ease of movements is provided by combination of bespoke cut and expanding fabric. The crotch gusset prevents wearing the pants thin. In CTP's one would look equally all right in tweeds or in a hoodie.

- Elastic velcro-closed belt
- Crotch gusset
- Six hip pockets
- Four internal pockets
- Front pockets reinforced for light/knife carry clip
- 50 mm wide belt loops
- YKK® - zippered fly

## URBAN TACTICAL HOODIE®

CODE: BL-UHF-SF

FABRICS: 80% POLYESTER, 20% COTTON SWEATSHIRT FLEECE

WEIGHT: 850 g

COLORS: 01 | 35

To a casual glance Urban Tactical Hoodie® is but a hoodie – and deceptively so, as it is loaded with many tactically useful ideas. Two discreet zippered upper sleeve pockets and two concealed ones (within main pockets) offer additional carrying capability. Main pockets may look regular, but are extra large-sized. Inner mesh pockets can take eyeshades, a buff, or a balaclava. Central main zipper allows to quickly don and doff the hoodie.

- Three velcro ID panels
- Two upper sleeve YKK® - zippered pockets
- Two large cargo pockets lower front
- Two inner YKK® - zippered pockets
- Two inner mesh inner pockets
- Drawstring hood
- Cuffed sleeves
- Mesh-lined hood
- YKK® zippers

## ALPHA TACTICAL JACKET

CODE: BL-ALT-FG

FABRICS: POLYESTER, LIGHT GRID FLEECE

WEIGHT: 650 g

COLORS: 01 | 02 | 11 | 14 | 21 | 35

Alpha Tactical is an enhanced version of original Alpha Jacket. Its construction is equipped with additional velcro panels for easy personalization as well as two bicep pockets.

This is the base insulation layer from Urban Tactical Line®, dedicated for wearing in conjunction with outer soft or hard shells or as separate layer. Lightweight and packable, the Alpha Jacket can be compressed and easily transported in a backpack or separate pouch, providing immediate warmth in low temperature conditions. Mesh lining improves pleasant handling and skin comfort.

- Stand-up collar
- Full front neck-to-waist YKK® zipper with chin guard
- Bicep pockets with velcro panels
- Two bottom side slash pockets with zipper closure
- Chest pocket with wiring eyelet
- Elastic cuffs
- Elastic corded bottom with quick-locks for individual fit
- YKK® zippers

## ALPHA HOODIE®

CODE: BL-ALH-FG

FABRICS: POLYESTER, LIGHT GRID FLEECE

WEIGHT: 695 g

COLORS: 01 | 02 | 11 | 35

Alpha Hoodie® is a universal Urban Line product designed to warm body quickly. It can be used as a standalone garment or warming layer. Shoulder and elbow reinforcements prevent fleece elements from wearing thin. Two smaller pockets on upper arms and two full-sized pockets on lower front. The breast pocket has a wiring eyelet. Lower drawstring, together with sleeve and hood cuffs keep garment close to the body and keep it warm.

- Main zipper with chin protector
- Hood with elastic cuff
- Upper arm loop velcro panels for easy personalization
- Two upper arm pockets
- Two lower front pockets
- Napoleon (breast) pocket with wiring eyelet
- Shoulder and elbow reinforcements
- Adjustable lower drawstring
- Elastic sleeve cuffs
- YKK® zippers

## DELTA TACTICAL® JACKET

CODE: BL-DTT-FS

**FABRICS:** SHARK SKIN 4-WAY ELASTIC: POLYESTER 100% WITH DUPONT™ TEFLON® COATING

**WEIGHT:** 680 g

**COLORS:** 01 | 02 | 11 | 21

Delta Tactical is a lightweight soft shell layer made of double layer Shark Skin fabric, fit for everyday use. Light fleece and mesh lined for enhanced comfort. It more of an outdoor than tactical garment, which aids in keeping the operator identity from disclosing. The fabric protects from light rain and wind, and is nice to the touch. Seven zippered pockets would allow to distribute the carry essentials.

- High breathability
- Stand-up collar lined with fleece
- Front YKK® zipper with windflap and chin guard
- Upper sleeves velcro panels for easy personalization
- Two upper sleeve pockets with wiring eyelets
- Zippered chest (Napoleon) pocket
- Two zippered internal pockets
- Two zippered lower front external pockets
- Profiled, reinforced elbows
- Velcro-adjustable cuffs
- Bottom adjustment with elastic drawstring
- YKK® zippers

## URBAN HYBRID SOFTSHELL

CODE: KU-UHS-NL

**FABRICS:** STORMSTRETCH®, VERSASTRETCH®:

**WEIGHT:** 740 g

**COLORS:** 01 | 09 | 12 | 35 | 45

A softshell, as the name implies, should be soft, yet able to shield the user from elements. Urban Hybrid Softshell sets a new standard. By combining as many as three raw materials we have created a lightweight, expandable and breathing urban jacket. Urban Hybrid Softshell protects from wind, while the DWR (Durable Water Repellent) coating repels rainwater. Four pockets allow equal distribution of every day carry essentials, while small size allows it to be carried folded in a backpack while not in use.

- Two-way YKK® main zipper with wind flap
- Fitted hood with elastic ribbon along the edge
- Elbow reinforcements
- Elastic ribbons around the hood edge, sleeve cuffs and the bottom of the jacket
- Four zippered pockets: two lower front, two at the chest
- Lower pockets lined with fleece
- Mesh ventilation slots under armpits

## HUSKY TACTICAL WINTER JACKET

CODE: KU-HKY-NL

FABRICS: CLIMASHIELD® APEX™ INSULATION (100 g/m² FOR BODY, 67 g/m² FOR HOOD) WITH NYLON RIPSTOP OUTER LAYER DUPONT™ TEFLON® COATING

WEIGHT: 1200 g

COLORS: 01 | 11 | 36

The Husky is a winter tactical jacket. It is an enhanced version of LVL 7 apparel, modified for use in extreme winter weather by the law enforcement and other services in need of a winter tactical garb. This jacket is fitted with three concealable ID panels. The Quick Side Access™ provides easy drawing of holstered pistol and any other duty belt mounted gear. Husky is highly compressible – can be stuffed in a pack or cargo pouch, without losing any of its insulation properties.

- Keeps the user warm even when wet
- Front two-way YKK® zipper with wind flap and chin guard
- Helmet-compatible, collar stowed hood
- Hidden ID panels for law enforcement undercover operators (Front: 12 cm wide x 7,5 cm high, Back: 26 cm wide x 10 cm high)
- Outer chest pockets with D-Rings and device slots
- 'Dry' internal pockets for documents and other personal belongings
- Two internal bottom pockets
- Quick Side Access™ system
- Bottom adjustable for fit with elastic drawstring
- Velcro-adjustable sleeve cuffs
- WooJin buckles
- YKK® zippers
- Compression pack included

## COUGAR® JACKET

CODE: KU-CGR-SM

FABRICS: SHARK SKIN 4-WAY ELASTIC: POLYESTER 100%, MEMBRANE WINDBLOCKER HELIKON-TEX® WITH DUPONT™ TEFLON® COATING

WEIGHT: 1040 g

COLORS: 01 | 02 | 11 | 21 | 35 | 37

The Cougar® is a light membrane outer garment. The fabric used protects from wind and light rain. Collar-stowable hood is easily adjustable via pocket-accessible drawstring and rear tab. The jacket has three concealed ID panels, suitable for law enforcement stake-out jobs: two smaller front ones and one larger on the back. Two velcro-attached blank ID panels are enclosed for the user to embroider or print suitable identification. Upper-sleeve pockets have wiring eyelets. Cougar® has Quick Side Access™ system of zippered slots, allowing quick and easy access to belt-mounted items underneath.

- YKK® two-way zipper with chin guard
- Collar-stowable, adjustable hood
- Zippered armpit ventilation slots
- Hidden ID panels
- Two upper-sleeve pockets with wiring eyelets
- Internal velcro-closed pocket
- Zippered rear channel pocket
- Breast pockets with wiring eyelets
- Left lower sleeve zippered pocket
- Quick Side Access™ System
- Profiled elbow reinforcements
- Velcro-adjustable cuffs
- Bottom elastic drawstring
- WooJin buckles
- YKK® zippers

## TROOPER SOFT SHELL JACKET

CODE: KU-TRP-NL

FABRICS: STORMSTRETCH®

WEIGHT: 655 g

COLORS: 01 | 02 | 04 | 11 | 14 | 27 | 33 | 35 | 36 | 60

Lightweight jacket, rain- and wind-proof yet highly breathable. Collar-stowed hood is quick-deployable and adjustable to the headgear and headset. There are seven pockets: two breast outer, one breast inner, two upper-sleeve ones with wiring eyelets, one on left lower sleeve, and channel type loin pocket at the lower back. Easily compressed, it can be carried in a bag, backpack or cargo pocket.

- High endurance
- Two-way YKK® zipper with chin guard
- High breathability
- Lightweight and compressible
- Collar-stowable, adjustable hood
- Hood compartment closed with two-way zipper
- Armpit ventilation zippers
- Velcro ID panels on upper sleeves
- Upper sleeve pockets with wiring eyelets
- Channel lower back pocket, zippered on either end
- Outer chest pockets with wiring eyelets, D-Rings and device slots
- Left lower sleeve zippered pocket
- Profiled elbow reinforcements
- Velcro-adjustable elastic cuffs
- Elastic bottom drawstring
- YKK® zippers

## GUNFIGHTER JACKET

CODE: KU-GUN-FM

FABRICS: SHARK SKIN 4-WAY ELASTIC: POLYESTER 100%, MEMBRANE WINDBLOCKER HELIKON-TEX® WITH DUPONT™ TEFLON® COATING

WEIGHT: 972 g

COLORS: 01 | 02 | 04 | 11 | 14 | 21 | 23 | 27 | 33 | 35 | 37

Gunfighter Jacket is a lightweight outer layer with light fleece lining. This jacket provides maximum protection against wind, light rain and dirt, while maintaining high breathability. The collar-stowed hood can be fast deployed and adjusted to the shape and size of the head – even with headgear or headset on. There are seven pockets. Two external zippered breast pockets have internal organizers and lanyard D-rings. There's mid-sized internal velcro-closed pocket, two upper sleeve zippered pockets with wiring eyelets, one zippered pocket at left lower sleeve, and a channel pocket at the lower back. Anatomic cut does not hinder user movements, and elbow reinforcements enhance the durability of the garment.

- Front two-way YKK® zipper with chin guard
- Collar-stowed, adjustable hood
- Hood pocket with two-way zipper
- Armpit ventilation zippers
- Velcro-closed internal breast pocket
- Two upper sleeve pockets with wiring eyelet
- Velcro-closed internal breast pocket
- Lower back channel pocket, zippered at either end
- Two outer breast pockets with wiring eyelets, D-Rings and device slots
- Zippered lower left sleeve pocket
- Reinforced profiled elbows
- Partly elastic, velcro-adjustable cuffs
- Bottom elastic drawstring for individual fit
- YKK® zippers

## URBAN TRAINING BAG®

CODE: TB-UTB-CD

FABRICS: CORDURA® 500D

WEIGHT: 780 g | CAPACITY: 39 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 71 | 72

The Urban Training Bag® was designed to support your sport activities – whether training functions, fitness, or martial arts training. Takes your tracksuit, towel, gym shoes, other training essentials. Can serve as additional luggage piece, as the empty UTB® can be compacted to a very small size. Handle and bandoleer straps were routed under all of the bag, to enhance the durability of the bag. The bag has six zippered pockets.

- Light and soft design
- Compressible into one of its own pockets
- Large flap allows for easy and quick access
- Three internal mesh pockets
- Velcro ID Panel

## URBAN COURIER BAG MEDIUM

CODE: TB-UCM-CD

FABRICS: CORDURA® 500D

WEIGHT: 760G | CAPACITY: 9,5 l

COLORS: 01 | 02 | 11 | 12 | 35 | 1211A | 0135A | 3501A | 1112A

Urban Courier Bag Medium is a classic messenger bag, with features matching the day-to-day urban activities. Would make an ideal bike bag, student bag or just a bag you take going out to work. This project puts premium on durability and esthetics of the fabrics used, while numerous pockets should allow to optimize the essential kit carrying experience. It is easily adjustable to body contour and activity profile thanks to Universal Carrying Strap® and the auxiliary hip belt. Internal velcro panels allow for optional configuration of the interior with the use of Versatile Insert System.

Also available in larger version, as Urban Courier Bag Large.

- Velcro panels for easy personalization
- Universal Carrying Strap®
- Detachable hip belt
- Zippered pocket under flap
- External zippered front pocket
- Spacious main chamber with foam-lined laptop pocket
- Two external flask (0.5 liter) pockets
- Zippered secure, loop-velcro lined (body side) inner pocket
- Internal velcro panels Versatile Insert System-compatible
- Woolin buckles
- YKK® zippers

## URBAN COURIER BAG LARGE

CODE: TB-UCL-CD

FABRICS: CORDURA® 500D

WEIGHT: 860 g | CAPACITY: 19 l

COLORS: 01 | 02 | 11 | 12 | 35 | 1211A | 1112A | 0135A | 3501A

Urban Courier Bag is a classic messenger bag, with features matching the day-to-day urban activities. Would make an ideal bike bag, student bag or just a bag you take going out to work. This project puts premium on durability and esthetics of the fabrics used, while numerous pockets should allow to optimize the essential kit carrying experience. It is easily adjustable to body contour and activity profile thanks to Universal Carrying Strap® and the auxiliary hip belt. Internal velcro panels allow for optional configuration of the interior with the use of Versatile Insert System.

Also available in compact version, as Urban Courier Bag Medium.

- Velcro panels for easy personalization
- Universal Carrying Strap®
- Detachable hip belt
- Zippered pocket under flap
- External zippered front pocket
- Spacious main chamber with foam-lined laptop pocket
- Two external flask (0.5 liter) pockets
- Zippered secure, loop-velcro lined (body side) inner pocket
- Internal velcro panels Versatile Insert System-compatible
- Woolin buckles
- YKK® zippers

**WOMBAT MK2®**

CODE: TB-WB2-CD

FABRICS: CORDURA® 500D

WEIGHT: 750 g | CAPACITY: 11 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35

Wombat Mk2® is a light bag designed to pack much stuff into it – it would be an ideal kit bag, car duffel or range bag. Durable fabrics and carry strap allow to carry in comfort. Featured solutions allow individual compartmentalization of the interior. There are four external zippered pockets and one inset pocket with velcro panel.

- Universal Carrying Strap®
- Spacious main chamber
- Four external zippered pockets
- Inset external zippered pocket

- Versatile Insert System-compatible
- WooJin buckles
- YKK® zippers

**BAIL OUT BAG®**

CODE: PL-BOB-NL

FABRICS: CORDURA® 500D, NYLON 210D

WEIGHT: 2370 g | CAPACITY: 25 l

COLORS: 01 | 11 | 12 | 35 | 1211A | 3501A

Main advantage of the BOB® backpack is the ability to transport it open and attached to the car seat. On separating from the seat, it morphs into discreet backpack. No external flashy "tactical" gizmos to attract the unwanted eye to the contents. Inside a special pocket holds a small seating mat. BOB® has got four inner mesh pockets, a MOLLE/PALS panel and two open outer pockets.

- Car seat back attachable
- Four internal mesh pockets (two zippered, two cord-adjustable)
- MOLLE/PALS panel for additional pouches attachment
- Hydration system pocket
- Sleeping mat-convertible
- Two external YKK® - zippered pockets
- Internal, zippered mesh pocket on the flap
- Four external "grab'n'go" handles

- Profiled, ergonomic straps
- Comfortable carrying system
- Two external water bottle/windshirt pockets
- Low profile external design
- Additional beavertail transformable into an improvised bag
- WooJin buckles
- YKK® zippers

**RAIDER® BACKPACK**

CODE: PL-RID-CD

FABRICS: CORDURA® 500D, NYLON 210D

WEIGHT: 1465 g | CAPACITY: 20 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 72

Raider® is an advanced EDC backpack for any occasion. The main chamber has a velcro panel to attach inserts compatible with our Versatile Insert System, an elastic band cuffed pocket and a zippered one. Organizer pocket for small items is situated at the top of the backpack, and is accessible without the need to open the main chamber. Front of the pack has a soft-lined sunshades / electronics pocket. Two open top side pockets carry windshirt or water bottle. Front Beaver tail panel is capable of holding a biking or tactical helmet.

- Main chamber with velcro panel
- Outer organizer pocket accessed independently
- External eyeshades pocket
- Stowable, partly elastic Beaver tail
- Anatomic straps
- Quick-detachable straps

- Two side pockets
- MOLLE/PALS-compatible
- Integral rain cover
- Versatile Insert System-compatible
- WooJin buckles
- YKK® zippers

## URBAN ADMIN POUCH®

CODE: MO-003-CD

FABRICS: CORDURA® 500D

WEIGHT: 243 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72

The Urban Admin Pouch® allows to sort out the EDC essentials. A fairly large front velcro-closed pocket would contain a large smartphone or external HDD. The internal wall has a removable velcro-fastened stand-alone organizer. The Admin Pouch can be worn on belt or integrated with MOLLE/PALS.

- Made of Cordura® 500D
- Front velcro ID panel
- Outer adjustable capacity pocket
- Main pocket with internal velcro panel, small item elastic bands and zippered pocket
- Internal detachable standalone organizer, compatible with Versatile Insert System
- DUTY BELT/MOLLE/PALS-compatible
- YKK® zippers

## POSSUM® WAIST PACK

CODE: TB-PSM-CD

FABRICS: CORDURA® 500D

WEIGHT: 198 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72 | 0102A | 0135A | 1112A | 1211A | 3501B

Bandicoot's® little brother is as versatile, but more streamlined and compact. It still has two zippered pockets (one on the blind side), and an velcro ID panel, same detachable hip belt/bandoleer, as well as MOLLE/PALS ribbons and internal zippered mesh pocket. Only the internal organizer is non-removable which cuts the weight down but all the key features are there.

Smaller size, full functionality and over a dozen colors make the Possum® pack one of the indispensable urban equipment choices.

- Fixed internal organizer
- Zippered blind-side external pocket
- Velcro ID panel
- Internal mesh zippered pocket
- Outer zippered pocket
- Easy internal personalization
- Compatible with MOLLE/PALS
- Adjustable and detachable hip belt
- Belt buckle can be easily re-arranged
- YKK® zippers

## BANDICOOT® WAIST PACK

CODE: TB-BDC-CD

FABRICS: CORDURA® 500D

WEIGHT: 264 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72 | 0102A | 0135A | 1112A | 1211A | 3501B

Bandicoot® medium-sized waist pack offers a number of unique features in a smooth, low-profile package. Spacious main chamber apart from a zippered mesh pocket has got a detachable Versatile Insert System-compatible organizer. Two outer zippered pockets allow safe and easy distribution of the equipment. Two-way zipper allows equal access from either side of the chamber. Adjustable hip belt can also serve as a chest bandoleer or be detached at all.

- Detachable internal organizer
- Zippered blind-side external pocket
- Velcro ID panel
- Internal mesh zippered pocket
- Outer zippered pocket
- Easy internal personalization
- Compatible with MOLLE/PALS
- Internal velcro panel Versatile Insert System-compatible
- Adjustable and detachable hip belt
- Belt buckle can be easily re-arranged
- YKK® zippers

## URBAN TACTICAL BELT

CODE: PS-UTL-NL

FABRICS: NYLON  
WEIGHT: 166 g  
COLORS: 01 | 02 | 11 | 35

The UTL® belt is a simple and durable trouser belt. Lack of metal parts makes it ideally suitable for all uniformed services, allowing to pass metal detecting gates without ignominy of holding pants in one's hand. The design and utilized raw materials allow the belt to serve other purposes as well – e.g. as constricting belt for external loads. Urban Tactical Belt® sports an easily adjustable buckle.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- Easy Blocking System™ Polymer buckle
- 45 mm Nylon webbing

## COBRA TACTICAL BELT FC38 | FC45

CODE: PS-CC8-NL | PS-CC4-NL

FABRICS: NYLON  
WEIGHT: 184 g | 218 g  
COLORS: 01 | 02 | 11 | 35

Cobra belt is an outstandingly durable and functional nylon webbing belt fitting all types of trousers featured in our catalog. Perfectly fit for all everyday urban jungle use, as well as for the tactical use.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- Patented AustriAlpin® Cobra® FC38 | FC45 buckle
- 38 mm | 45mm width

## TACTICAL COBRA BELT GT (GT45)

CODE: PS-CG4-NL

FABRICS: NYLON  
WEIGHT: 200 g  
COLORS: 01

General purpose pants belt with a patented AustriAlpin® GT Cobra® buckle, made of durable polymer. The closing mechanism renders opening the buckle under duress impossible. Cobra Belt is a superb choice for both uniformed officers and civilians.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- AustriAlpin® GT Cobra® buckle
- 45 mm wide

## URBAN TACTICAL GLOVES

CODE: RK-UTL- PU

**FABRICS:** 45% POLYURETHANE, 45% NEOPRENE, 5% PVC, 3% TPR, 2% ELASTANE

**WEIGHT:** 96 g

**COLORS:** 01

The UTL Gloves were designed to provide solid grip, while allowing for precision and protecting the palm. The size is adjustable at the wrist. A PVC panel on the interior improves the grip, preventing items from slipping out.

- Neoprene upper parts
- Anti-slip PVC lower

- Ventilation slots between fingers
- Velcro-adjustable wrists

## URBAN TACTICAL VENT GLOVES

CODE: RK-UTV- PU

**FABRICS:** 60% SYNTHETIC LEATHER, 30% POLYESTER, 7% MICROFIBER, 3% POLYURETHANE

**WEIGHT:** 76 g

**COLORS:** 01

UTV are tactical gloves even more breathable due to the fabrics and raw materials used in their construction – while retaining all the advantages of the earlier tactical gloves. They conform the hand profile tight and provide positive grip. Wrist adjustment allows for a degree of size fitting.

- Neoprene upper part
- Anti-slip PVC liner
- Breathable fabric between the fingers and on the top of the palm

- Tear-vulnerable points additionally reinforced
- Velcro-adjusted wrist

## LOW PROFILE PROTECTIVE PADS

CODE: OC-LPI- NE

**FABRICS:** NEOPRENE

**WEIGHT:** 100 g

**COLORS:** 01

Easy to use knee or elbow protective pads made of 6-mm thick Neoprene. Just insert into dedicated pockets. Optimal thickness and size guarantee maximum usefulness while keeping low profile.

- 6 mm thick
- One-sided laminated with Nylon

- On cropping compatible with UTP®, OTP, USM, SFU™, SFU NEXT®, ACU and CPU®

### **Passion and precision**

Our Range Line products are the effect of passion, experience and innovative vision. Our products are used by both competition and long-distance shooters, instructors and novice shooters. The constantly enlarging list of compatible products allows you to create your own, personalized system for the shooting range.

This year Helikon-Tex® decided to offer high quality polymer holsters for one of the most popular pistol systems - Glock. The whole range of holsters are great not only for duty use, but also for any condition of everyday carry or even for competition. The holsters are compatible with various mounting options, including popular paddles, belt loops or MOLLE attachment. Many different models designed for almost every mission type - for rapid draw with weapon hold only by holster tension or with locking system deactivated with your trigger finger. Made of high quality, durable military/LE grade polymer.

Along with pistol holsters, we offer also some additional weapon accessories, including shot shell carriers, well mags or polymer pistol magazine pouches.

**NEW RELEASE BUTTON HOLSTER FOR GLOCK 17 WITH PADDLE****CODE: KB-PRG-MP****FABRICS:** MILITARY GRADE POLYMER**WEIGHT:** 110 g**COLORS:** 01

- Can be attached to paddle, belt loop, MOLLE or drop leg platform

**NEW WEAPON CLEANER**

CODE: CC-CA4-SC

FABRICS: AEROSOL  
WEIGHT: 340 g (400 ml)

Weapon cleaner & degreaser is a universal, organic based solvent, that can be used for grease/oil/stain removal. It provides low temperature grease cleaning and is perfect as preparation process for weapon bluing. Easy to use. Evaporates quickly. Does not react with plastic or polymer parts.

**NEW PENETRATING OIL WITH MOS2**

CODE: CC-PM4-OL | CC-PM1-OL

FABRICS: AEROSOL  
WEIGHT: 350 g (400 ml) | 95 g (100 ml)

MoS2 Penetrator is a modern and extremely effective cleaning product containing molybdenum disulphide. Thanks to its strong cleansing properties it reaches to even the most difficult areas of the firearm. It removes any residue, sediments of brass, tombac and gunpowder that occurs during weapon use. The addition of molybdenum disulphide prolongs firearm life by decreasing friction between its elements. Penetrator protects all metallic surface, thanks to it's highly oxidation resistance.

**NEW GUN OIL**

CODE: CC-OA4-OL | CC-OA1-OL | CC-OM1-OL

FABRICS: AEROSOL | ATOMISER  
WEIGHT: 375 g (400 ml) | 90 g (100 ml) | 105 g (100 ml)

Gun oil is a universal product for firearm care. Thanks to it's unique composition it is perfect for lubricating and conservation of all gun elements. Being natural-based product, it can be used for wooden elements care. Formula was tested for prolonged gun storage. Does not have aggressive smell. Glycol free.

**NEW** HIGH TEMPERATURE CERAMIC GREASE 5 g

CODE: CC-CG5-GR

WEIGHT: 15 g

High temperature ceramic grease by ProTechGuns is perfect for lubrication of all moving parts of weapons – bolts, slides, triggers etc. Prevents sintering, corrosion and wear.

**NEW** WEAPON CLEANING WIPES

CODE: CC-WCW-PA

WEIGHT: 5 g

Our Clean Gun Wipes are moistened with anti-corrosion lubricant, making them the fastest way to clean your firearm after use.

**NEW** PISTOL CLEANING KITS

CODE: CR-S38-CP | CR-S40-CP | CR-S45-CP

WEIGHT: 80 g | 80 g | 85 g

- Excellent for cleaning the barrel of your weapon
- Copper rod with polymer handle for lifetime use
- Cleaning swab for thorough scrubbing action
- Nylon swab for cleaning pistols without scuffing
- Bronze swab for effectively removing residue from the bore
- Compact size
- Available for .38/9mm, .40 and .45 cal. pistols

## NEW RANGE CHAIR®

CODE: AC-RCR-CD

FABRICS: CORDURA® 500D

WEIGHT: 1335 g

COLORS: 11 | 34 | 35

No matter if you are a competition shooter, hunter or just shooting enthusiast, one thing is always the same - you spend most of the time shooting in standing position. But sometimes you just need to sit down for a while, to rest, think about your results on the shooting target, or to wait on your turn on the dynamic shooting stage. As we all know, there is never enough sitting space on the range. Our Range Chair® is the perfect solution to this issue. Lightweight, packable, and very comfortable, it gives you possibility to sit around, and when needed to quickly move it to another spot. Very stable, can be used on various grounds, so that it will work great not only on the flat range, but also during any outdoor trips. Thanks to lightweight construction and small size when folded, it can be attached to your backpack, so you can always have it with you.

- Compact and portable when folded
- Lightweight, yet durable Cordura® 500D construction
- Mesh panels for enhanced breathability
- Two mesh pockets for water bottle or similar items
- Comfortable even for prolonged use
- Stable - can be used on various surface
- WooJin buckles
- Supports weight up to 150 kg
- Easy assembly

## NEW TWO POINT CARBINE SLING®

CODE: ZW-RFS-NL

FABRICS: WEBBING: NYLON / MESH: POLYESTER / VERSASTRETCH®

WEIGHT: 130 g

COLORS: 01 | 02 | 11 | 12 | 35

Two Point Carbine Sling® comfort pad on the shoulder area provides better weight distribution of the gun. Additional 20cm long pocket on the comfort pad provides extra carrying space for two AA or three CR123 batteries. On its basic configuration the sling is mounted to the gun via webbing with triglides and adapters to the dedicated ports on the weapon. The sling can be easily and quickly adjusted to needed length. Made of 25mm (1") nylon webbing and WooJin buckles to guaranteeing high durability and reliability.

- Two types of weapon mounts
- Pocket for small items
- Loop velcro panel for personalization
- Comfort pad for better weight distribution
- WooJin buckles

## NEW BASIC RIFLE CASE®

CODE: TB-BRC-CD

FABRICS: CORDURA® 500D

WEIGHT: 1000 g

COLORS: 01 | 11 | 12 | 34 | 35 | 41 | 63 | 72

Basic Rifle Case® was designed to securely and comfortably carry scoped AR carbine. The bag can be carried with heavy duty handles or on shoulder straps, which can be stowed in dedicated pocket when not needed. The bag has two external pockets – one of them with internal organizer, zippered pocket and Versatile Insert System-compatible velcro panels. The main chamber of the bag has integral weapon stabilization system made of webbing and velcro-based holders that can easily be configured to your need. Specially designed pouches prevent the weapon from moving during transport. The bag has also additional divider that separates the weapon from the rest of the equipment.

- Heavy duty carrying handles
- Adjustable shoulder straps, that can be stowed in dedicated pouch when not needed
- Two external, zippered pouches with internal velcro panels compatible with Versatile Insert System, zippered pockets and organizer.
- Main chamber for weapon carry – compatible with one scoped AR, or two stripped down AR carbines.
- Elastic webbing holders for cleaning equipment
- Internal mounting system, preventing the weapon movement
- External velcro panel for easy personalization
- WooJin buckles
- YKK® zippers

## TRAINING MINI RIG®

CODE: **KK-TMR-CD**

**FABRICS:** CORDURA® 500D

**WEIGHT:** 660 g

**COLORS:** 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 71 | 72

Training Mini Rig® was designed for people who spend a lot of time at the shooting range – instructors, shooting enthusiasts, competitive shooters. Minimalistic, symmetrical layout of the Training Mini Rig® was inspired by one of the most famous US tactical shooting instructors. Our rig would accommodate a basic load of magazines, some additional ammunition, multi-tool, flashlight etc. – all you need for an advanced, serious training session.

- Universal, removable, adjustable H-harness
- Three velcro personalization panels: on main pouch, Med Insert Pouch and at the back of the harness
- Double Rifle Magazine Insert for two AR/AK magazines included
- Main pouch with internal organizer and zippered mesh pocket
- Zippered pocket in main pouch
- Four fixed pouches for handgun magazines, multitool, flashlight
- Height-adjustable pouch flaps with position markers
- Two fixed AK/AR magazine pouches
- Spacious central Cargo pocket
- MOLLE/PALS mounted pouch for medical insert
- Bottom PALS panel for additional pouches/accessories/ tactical tourniquet
- Detachable hip belt
- YKK® zippers

## LOGO BASEBALL CAP®

CODE: **CZ-LGC-PR**

**FABRICS:** POLYCOTTON RIPSTOP: 60% COTTON, 40% POLYESTER

**WEIGHT:** 70 g

**COLORS:** 1211A | 0212A | 1102A | 1411A | 0102B | 0135B

Baseball hat with Helikon-Tex logo® and velcro panels for easy personalization. Visor bottom velour lined.

- Velcro panels for easy personalization
- Underside of the visor lined in velour
- Helikon-Tex® logo embroidery

## RANGE BEANIE CAP®

CODE: **CZ-RBN-FG**

**FABRICS:** 95 % POLYESTER, 5% ELASTANE, HELIKON-TEX® COMFORT DRY 210 g/m² BREATHABLE GRID

**WEIGHT:** 90 g

**COLORS:** 01 | 02 | 11

Based on the famous USMC Beanie Cap, dedicated for shooting sports. Loop-velcro panels enable ID or morale patches to be attached. Paracord loop enables it to be hung securely: when not worn, it can be attached to a jacket button, or hung to dry on the backpack. Also has a small pocket at the back for emergency earplugs or similar small items. Made of grid fleece which insulates and wicks humidity.

- Breathable, warm fabric
- Loop-velcro ID panel
- Paracord loop
- Zippered pocket for small objects like earplugs

## POLO RANGE®

CODE: PD-RNG-TC

**FABRICS:** TOPCOOL®: 100% POLYESTER / VERSASTRETCH®

**WEIGHT:** 370 g

**COLORS:** 01 | 11 | 12 | 35

The Polo Range® shirt was designed by the professional shooters and is dedicated for shooting range use. The fabric is nice to touch and quick-drying. Sides are made of VersaStretch®, protecting the area vulnerable to wear and tear from gun belt and belt-mounted equipment. Elbow area have internal pockets for Low Profile Protection Pad Inserts. Mesh panels in armpits to enhance the functionality. Two velcro panels on upper sleeves allow easy personalization. The shirt has two upper sleeve pockets and sunshades loop.

- Abrasion-resistant side VersaStretch® panels
- Elbow reinforcements with Low Profile Protective Pad Inserts pockets
- Two zippered bicep pockets
- Sunglasses loop
- Main YKK® zipper
- Stiffened collar
- Velcro panels on upper sleeve for easy personalization
- Mesh armpit panels
- Tight fitting sleeve cuffs

## HYBRID TACTICAL PANTS®

CODE: SP-HTP-PR | NR

**FABRICS:** 2-WAY ELASTIC POLYCOTTON RIPSTOP: 60% COTTON, 37% POLYESTER, 3% ELASTANE / VERSASTRETCH® | NYCO RIPSTOP: 50% COTTON, 50% NYLON / VERSASTRETCH®

**WEIGHT:** 600 g

**COLORS:** 01 | 09 | 12 | 13 | 32 | 35 | 41 | 42 | 43 | 45 | 60

Hybrid Tactical Pants® are shooter-dedicated development of the UTP® made of two fabrics: ripstop and softshell. This innovative amalgamation resulted in an exceptionally comfortable and durable product. Fabrics used for the HTP® pants enhance the ease of movements, while reinforcements in critical areas protect from wear and tear to enhance durability of the product. Six pockets around hips allow the loads to be spread evenly.

- Hybrid softshell/ripstop construction: durable, 4-way elastic softshell on knees and seat, lightweight and breathable ripstop on legs and pockets
- Velcro-adjustable elastic waistband
- Crotch gusset
- Six hip pockets (2 front/2 side/2 rear)
- Two medium-sized thigh cargo pockets with internal organizers
- Reinforced lower leg
- Wide belt loops to support gun belt
- YKK® - zippered fly

## BACKBLAST MAT

CODE: AC-MBB-CD

**FABRICS:** CORDURA® 500D / ANTI-SLIP

**WEIGHT:** 1626 g

**COLORS:** 02 | 11

Lightweight shooting mat designed for precision shooting. It can be rolled into small package and easily carried by the handle or with a shoulder strap. Elbows and knees area is reinforced with anti-slip pads. Loop velcro panel for mounting additional pouches and inserts with ammunition, ballistic tables, tools, logbook etc. The Backblast shooting mat has integral loops to pin it down at the firing line, pouch to store the pins, as well as detachable bipod Y-strap enhancing the rifle stability.

- Foam padding
- Elbow and knees reinforced with anti-slip pads
- Pin loops for mat stabilizing
- Velcro mounting panel for accessory pouches and inserts: ammo wallet, ballistic charts cover, monopod pad, etc.
- Pin pouch, also for stowing shoulder strap and bipod strap
- Detachable, adjustable bipod stabilizing Y-strap, attachable at 3 possible points
- Carry handle and detachable carrying strap

## AMMO BUCKET®

CODE: TB-ABK-CD

FABRICS: CORDURA® 500D

WEIGHT: 350 g

COLORS: 01 | 02 | 11 | 12 | 35

Ammo Bucket® is as simply designed, as the name implies. It is a rugged sack to carry and organize ammunition on the range. The sack has a stiffened, padded bottom, isolated from the ground, and two compartments inside to accommodate two types of ammo (or ammunition and empty brass). It also features a designated brass bag for reusable brass recovery.

- Small size when empty
- Internal dividers to sort ammunition
- Lace-drawn collar to protect the contents
- Velcro-closed flat internal pocket for small stuff
- Velcro-closed external pocket
- Two carry handles
- Velcro ID panel
- Detachable shoulder strap
- Recovery bag included

## SINGLE PISTOL WALLET®

CODE: MO-SPW-CD

FABRICS: CORDURA® 500D

WEIGHT: 358 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35

Single Pistol Wallet® protects single handgun from mechanical damage (scratching mainly), during your way onto the range. In basic configuration would carry one full-sized handgun (either pistol or revolver) and two magazines.

- Carry handles
- Velcro ID panel
- Internal fastening system to prevent weapon from shifting in transport
- Inside lined with loop-velcro (Versatile Insert System-compatible) to attach organizers, pouches, as well as retention straps to protect handgun from shifting
- Internal collar protects handgun from being scratched by zipper
- Handgun Transport Insert and Double Elastic Insert® for two magazines (Versatile Insert System-compatible) included, inserts with quick doffing pullers
- YKK® zipper

## DOUBLE PISTOL WALLET®

CODE: MO-DPW-CD

FABRICS: CORDURA® 500D

WEIGHT: 555 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35

Double Pistol Wallet® ideally protects two handguns from being damaged by physical contact with other hard edged objects carried together. This enlarged version of our Pistol Wallet would carry two full-sized handguns (either pistols or revolvers) and up to three magazines

- Carry handles
- Velcro ID panel
- Two-way YKK® zipper
- Loop-velcro lined to allow adding organizers and pouches, plus weapon retention for transport (Versatile Insert System-compatible)
- Additional pleat to protect weapon from bumping into the zipper
- Two Handgun Transport Inserts and Triple Elastic Insert® for three magazines included with quick-doffing pullers (pouches are compatible with Versatile Insert System)
- Additional pocket for small parts, extra magazines, flashlight or cleaning accessories

## SERVICE CASE®

CODE: MO-SVC-CD

FABRICS: CORDURA® 500D

WEIGHT: 710 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 71 | 72

Larger pouch for cleaning kits to conform the range bags. No matter where you are: at home or on the range, you have one dedicated cleaning kit pocket with an organizer for cleaning rod, cleaning rags, oil bottle, tools, spare parts, and all essential, you-name-it. The whole case has been divided into two organizers: one fixed (zippered mesh pockets and elastic loops) and one detachable. Stiffened bottom of the Service Case® is covered in contrast-colored fabric, to easily find all small parts. Additionally there's a dish for handgun and rifle parts dip-cleaning, carried under the case, in shock-cord loops. The Service Case® is a product created with the feedback from many firearms professionals.

- Two carry handles
- Velcro ID panel
- External zippered pocket
- Fixed internal organizer (two zippered mesh pockets, six elastic loops)
- Detachable organizers for tools, brushes and cleaning rods (two zippered pockets, two velcro-closed pockets, elastic loops)
- Extra cleaning mat/dish for dipping parts in cleaning liquids and spraying them with cleaning compounds, all held underneath the case
- YKK® zippers

## MINI SERVICE POCKET®

CODE: MO-MSP-CD

FABRICS: CORDURA® 500D

WEIGHT: 150 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 72

Mini Service Pocket® is a compact pouch for firearms repair & maintenance/cleaning kit. Internal organizers keep the tools, rods, brushes and oil bottles in order. The Mini Service Pocket® includes a so called 'dirty' pocket.

- Organizer for maintenance tools
- External velcro ID panel
- Dedicated 'dirty' pocket
- Loop for hanging or transport
- YKK® zipper

## BRASS ROLL POUCH®

CODE: MO-U04-CD

FABRICS: CORDURA® 500D

WEIGHT: 150 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72

Brass Roll Pouch® is a simple dump bag, carried on a belt or MOLLE/PALS platform. It will fit everything that you don't want to put in your pockets: additional ammunition, bullet casings, tacker or gloves. Upper part of the bag is stiffened, to keep it open when needed. Can be closed by a simple velcro tab. The bag can be rolled to save space.

- Made of 500D Cordura®
- Stiff upper part
- Long pull tab for opening
- Can be folded, rolled and secured with a velcro tab
- Mesh bottom
- DUTY BELT/MOLLE/PALS-compatible

## DOUBLE UPPER RIFLE BAG 18®

CODE: TB-DU8-CD

FABRICS: CORDURA® 500D

WEIGHT: 2700 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 72

Double Upper Rifle Bag 18® was designed (as the name implies) to safely and comfortably carry a scoped AR-style rifle with extra scoped upper, or two AR-style SBRs or two AKs in basic configuration. There are three external pockets, velcro panels (Versatile Insert System-compatible), velcro restrains for weapons and elastic loops for cleaning accessories. The bag can be carried with integral handles or on stowable shoulder straps.

- Four carry handles
- Stowable backpack-style shoulder straps
- Three external zippered pockets with Versatile Insert System-compatible velcro-panels and organizers
- Main chamber would carry: one AR-style lower receiver, two AR-style scoped upper receivers, or two AK-rifles or two AR-style SBRs in basic configuration
- Elastic loops for cleaning accessories
- Internal, velcro-based fastening system to prevent weapon from shifting in transport
- Velcro ID panel
- YKK® zippers

## RANGEMASTER GEAR BAG®

CODE: TB-RMG-CD

FABRICS: CORDURA® 500D

WEIGHT: 3400 g | CAPACITY: 41 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35

Rangemaster Gear Bag® was designed for shooting range professional personnel, shooting enthusiasts – and any other person that has to grab much stuff real quick. The bag was designed to facilitate and promote compartmentalization of the contents. Some of the pockets feature inner specialized organizers for maintenance tools. Versatile Insert System-compatible velcro panels. Helikon-Tex® Tag Patch-compatible. The bag is stiffened and heavily reinforced.

- Compatible with Universal Carrying Strap®
- Heavy duty carrying handles
- Stiffened construction
- External paper target pocket
- Two side pockets with velcro panels (one designated Automotive Med Kit pocket)
- Flap pockets
- Designated 'dirty' pocket
- Detachable, fully customizable stiff dividers
- Versatile Insert System-compatible velcro panels
- Helikon-tex® Tag Patch system compatible
- WooJin buckles
- YKK® zippers

## RANGE BAG®

CODE: TB-RGB-CD

FABRICS: CORDURA® 500D

WEIGHT: 1930 g | CAPACITY: 18 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 63 | 71 | 72 |

Range Bag® is a compact bag designed with input from firearm professionals to hold as many pistol and rifle magazines as possible, yet maintaining compact size. Universal magazine pouch inserts fit most common rifle & pistol magazines. This bag was designed to form a kind of 'workstation' at the range: one of the sides opens completely to allow quick and easy access to the contents as well as a clean stripping pad.

- Compatible with Universal Carrying Strap®
- Heavy duty carry handles
- Interior covered with loop-velcro to attach Versatile Insert System-compatible organizers, pouches and holsters
- Inserts included – four double handgun magazine pouches, three rifle magazine pouches: for two, three and five magazines
- External velcro panel on the flap for easy personalization
- Flat pocket at the bag's back for paper targets
- Flat zippered pocket inside flap
- Long external pocket with organizer
- Two velcro-closed side pockets for timer, tacker etc.
- Internal detachable divider with flat zippered pocket
- YKK® zippers

## ACCURACY SHOOTING BAG® PILLOW

CODE: AC-SBP-CD

FABRICS: CORDURA® 500D / ANTI-SLIP

WEIGHT: 75 g

COLORS: 11

Good bean bags are one of the basic precision shooter's tools. Weapon zeroing, long range competition or tactical shooting – properly matched shooting bags would make each of these tasks a whole lot easier. Our 4 bag set is compatible both for use with a precision rifle or tactical carbine, be it AR or AK.

- Pillow shape
- Bag is fitted with straps allowing for adjustment, compression and weapon attachment
- A part of the bag covered with non-slip fabric

- Carbine hook / lanyard eye
- YKK® zipper
- No filler included

## COBRA COMPETITION RANGE BELT®

CODE: PS-CR4-NL

FABRICS: NYLON  
 WEIGHT: 340 g  
 COLORS: 01 | 02 | 11 | 35

The Competition Cobra Range Belt® was designed for dynamic shooting sports, such as IPSC, IDPA and 3GUN. Stiffened belt provides a more stable platform for holsters and pouches worn by the competitor. The Cobra® buckle by AustriAlpin® guarantees that the belt remains fastened. The Competition Cobra Range Belt® may be used as standalone outer belt in connection with the inner belt, Non-slip Comfort Pad® and suspenders – or go through the belt loops of the pants.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- 45 mm wide
- Made of two layers of webbing, stiffened and lined with loop velcro

- AustriAlpin® Cobra® 25 mm buckle
- Compatible with Tek-Lok® buckles or other popular mounting systems

## COBRA MODULAR RANGE BELT®

CODE: PS-MR4-NL

FABRICS: NYLON / CORDURA® 500D  
 WEIGHT: 380 g  
 COLORS: 01 | 02 | 11 | 35

The CMRB® belt was designed as an alternative solution for all those who prefer to use the MOLLE/PALS-compatible pouches or accessories, but do not want to encumber themselves with a large belt or the modular sleeve. Cobra Modular Range Belt® would take all classic holsters, while at the same time it would fit all types of modular pouches. Patented AustriAlpin® Cobra® buckle guarantees durable fastening.

- 45 mm wide
- Stiffened and lined with loop velcro
- AustriAlpin® Cobra® 25 mm buckle
- MOLLE/PALS-compatible outer layer of laser-cut

- Cordura® 500D laminate
- Compatible with Competition Inner Belt®, Non-slip Comfort Pad® and suspenders

## COMPETITION INNER BELT®

CODE: PS-CI4-NL

FABRICS: NYLON  
 WEIGHT: 100 g  
 COLORS: 01 | 11

Inner, stiffened belt lined with hook velcro, designed to stabilize our Range and Patrol line belts. Conforms the IPSC regulations. Overlapping velcro-closure – no buckle to pinch after the outer belt is added.

- 40 mm wide
- stiffened and lined in hook-velcro

- Overlapping closure, without a buckle to pinch after the outer belt is added

## NON-SLIP COMFORT PAD®

CODE: PS-CP6-NL

FABRICS: NYLON / ANTI-SLIP

WEIGHT: 120 g

COLORS: 11

Internal stabilizing Non-Slip Comfort Pad® for new line of Range and Patrol belts. Perfect for gear configuration for a shooting range or patrol. Stabilizes holsters, pouches and other belt-mounted equipment, while reducing the pinching caused by gear-mounts.

- 65 mm wide
- 5 mm closed cell foam padding
- Attached to the outer belt by a hook velcro

- Covered with non-slip fabric on the inside, to prevent shifting of the belt

## TAG PATCH (SET - 3PCS.)

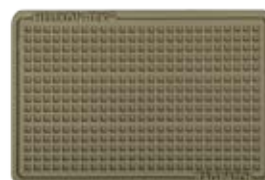

CODE: OD-TP4-RB | OD-TP2-RB

FABRICS: PVC

WEIGHT: 16 g

COLORS: 11

Tag Patch is a blank rubber coated velcro-patch you can use to identify the contents of the bag pockets (e.g. our Rangemaster Gear Bag®). Special channels (ID Matrix) allow to permanently mark the tag (with Permanent Marker), to avoid rubbing off or smudging-off of a marking. Ever since today identification of your range gear ceased to be a problem!

- Velcro panel
- Ink-taking channels – an identification matrix

- Three per set
- Sized 60 x 40 mm | 100 x 25 mm

**PATROL  
LINE**

### **Comfort in difficult conditions**

When in field, you need comfortable and proven solutions. Our Patrol Line grows and refers to the experiences of various military branches. Thanks to this, the solutions used in it are the best possible.

**GUARDIAN CHEST RIG®****CODE: KK-GCR-CD****FABRICS:** CORDURA® 500D**WEIGHT:** 950 G**COLORS:** 02 | 11 | 34 | 39 | 41 | 42 | 63 | 72

Guardian Chest Rig® is a universal carry platform to accommodate basic ammunition load and personal equipment. Designed to work along with a backpack and belt kit, it would optimize the configuration of your combat gear. Depending on the number and size of magazines the height of the fixed pouches flaps can be adjusted, also exchangeable magazine/handgun inserts can be rearranged accordingly.

- Universal, removable, adjustable X- or H-harness
- Channels on straps for wiring, antenna, hydration tubes etc.
- Exchangeable inserts (included): double pistol magazine, double rifle (AR/AK) magazine, handgun
- Three fixed double rifle magazine pouches (AR/AK) – 6 magazines in total
- Height-adjustable magazine pouch flaps
- Two spacious cargo pockets (USGI canteen compatible)
- Bottom MOLLE/PALS panel for additional pouches / accessories
- All pouches and pockets are fitted with MOLLE/PALS system on their fronts

**NEW** LEAF GHILLIE SET® - JACKET

CODE: KP-LFG-PO

FABRICS: POLYESTER

WEIGHT: 485 g

COLORS: 14

Ultralight, advanced camouflage system, made of lightweight mesh with artificial leaves stitched on the surface. The surface is also covered with paracord rows that can be used for attaching additional camo, to better adapt it to the surrounding environment. Laser cut leaves are covered in camo from both sides to provide even better camouflage effect. Specially designed system of stitching the leaves on the surface provides even better breakup of the humans body shape. The jacket is closed on front with two adjustable buckles. The Ghillie suit is perfect for recon operations, and can be used with other Helikon-Tex® products like Guardian Chest Rig® or our whole range of backpacks.

Ghillie suit is sold as a set containing jacket and pants

- ultralight construction
- laser cut leaves
- heavy duty buckles on front
- made of lightweight mesh
- additional paracord sections for attaching natural camouflage elements

**NEW** LEAF GHILLIE SET® - PANTS

CODE: KP-LFG-PO

FABRICS: POLYESTER

WEIGHT: 365 g

COLORS: 14

Made of the same materials as the jacket, the Ghillie Suit Pants are designed to complement the camouflage system whenever the user needs full body concealment. Fully adjustable in few areas gives you the ability to easily don and doff. Ideal for reconnaissance units.

Ghillie suit is sold as a set containing jacket and pants

- ultralight construction
- laser cut leaves
- heavy duty closure
- made of lightweight mesh
- additional paracord sections for attaching natural camouflage elements

**NEW** LEAF GHILLIE PONCHO

CODE: PO-LFG-PO

FABRICS: POLYESTER

WEIGHT: 480 g

COLORS: 14

Camouflage poncho made of the same materials as jacket and pants. The surface is also covered with paracord rows that can be used for attaching additional camo, to better adapt it to the surrounding environment. Poncho is great for concealing observation or firing points. Ghillie Suit Poncho can be combined with standard USGI Poncho or our Swagman Roll®. The front part of the poncho can be rolled to create camouflage overlay. There is a possibility to join together few of Ghillie Suit Ponchos in order to conceal larger areas.

- ultralight construction
- laser cut leaves
- heavy duty closure
- made of lightweight mesh
- additional paracord sections for attaching natural camouflage elements

## RATEL Mk2 BACKPACK®

CODE: PL-RT2-CD

FABRICS: CORDURA® 500D  
WEIGHT: 1320 g | CAPACITY: 24 l  
COLORS: 01 | 02 | 11 | 12 | 35

New generation of our RATEL® pack being the effect of users feedback and years of experience with this model. Lightweight and durable, this 25+ pack is a great choice not only for short 1-2 day patrols, but also as every day carry backpack. Large main compartment with hydration bladder hanger and two additional external pockets make this pack spacious enough to fit all your essentials for almost every mission or hike. MOLLE/PALS-compatible webbing on front, sides and bottom give you the ability to mount additional pouches according to mission needs. Velcro panel on front allows personalization with flags or morale patches. Comfortable, stiffened and profiled back and soft yet sturdy shoulder straps provide comfort even during long walks.

- Detachable hip belt
- Heavy duty carrying handle
- Velcro ID Panel
- Two external pockets
- Hydration bladder hanger
- MOLLE/PALS on front, sides and bottom
- WooJin buckles
- Profiled shoulder straps
- Profiled and stiffened back
- YKK® zippers

## RACCOON Mk2 BACKPACK®

CODE: PL-RC2-CD

FABRICS: CORDURA® 500D  
WEIGHT: 1190 g | CAPACITY: 20 l  
COLORS: 01 | 02 | 04 | 11 | 12 | 14 | 35

New generation of the Raccoon® backpack incorporates users feedback and our experiences with this model. Lightweight, yet sturdy 20 Liter capacity pack is an optimal choice for everyday use, yet it is absolutely enough for day hikes and tactical ops. Raccoon Mk2 Backpack® has main compartment and one similarly sized external pocket. The outside is covered with webbing compatible with MOLLE/PALS system. Shockcord allows attachment of additional equipment like jackets, sleeping mat etc.

- Detachable, adjustable straps
- Detachable webbing hip belt
- Side and bottom compression straps
- Carrying handle
- Shock cord with a stop
- Velcro ID panel
- Large external organizer pocket for maps, pens, lights etc
- Mesh pocket for smaller items in main compartment
- Camelbak holder
- Spacer mesh on back panel and suspenders, enhancing airflow
- MOLLE/PALS-compatible
- WooJin buckles
- YKK® zippers

## CPU® HAT

CODE: KA-CPU-CR | PR | NR

FABRICS: 100% COTTON RIPSTOP | 60% COTTON, 40% POLYESTER RIPSTOP | 50% COTTON, 50% NYLON (NYCO RIPSTOP)

WEIGHT: 113 g

COLORS: 01 | 02 | 04 | 06 | 11 | 12 | 13 | 14 | 32 | 35 | 41 | 42 | 71 | 72

Military hat of characteristic design with narrow and adjustable brim, in British/Australian style. Circumference is adjustable to fit head size. Traditional metal vents were replaced with hidden mesh tunnels (at sides and on top), enhancing the air circulation. Sweatband enhances comfort and prevents sweat from accumulating on the forehead. Designed mostly for forest operations. Provides effective head camouflage.

- Breathable – mesh tunnels
- Effective protection from sun and rain
- Elastic drawstring with a stop

- Elastic ribbon loops around the head circumference
- Chin strap with a stop
- Velcro ID panel

## CPU® SHIRT

CODE: BL-CPU-CR | PR | NR

FABRICS: 100% COTTON RIPSTOP | 60% COTTON, 40% POLYESTER RIPSTOP | 50% COTTON, 50% NYLON (NYCO RIPSTOP)

WEIGHT: 700 g | 765 g | 737 g

COLORS: 01 | 02 | 04 | 06 | 11 | 13 | 14 | 23 | 35 | 37 | 41 | 42 | 43 | 51 | 71 | 72

CPU® (Combat Patrol Uniform®) shirt was designed along the lines of Polish Army Model 2010 uniform. Zipped with main two-way zipper, provides easy access to duty belt gear. Armpit ventilation zippers are accessible even with backpack or load-bearing gear on. CPU® has six pockets to carry essential equipment. Fleece-lined stand-up collar keeps the neck of the user protected from the elements and abrasion caused by weapon slings or load-bearing vest. Upper sleeve and chest velcro panels allow personalization. CPU® series is one of our bestsellers.

- Stand-up collar lined with fleece
- Main YKK® two-way zipper with flap
- Velcro ID panels on breast and upper sleeve
- Zippered armpit ventilation slats
- Two oblique zippered upper sleeve pockets
- Two oblique breast pockets with velcro flaps and zippers

- Two lower sleeve pockets with velcro flaps
- Lightstick slots
- Chest rank tag
- Reinforced elbows with internal Low Profile Protective Pads compartments
- Velcro-adjustable cuffs

## CPU® PANTS

CODE: SP-CPU-CR | PR | NR

FABRICS: 100% COTTON RIPSTOP | 60% COTTON, 40% POLYESTER RIPSTOP | 50% COTTON, 50% NYLON (NYCO RIPSTOP)

WEIGHT: 730 g | 770 g | 796 g

COLORS: 01 | 02 | 04 | 06 | 11 | 13 | 14 | 23 | 35 | 37 | 41 | 42 | 43 | 51 | 71 | 72

CPU® (Combat Patrol Uniform®) pants were designed along the lines of latest Polish Army Model 2010 uniform. Designed with body ergonomics and utility in mind. Anatomic cut of the CPU® pants provide freedom of movement. Capacious pockets provide carrying capacity for essentials. Wide thigh pockets with drawstring retention are fit for duty as emergency dump pouches. Small front pockets can carry personal items like a flashlight, a folding knife or an extra handgun magazine. Calf pockets can contain a field dressing or an extra rifle magazine.

- Adjustable waist
- Reinforced crotch and seat
- Lanyard loops
- Two front pockets
- Two slim front EDC gear pockets
- Two rear pockets with buttoned flaps
- Two thigh cargo pockets with velcro flaps, button and

- drawstring retention
- Two calf pockets with velcro-closed flaps
- Reinforced knees with Low Profile Protective Pads compartments
- Adjustable leg cuffs
- Buttoned fly

## COMBAT PATROL UNIFORM® SHORTS

CODE: SP-CPK-PR | CR

**FABRICS:** 60% COTTON, 40% POLYESTER RIPSTOP | 100% COTTON RIPSTOP

**WEIGHT:** 600 g

**COLORS:** 01 | 02 | 04 | 10 | 11 | 13 | 14

CPU® Shorts are shorter version of the CPU Pants. Anatomic cut does not hinder movements. Capacious pockets would take a lot of essential gear. Wide thigh pockets have elastic cuff and can be used as dump pouches. Smaller front pockets can take a light, folding knife or spare magazine. The CPU® Series is one of our most popular, best selling products.

- Adjustable waistband
- Reinforced crotch and seat
- Lanyard loop
- Two classic front pockets
- Two small inset front pockets

- Rear pockets have buttoned flap closure
- Two thigh pockets with velcro-closed flaps, button and drawstring
- Buttoned fly

## SFU NEXT® SHIRT

CODE: BL-SFN-PR

**FABRICS:** 60% COTTON, 40% POLYESTER RIPSTOP

**WEIGHT:** 740 g

**COLORS:** 01 | 02 | 03 | 04 | 11 | 14 | 32 | 35

The SFU NEXT® Shirt combines the traditional cut with practical, modern solutions. Straight collar, button closure, six pockets with velcro-closed flaps to protect the contents from dirt and water: these are SFU NEXT® Shirt's main features. The breast and upper sleeve pockets are oblique to enhance accessibility. Buttons are hidden with a flap, so they won't snag on anything. Reinforced, profiled elbows with Low Profile Protecting Pads pockets inside protect the users arms while shooting prone or crawling.

- Classic collar
- Button closed, buttons closed under a flap
- Velcro panels on upper sleeve and chest for easy personalization
- Upper arm oblique pockets with velcro closed flaps
- Oblique breast pockets with velcro-closed flaps
- Lower pockets with velcro-closed flaps

- Rank tab on chest (only PL Woodland)
- Elbow reinforcements with internal Low Profile Protective Pads pockets
- Waist adjustment (buttons)
- Velcro-adjusted sleeve cuffs

## SPECIAL FORCES UNIFORM NEXT® PANTS

CODE: SP-SFN-CR | PR | PT

**FABRICS:** 100% COTTON RIPSTOP | 60% COTTON, 40% POLYESTER RIPSTOP | 60% COTTON / 40% POLYESTER TWILL

**WEIGHT:** 775 g | 785 g | 950 g

**COLORS:** 01 | 02 | 03 | 04 | 11 | 12 | 13 | 14 | 35 | 37

The Special Forces Uniform® pants offer ease of movement and thought-out pocket carry system. The SFU NEXT® pants are the next generation of the SFU® pants, designed with users feedback in mind. They combine classic look, bespoke anatomic cut and a system of nine pockets to carry essential equipment.

- Adjustable waist and cuffs
- D-rings
- Two front pockets
- Reinforced edges of the pockets to withstand mounting clips
- Two slim front EDC gear pockets with new closure type
- Two rear pockets
- Two thigh cargo pockets with velcro flaps and button closure, internal organizers and elastic loop for magazine

- Velcro flapped calf pocket
- Additional compartments with elastic bands in cargo pockets for spare magazines, first aid -equipment (combat gauze) or other small essentials
- Reinforced crotch and seat
- Reinforced knee areas with Low Profile Protective Pads internal pockets
- Pant leg cuff elastic drawstrings
- Buttoned fly

## COBRA MODULAR RESCUE BELT®

CODE: PS-MS4-NL

FABRICS: NYLON  
WEIGHT: 360 g  
COLORS: 01 | 02 | 11 | 35

The MRCB® is the cornerstone of our Patrol duty gear line. It may be worn standalone, as a mounting platform for holsters or MOLLE/PALS-compatible pouches or it can be used as a basic belt for modular sleeves. MRCB features the certified rescue Cobra® D-ring buckle by AustriAlpin®.

WARNING: DO NOT USE FOR CLIMBING OR AS LIVE-SAVING EQUIPMENT!

- Laser-cut laminate with MOLLE/PALS-compatible system
- Competition Inner Belt compatible®
- Certified Cobra® D-ring buckle by AustriAlpin®

## COBRA D-RING® (FX38 | FX 45) TACTICAL BELT

CODE: PS-CX8-NL | PS CX4-NL

FABRICS: NYLON  
WEIGHT: 260 g | 300 g  
COLORS: 01

This durable nylon webbing trouser belt features patented quick release AustriAlpin® buckle. Easily adjustable (no holes), designed for everyday service use. Buckle-integrated D-ring. Fits all our pants and shorts.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- AustriAlpin® Cobra® FX38 | FX45 buckle with integral D-ring
- Nylon webbing
- 38 mm | 45 mm wide

## DEFENDER SECURITY BELT®

CODE: PS-DEF-NL

FABRICS: NYLON  
WEIGHT: 350 g  
COLORS: 01 | 02

50 mm-wide outer, tactical belt designed to carry basic equipment for Mil/LE operators, such as magazine/baton/flashlight/radio pouches and gun holsters. The belt can be quickly released but never by accident – thanks to a special three-point Duraflex® buckling system. The inner side of the belt has a cell system additionally stabilizing the magazine pouches and preventing them from shifting along the belt. Comes with simple inner belt to stabilize the main duty belt system.

WARNING: NOT A CLIMBING OR LIVE-SAVING EQUIPMENT!

- 50mm wide
- Duraflex® three-point buckle with QR system and safety system to prevent accidental unbuckling
- Duty belt system consisting of the two belts: exterior, duty belt and inner stabilizing belt

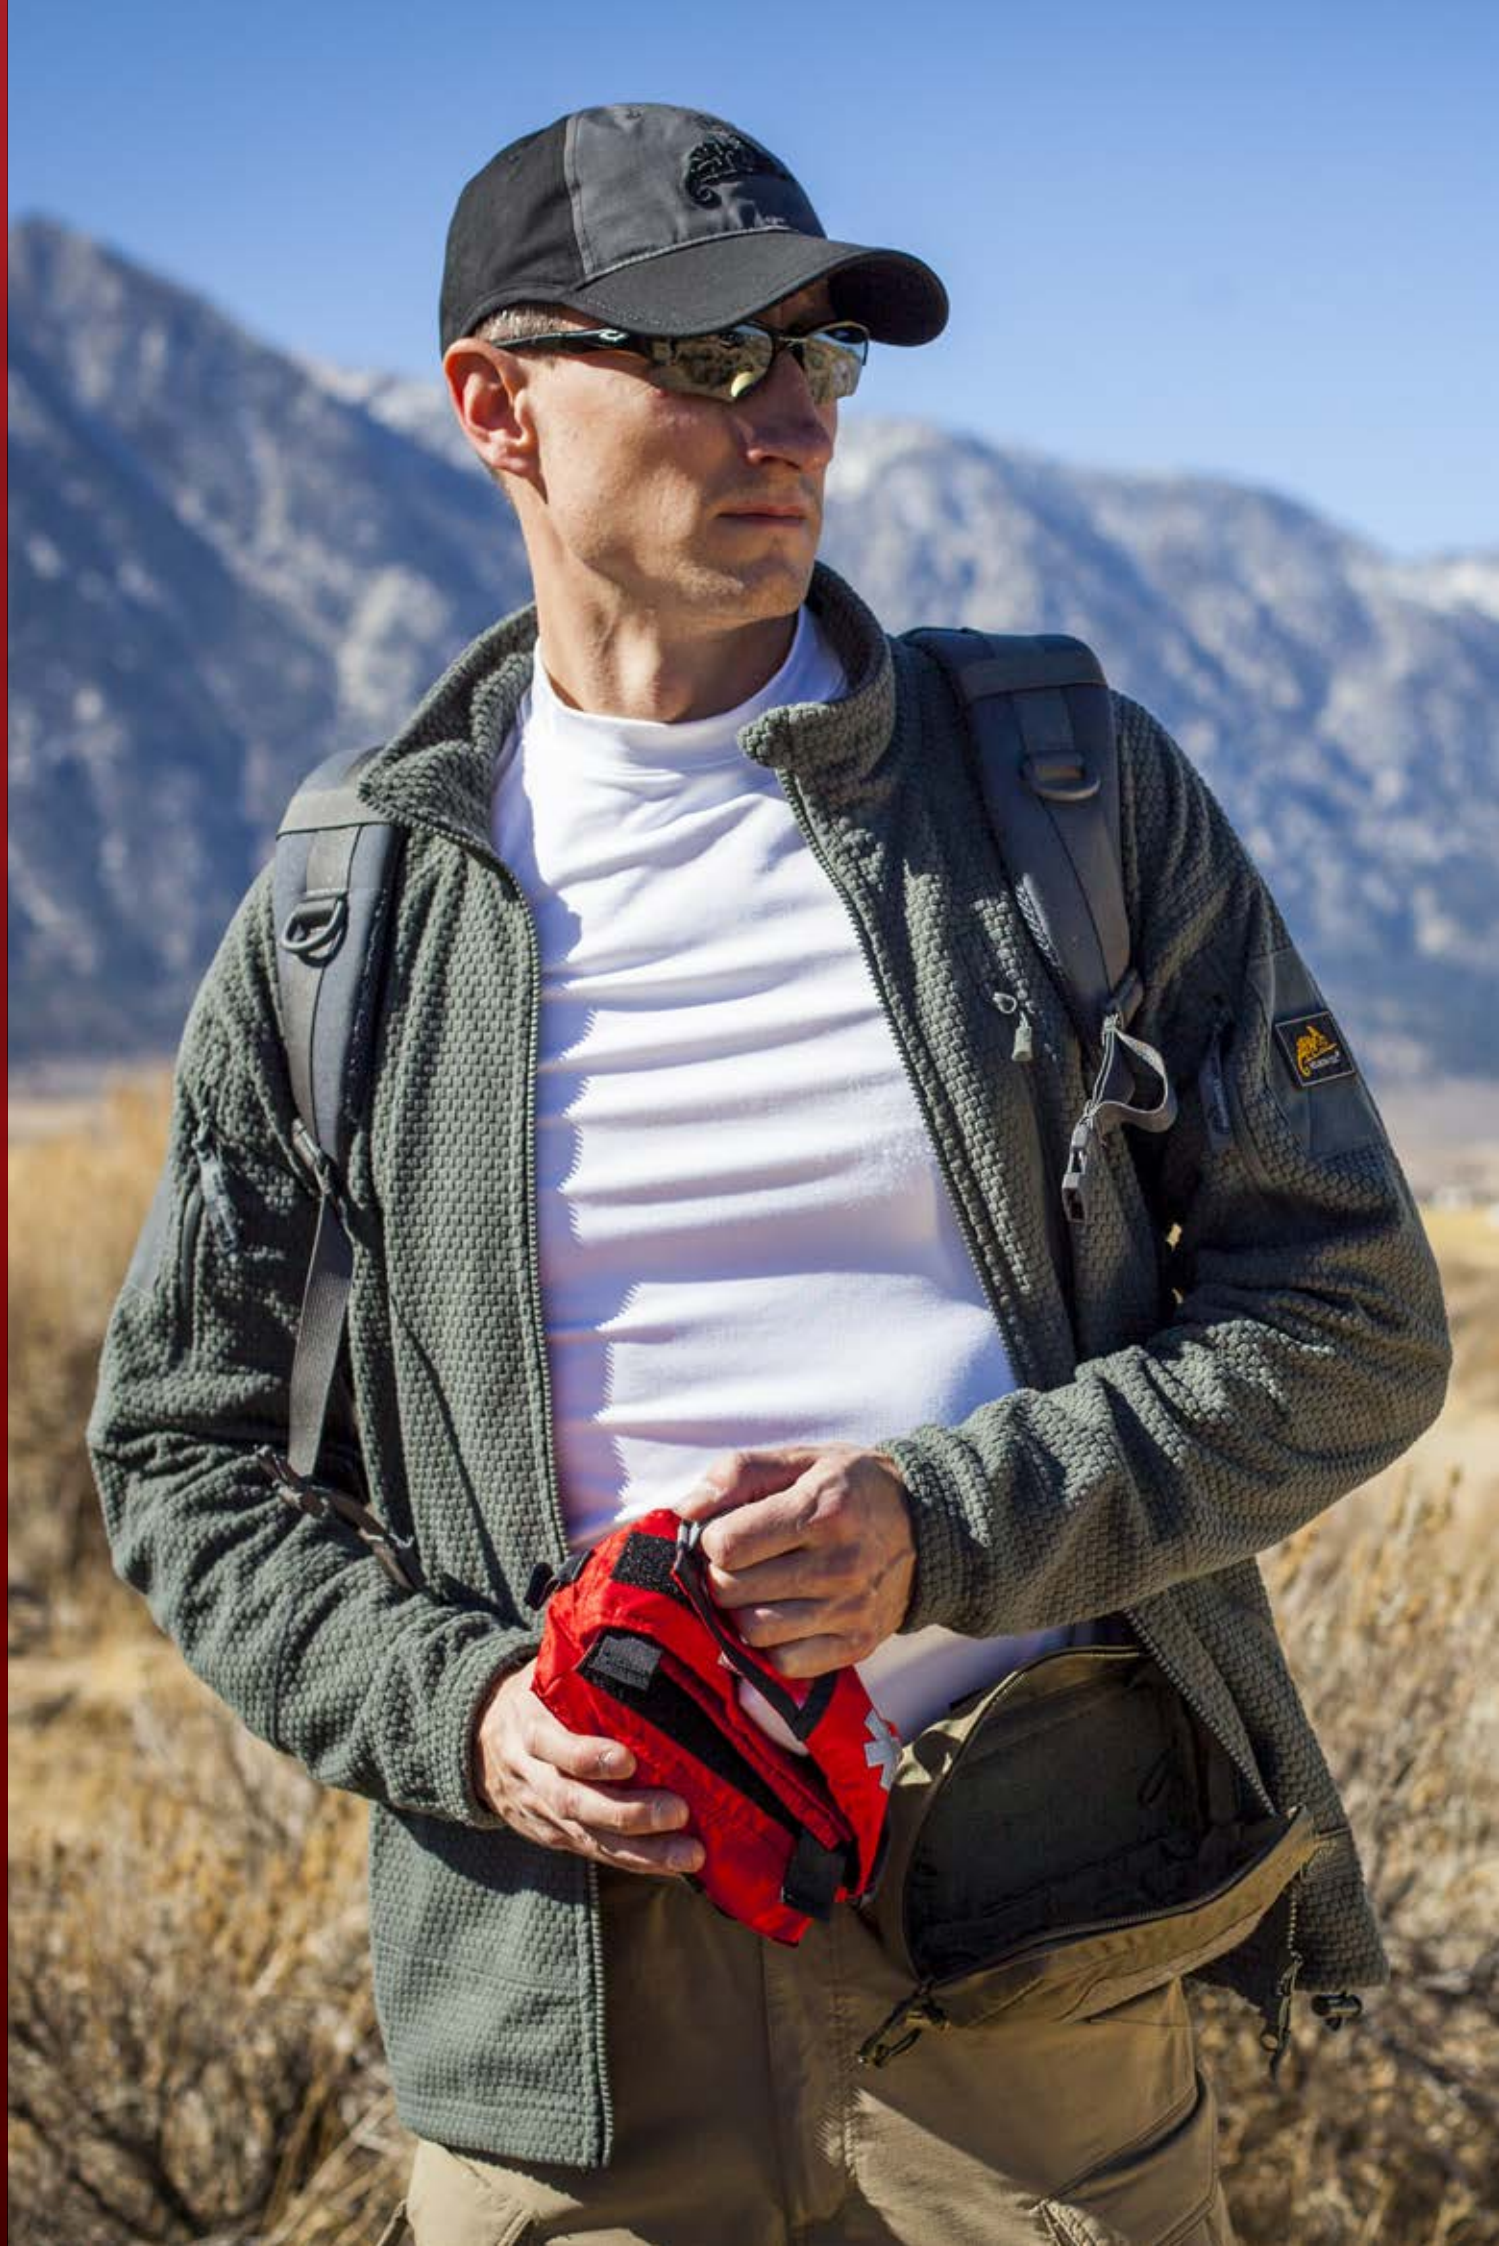

**MEDICAL  
LINE**

### **Safety every day**

Having a first-aid kit at work, in the car, at home and with us increases the chance of successful help to yourself or another person during any crisis situation. Our first-aid kits allow you to personalize your medical equipment and customize it in a convenient way for types of your activities. Be safe wherever you are!

**AUTOMOTIVE MED KIT® POUCH**

CODE: MO-M07-CD

FABRICS: CORDURA® 500D

WEIGHT: 545 g

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 41

Automotive Med Kit® was designed as the main vehicular first aid kit. Its compact, flat form allows it to be fit under the car seats or be attached to a car upholstery, in side door or seat pockets, while lack of sharp edges prevents snagging. The Automotive Med Kit® is fit for shooting range training session medical support. The med kit fits ideally in the Helikon-Tex® Range Line Rangemaster® kit bag side pocket.

- Stiffened construction
- Reflective front marker
- Velcro ID panel
- Reflective handles
- Closed with a two-way zipper
- Flat and smooth to prevent snagging
- Detachable stiffened insert covered in velcro
- Two inner flat mesh zipped pockets
- Numerous Versatile Insert System-compatible inserts
- included to compartmentalize medical supplies as per kit purpose
- Detachable shoulder strap
- Rear wall fitted with (coverable) velcro patches to attach the med kit to the car upholstery or bag velcro panels (e.g. Rangemaster Gear Bag®)
- Medical supplies not included
- YKK® zippers

## MODULAR INDIVIDUAL MED KIT® POUCH

CODE: MO-M02-CD

FABRICS: POUCH: CORDURA® 500D | INSERT: POLYESTER  
 WEIGHT: 323 g  
 COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72

Time and rescuer's safety are what counts in first aid. Our Modular Individual Med Kit® combines a bespoke pouch and our Universal Med Insert. The Insert opens to the sides, providing instant access to the contents segregated at user's discretion. Combined they allow to set the basic first aid kit in a deliberate, optimal layout – from gloves to gauze, to bandages, to disinfectant and trauma shears.

### Pouch:

- Made of Cordura®500D
- Detachable hip belt with buckle
- External velcro panel with reflective Paramedic cross
- Fit for both vertical or horizontal carry
- Three external ribbons and an elastic drawstring in lower part
- Compatible with DUTY BELT/MOLLE/PALS and backpack straps
- YKK® zipper

### Insert:

- Made of Nylon and mesh
- Durable, rubber-covered handle
- Velcro closure
- Four folding panels (organizers with elastic loops, Paracord loops and mesh)
- Reflective Paramedic cross
- Translucent window for and ICE/procedural card
- Back velcro panel for mounting inside covers, bag, backpacks etc.
- Designed to keep the complete first aid kit (not included)

## UNIVERSAL MED INSERT®

CODE: MO-M03-PO

FABRICS: POLYESTER  
 WEIGHT: 140 g  
 COLORS: 01 | 11 | 12 | 25

Universal Med Insert® allows to set the basic first aid kit in a deliberate, optimal layout – from gloves to gauze, to bandages, to disinfectant and scissors.

The Insert opens on the sides, providing instant access to the contents segregated according to user's discretion. Segments of the insert can be easily closed with velcro and open with deliberately placed opening loops. On opening the rescuer has access to whole of the med kit. Modular Individual Med Kit® should be mandatory for both terrain and urban operations.

- Durable, rubber-covered handle
- Velcro closure
- Four folding panels (organizers with elastic loops, Paracord loops and mesh)
- Reflective Paramedic cross

- Translucent window for and ICE/procedural card
- Back velcro panel for mounting inside covers, bag, backpacks etc.
- Designed to keep the complete first aid kit (not included)

## POCKET MED INSERT®

CODE: MO-M04-CD

FABRICS: CORDURA® 500D  
 WEIGHT: 91 g  
 COLORS: 01 | 02 | 11 | 12 | 35

Pocket Med Insert® is a small, lightweight and flat first aid kit that fits inside pants pocket. It would take basic items, like gloves, ICE Card, resuscitation mask, plasters and dressings, saline bottle or small trauma shears.

- Folding wallet design
- Reflective paramedic cross
- Clear vinyl window for ICE/procedures Card
- Reinforced, rubberized pull-out handle
- Pockets and loops for basic medical supplies including small

- trauma shears
- Velcro closure
- Designed to fit most medium size cargo pockets in pants and jackets

## MINI MED KIT®

CODE: M0-M05-PO

FABRICS: POLYESTER

WEIGHT: 101 g

COLORS: 01 | 11 | 12 | 25 | 35

Mini Med Kit® is a simple pouch containing two zippered mesh pockets. The kit was designed to contain the everyday medical essentials. The Mini Med Kit® is so small, that everybody would carry it at his belt for a day and won't even notice, and so simple to use, that it can be even carried by children to school.

- Two zippered mesh pockets for medical supplies
- External velcro panel with reflective Paramedic cross
- Lanyard loop

- DUTY BELT/MOLLE/PALS-compatible
- YKK® zippers

## MICRO MED KIT®

CODE: M0-M06-NL

FABRICS: NYLON 210D

WEIGHT: 20G

COLORS: 01 | 11 | 12 | 25 | 35

The smallest of our medical inserts holds bare essentials, like examination gloves and adhesive plasters, plus a simplest resuscitation mask. Rubber-covered handle assists in drawing it from the pouch or pocket, while reflective paramedic cross provides easy identification amongst other kit.

- Folding wallet-style
- Reflective paramedic cross

- Durable rubber-covered handle
- Two pockets for bare medical essentials

### **Between outdoor and military**

Using our military and tactical experience and passion for outdoor, we create an Outback Line, dedicated to those, who want to combine comfort, top of the top materials and advanced technical solutions. Our products will let you survive any adventure.

**NEW SUMMIT BACKPACK®**

CODE: PL-SMT-CD

FABRICS: CORDURA 240D  
 WEIGHT: 1250 g | CAPACITY: 44 l  
 COLORS: 01 | 02 | 11 | 35 | 65

Summit Backpack® is our response for modern hiking needs. The pack combines lightweight fabrics with advanced, durable construction. We've decided to remove everything that isn't absolutely necessary to make the pack as light as possible, to make your trip comfortable and pleasant. One of the packs stiffeners can be removed to lighten it even more (it weighs only 1000g then). Elastic beavertail allows you to carry additional items. Side elastic mesh pockets will fit water bottles, jackets etc. Compression straps can be used for attaching additional equipment. To make the pack even more ergonomic and comfortable, the hip belt has two mesh pockets.

- Profiles shoulder straps
- Rolltop closure
- Easy access to main compartment
- Removable back stiffener
- Pocket for small items
- Elastic beavertail for helmet, jacket etc.
- Water bottle pocket
- Mesh pockets on hip belt
- Chest strap
- Lightweight WooJin buckles
- YKK® zippers

**NEW OTP LITE®**

CODE: SP-OTP-VL

FABRICS: VERSASTRETCH® LITE: 89% NYLON 11% ELASTANE WITH DUPONT™ TEFLON® COATING

WEIGHT: 350 g

COLORS: 01 | 09 | 13 | 35

Lighter and more breathable version of our well known Outdoor Tactical Pants®. Made of new lightweight variation of VersaStretch® fabric (120g/m2). Thanks to that, the pants would be a great choice for summer, hiking or trekking in hot environment, and due to quick drying, for areas with high humidity.

- Lightweight VersaStretch® Lite 120g/m2
- Elastic waist with velcro fastener for additional adjustment
- Two key loops, D-ring or carabiner compatible
- Two mesh front pockets with strengthened edges for gear clips
- Two mesh wide back pockets with easy access. Adaptable for dump bag use
- Two slim back pockets for folding knives, flashlights, pistol magazines inside back pockets. Depth-adjustable
- Two mesh thigh cargo pockets with YKK® reverse zipper for documents and small personal belongings
- Two front velcro-closed flapped pockets for smart phone or AR magazine
- Blue-jeans cut to reduce pants sliding down
- Pant leg rears profiled – divided and connected with profiling pleat under the knee
- Reinforced knees with internal kneepad compartments
- Cuffs with cord channels
- YKK® zippered fly

**NEW OTS LITE®**

CODE: SP-OTS-VL

FABRICS: VERSASTRETCH® LITE: 89% NYLON 11% ELASTANE WITH DUPONT™ TEFLON® COATING

WEIGHT: 230 g

COLORS: 01 | 09 | 13 | 35

Sometimes it is so hot, that even our OTS® pants are too thick for you. But don't worry - we've got you covered. Our OTS® LITE, made of 120g/m2 VersaStretch® fabric offers the same functionality and durability as standard model, with maximum breathability enhancement. These pants would be great for hot summer and due quick drying, for areas with high humidity

- 8,5" long inseam
- Two classical pockets with light/knife clips edge reinforcements
- Wide back pockets, fit for duty as dump pouches
- Two narrow (baton or magazine) pockets inside rear pockets with adjustable depth
- Two thigh pockets closed with an inverted YKK® zipper for ID and small personal items
- Two front velcro-closed flapped pockets, for smartphones or AR/AK rifle magazines
- Elastic waistband with velcro-closure for adjustment
- 50 mm wide belt loops
- Two lanyard loops or D-rings at belt loops in front
- Classical blue jeans cut reduces the pants tendency to ride down
- Internal length of the pant leg: 8,5"
- YKK® - zippered fly

**NEW OTK LITE®**

CODE: SP-OTK-VL

FABRICS: VERSASTRETCH® LITE: 89% NYLON 11% ELASTANE WITH DUPONT™ TEFLON® COATING

WEIGHT: 240 g

COLORS: 01 | 09 | 13 | 35

A bit longer version of our ultralight OTS® LITE pants. Our OTK® LITE are made of 120g/m2 VersaStretch® fabric and offers the same functionality and durability as standard model, with maximum breathability enhancement. These pants would be great for hot summer and due quick drying, for areas with high humidity

- 11" long inseam
- Two classical pockets with light/knife clips edge reinforcements
- Wide back pockets, fit for duty as dump pouches
- Two narrow (baton or magazine) pockets inside rear pockets with adjustable depth
- Two thigh pockets closed with an inverted YKK® zipper for ID and small personal items
- Two front velcro-closed flapped pockets, for smartphones or AR/AK rifle magazines
- Elastic waistband with velcro-closure for adjustment
- 50 mm wide belt loops
- Two lanyard loops or D-rings at belt loops in front
- Classic jeans cut reduces the pants tendency to ride down
- YKK® - zippered fly

**NEW MISTRAL ANORAK®**

CODE: KU-MSL-NL

FABRICS: STORMSTRETCH®

WEIGHT: 640 g

COLORS: 01 | 12 | 45 | 60

Jacket that is perfect for backpack hiking. The lack of front zipper makes the jacket more windproof. Easy access to the large front pocket to have all your necessities at reach. Inside the pocket there is a simple organizer to keep everything in place. Additionally the jacket has two hip pockets and two bicep pockets. Reinforcement of elbows provide durability. The jacket has adjustable hood. StormStretch® fabric protects against wind, light rain or snow, but still maintaining great breathability.

- StormStretch® fabric
- Velcro panels for personalization
- Large kangaroo pocket with internal organizer
- Adjustable hood

- Bicep pockets
- Reinforcements on elbows
- Armpit ventilation zippers
- YKK® zippers

**NEW WOLFHOUND HOODIE®**

CODE: KU-WLH-NL

FABRICS: CLIMASHIELD® APEX™ INSULATION (67 g/m²) / WINDPACK NYLON®

WEIGHT: 335 g

COLORS: 01 | 11 | 14 | 35 | 36 | 45

Lightweight insulated jacket with integral hood based on our Wolfhound jacket. Perfect as an outer layer in cold day or as additional integral warmer under the rainproof jacket. Padded with 67g/m2 Climashield® Apex™ that keeps you warm even when fully wet. Cuffs, hood and bottom of the jacket are finished with elastic binding. Profiled and adjustable hood has additional soft visor. The jacket has four zippered pockets – three external and one internal. Armpits are made of VersaStretch® fabric for enhanced comfort.

- Lightweight and packable
- Windproof Windpack® nylon fabric
- Climashield® Apex 67g/m2 padding
- Three external zippered pockets

- Internal zippered pocket
- Velcro panel for personalization
- Adjustable hood
- YKK® zippers

## BLIZZARD JACKET®

CODE: KU-BLZ-NL

FABRICS: STORMSTRETCH® / VERSASTRETCH®

WEIGHT: 610 g

COLORS: 01 | 09 | 11 | 12 | 35 | 45 | 60

Our softshell Blizzard Jacket® is a fitting complement to our Blizzard Series pants. As lightweight outer garment it is fitting for most weather conditions. This is a universal jacket of a slightly paramilitary taste. Outer shell is rugged, DWR coated. The fabric is elastic, which provides for enhanced comfort. Elongated cut combined with adjustable hood, bottom and sleeve cuffs allow to fit the jacket individually and protection from elements. Hood is collar-stowed. Six pockets contains carry essentials with ease.

- Main two-way YKK® zipper with thermal shield and chin guard
- Rugged, 4-way elastic fabric at elbows
- Lightweight, breathable, 2-way elastic fabric for sleeves and body
- Two zippered torso pockets with flat internal pockets
- Two zippered upper sleeve pocket
- Armpit zippered mesh-covered ventilation slats
- Matching color upper sleeve velcro panels for easy personalization
- Adjustable, folding, collar-stowed, visored hood
- Elastic drawstring-adjustable bottom
- Velcro-adjustable sleeve cuffs
- YKK® zippers

## BLIZZARD PANTS®

CODE: SP-BLZ-NL

FABRICS: STORMSTRETCH® / VERSASTRETCH®

WEIGHT: 530 g

COLORS: 11 | 12 | 35 | 45

Blizzard Pants® are advanced, universal foul weather apparel, especially suitable for mountain hiking. Two types of soft shell fabrics (2-way and 4-way expanding) were combined to provide durability, ease of movement, while retaining breathability. The pants have capacious cargo pockets, additional ventilation channels, pant leg reinforcements and boot-lace hooks.

- Hybrid construction of two soft shell fabrics
- Crotch gusset
- Durable, 4-way expanding fabric for knees and seat
- Breathable, light weight, 2-way expanding fabric for pant legs and pockets
- Four hip pockets (two front, two rear)
- Thigh pockets with reinforced edges for light/knife clips
- Two large, zippered thigh cargo pockets with internal organizers
- Nylon-reinforced lower pant leg edges
- Two zipper-adjusted ventilation channels
- Elastic part leg adjustment
- Boot-lace hooks
- Wide belt loops (up to 50 mm)
- Integral, but easily removable, pants belt with plastic buckle
- Snap closure
- YKK® - zippered fly

## SNOWFALL LONG GAITERS®

CODE: BU-SLG-CD

FABRICS: CORDURA® 500D / VERSASTRETCH®

WEIGHT: 280 g

COLORS: 01 | 11 | 41 | 44

Snowfall Long Gaiters® dynamically conform the leg line thanks to breathable elastic VersaStretch® fabric inserts at the back. Upper opening is adjustable via elastic band. The gaiter is closed with wide and durable velcro. Robust hook enables to anchor them to the boot laces. Gaiters are fitted with adjustable stirrup strap made out of Hypalon – a fabric, that is superbly resistant to wear and almost insensitive to weather.

- Snowfall Long Gaiters® are long, front velcro-closed snow gaiters,
- The rear upper panel is made of the Versastretch® softshell fabric, of superior wicking capabilities to draw the humidity away.
- Length-adjustable stirrup strap is made of Hypalon
- Front hook for lace-attachment.
- Adjustable, elastic draw cord in the top upper edge.

**STRATUS® HEAVY FLEECE**

CODE: BL-STC-HF

FABRICS: POLYESTER, SUPERFINE FLEECE 320G/M<sup>2</sup>

WEIGHT: 750 g

COLORS: 01 | 02 | 09 | 11 | 35

Stratus® Heavy Fleece Jacket is patterned after the dark blue, thick US Army fleece garments. We have added a few useful details. Stratus is made out of 320g/m<sup>2</sup> fleece, has zippered breast pockets with internal zippered pocket, mesh ventilation armpit inserts, useful upper sleeve pockets and high collar. Nylon reinforcements at elbows and shoulders prevent fleece being worn thin. This jacket can be worn as standalone item or as warming layer.

- Two-way zipper with thermal slat and chin guard
- Two zippered torso pockets with electronics organizers
- Two upper sleeve zippered pockets
- Matching color velcro panels at upper sleeve for personalization
- High standing collar

- Elastic sleeve cuffs
- Nylon elbow and shoulder reinforcements
- Mesh-covered ventilation slots in armpits
- Elastic drawstring adjustable bottom
- YKK® zippers

**CUMULUS® HEAVY FLEECE**

CODE: BL-CMB-HF

FABRICS: POLYESTER, SUPERFINE FLEECE 320G/M<sup>2</sup>

WEIGHT: 790 g

COLORS: 01 | 02 | 09 | 11 | 35

Cumulus is a heavy duty fleece with elbows and shoulders reinforcement pattern, capacious hood with a little visor, large inner mesh pockets and straight side pockets. Universal, practical, comfortable.

- Two-way main zipper with thermal slat and chin guard
- Two external zippered pockets on the torso with an organizer
- Two zippered upper sleeve pockets
- Two internal chest pockets
- Matching color velcro panels on sleeves for personalization

- Visored hood
- Elastic sleeve cuffs
- Nylon reinforcement patches on elbows and shoulders
- Mesh-covered ventilation openings in armpits
- Elastic drawstring at the bottom
- YKK® zippers

**WOMEN'S CUMULUS HEAVY FLEECE**

CODE: BL-CBW-HF

FABRICS: POLYESTER, SUPERFINE FLEECE 320G/M<sup>2</sup>

WEIGHT: 790 g

COLORS: 01 | 09 | 11 | 35

Universal outdoor fleece jacket for ladies. Anatomically cut to conform woman's shapes plus additional care was taken of the small details: the robust, coarse zippers of the original Cumulus® Jacket were replaced with finer, more discreet pitched ones.

- Main two-way YKK® zipper with thermal slat and chin guard
- Two external zippered pockets on the torso with electronics organizer
- Two zippered upper sleeve pockets
- Matching color biceps velcro ID panels
- Visored hood

- Elastic sleeve cuffs
- Nylon reinforcement patches on elbows and shoulders
- Mesh-covered ventilation openings in armpits
- Elastic drawstring at the bottom
- Extended cut
- YKK® zippers

## HYBRID OUTBACK PANTS®

CODE: SP-HOP-DC

FABRICS: DURACANVAS® / VERSASTRETCH®

WEIGHT: 560 g

COLORS: 1101 | 1109 | 0901

Hybrid Outback Pants® are advanced hybrid outdoor pants, equally suitable for long mountain treks and bivouacking. The pants are comfortable and durable. They can be partly waterproofed with wax. There are two classic front pockets with edges reinforced for knife/light clips, two velcro-closed front thigh pockets and two zippered cargo pockets. Knees reinforcements have inner pockets for our Neoprene Low Profile Protective Pads which would facilitate camp chores.

- Hybrid construction of DuraCanvas® and VersaStretch®
- Wax-impregnable
- Anatomic cut of the UTP/OTP (crotch gusset)
- Two classic front pockets with edges reinforced for knife/light clips
- Two cargo pockets closed with inverted YKK® zippers
- Two velcro-closed front thigh pockets
- Elastic velcro-closed waistband for additional adjustment
- Wide belt loops (up to 50 mm wide)
- Two lanyard loops at belt loops
- Low Profile Protective Pads compatible
- Velcro-adjusted pant leg cuffs
- YKK® - zippered fly

## OUTDOOR TACTICAL PANTS®

CODE: SP-OTP-NL

FABRICS: VERSASTRETCH®

WEIGHT: 580 g

COLORS: 01 | 09 | 12 | 13 | 14 | 32 | 35 | 45 | 60

Many of our customers operate not only in cities, but in the boondocks as well. Listening to their positive feedback about using UTP®, our designers have created their special outdoor version – voila, that's Outdoor Tactical Pants®. They have retained all functionalities of their predecessor, but some details were tweaked to better fit the terrain use. The fabric used is light, elastic and superbly breathable. Lends itself superbly for outdoor activities. Protects from light rain and winter. Dries quickly.

- Elastic waist with velcro fastener for additional adjustment
- Two key loops, D-ring or carabiner compatible
- Two mesh front pockets with strengthened edges for gear clips
- Two mesh wide back pockets with easy access. Adaptable for dump bag use
- Two slim back pockets for folding knives, flashlights, pistol magazines inside back pockets. Depth-adjustable
- Two mesh thigh cargo pockets with YKK® reverse zipper for documents and small personal belongings
- Elastic loops in cargo pockets for spare magazines, field dressing or other small essentials
- Two front velcro-closed flapped pockets for smart phone or AR magazine
- Blue-jeans cut to reduce pants sliding down
- Pant leg rears profiled – divided and connected with profiling pleat under the knee
- Reinforced knees with internal kneepad compartments
- Cuffs with cord channels
- YKK® - zippered fly

## OUTDOOR TACTICAL SHORTS®

CODE: SP-OTS-NL

FABRICS: VERSASTRETCH®

WEIGHT: 405 g

COLORS: 13 | 35 | 60

What to do, when it's stifling hot and yet you need to go tactical and need all the tactical functionality of the UTP® pants? Try the UTS®, Urban Tactical Shorts or our best-selling pants cut-down version. Full functionality of the OTP® in truncated size, fit for summertime.

- Two classical pockets with light/knife clips edge reinforcements
- Wide back pockets, fit for duty as dump pouches
- Two narrow (baton or magazine) pockets inside rear pockets with adjustable depth
- Two thigh pockets closed with an inverted YKK® zipper for ID and small personal items
- Two front velcro-closed flapped pockets, for smartphones or AR/AK rifle magazines
- Elastic waistband with velcro-closure for adjustment
- 50 mm wide belt loops
- Two lanyard loops or D-rings at belt loops in front
- Classical blue jeans cut reduces the pants tendency to ride down
- Internal length of the pant leg: 8,5"
- YKK® - zippered fly

## LEVEL 7 LIGHTWEIGHT WINTER JACKET

CODE: KU-L70-NL

**FABRICS:** CLIMASHIELD® APEX™ INSULATION (100 g/m² FOR BODY, 67 g/m² FOR HOOD), NYLON RIPSTOP OUTER LAYER

**WEIGHT:** 868 g

**COLORS:** 01 | 11 | 14 | 35 | 36

Level 7 Winter Jacket an outer insulation layer for extreme cold weather. The Climashield® Apex™ insulation keeps user warm in any conditions, and dries quickly if wet. The outer Nylon shell protects from wind and water while allowing breathing and protecting the insulation from damage. Collar hides spacious hood, adjustable by drawstring accessible through chest pockets. The breast pockets are fleece-lined. Large side pockets zippers allow access even while wearing heavy mittens. The Level 7 Jacket is easily compressed, without losing any of its insulation properties.

- Keeps user warm even if soaking wet
- Lightweight and easily compressed
- Climashield® Apex™ insulation
- Two-way front zipper with thermal shield and chin guard
- Collar-stowed adjustable hood, combat helmet compatible
- Hood pocket zippered with two-way zipper
- Velcro ID panels
- Side breast pockets with lanyard D-Rings and electronics / heaters organizers
- Internal zippered 'dry' pocket for ID and valuables
- Two mesh pockets inside for drying wet clothes
- Bottom adjustable with elastic drawstring
- Partly elastic velcro-adjusted sleeve cuffs
- YKK® zippers
- Compression bag included

## WOLFHOUD JACKET

CODE: KU-WLF-NL

**FABRICS:** CLIMASHIELD® APEX™ INSULATION (67 g/m²) / WINDPACK NYLON®

**WEIGHT:** 435

**COLORS:** 01 | 09 | 11 | 14 | 35 | 36 | 45

Wolfhound is a lightweight warm jacket designed as an insulation layer, either standalone or combined with some outer layer. The Climashield® Apex™ insulation (same as in Level 7 Jacket) keeps the user warm in all conditions. VersaStretch® fabric panels in armpits improve air circulation and enhances comfort, while cuffs of the same fabric keep sleeves closed, trapping the warm air and preventing wind from chilling arms. Outstanding warming properties, high breathability, light weight and high compressibility – all combine to make Wolfhound a perfect all-year garment for all outdoor enthusiasts (and more).

- Climashield® Apex™ insulation (67 g/m²)
- Lightweight and compressible
- Armpits and cuffs of thinner, elastic VersaStretch® fabric
- Front YKK® zipper with wind flap
- Velcro ID panel on left upper sleeve
- Two lower front zippered external pockets
- External zippered chest pocket
- Internal zippered pocket
- Fleece lined collar
- Bottom-adjustable by elastic drawstring
- YKK® zippers
- Compression bag included

## WINDRUNNER® WINDSHIRT

CODE: KU-WDR-NL

**FABRICS:** WINDPACK NYLON®

**WEIGHT:** 200 g

**COLORS:** 01 | 11 | 14 | 35 | 36 | 45

Windrunner is an ideal carry-on item – in a bag or backpack – because of its minimum weight and size when folded. Ultralight, tight-woven Nylon fabric protects from the wind, and if the DWR coating is regularly maintained, also from light rain. Windrunner would also be an ideal garment for jogging. Mesh ventilation slats in armpits allow air circulation. On a cooler day, worn on top of a fleece, keeps the body warmth from escaping and protects against wind chilling. Large channel pocket would accommodate a cap, gloves or a buff. Two small flat pockets inside the large pocket would help to organize small items like a smartphone or cards holder.

- Doubly-adjusted hood with laminated visor
- Armpit ventilation slats covered with mesh
- Large front channel pocket zippered on either end allows hands to be warmed and small items organized
- Elbow reinforcements
- Elastic sleeve cuffs
- Bottom adjustable by elastic drawstring
- Integrated mesh pocket with compression ribbon loop (doubles as internal pocket)
- YKK® zippers

## NAVTEL POUCH®

CODE: M0-008-CD

FABRICS: CORDURA® 500D

WEIGHT: 116 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72

Medium sized, padded electronics pouch designed to be worn vertically on a backpack carrying strap or MOLLE/PALS platform. Holds smartphones, GPS devices, writing utensils and similar items.

- Padded, soft material lined main pocket, with elastic webbing retainer
- External velcro-closed pocket with dummy-cording loop
- Velcro ID panel
- DUTY BELT/MOLLE/PALS-compatible
- YKK® zipper

## GENERAL PURPOSE CARGO® POUCH

CODE: M0-U05-CD

FABRICS: CORDURA® 500D

WEIGHT: 120 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 39 | 41 | 42 | 43 | 44 | 63 | 71 | 72

Classic cargo pouch to be attached to DUTY BELT/MOLLE/PALS. Velcro mounting panel inside to attach inserts compatible with Versatile Insert System, elastic loops to stabilize larger items and a lanyard loop. This pouch would prove itself as a cargo side pocket of a backpack or hip-mounted item.

- Two-way zipper
- Two elastic loops inside
- External PALS segments to attach additional items
- MOLLE/PALS/DUTY BELT compatible
- Versatile Insert System compatible

## PAKCELL SET®

CODE: M0-007-PO

FABRICS: POLYESTER

WEIGHT: 180 g | CAPACITY: L: 12,5 l / M: 7,5 l / S: 2,5 l

COLORS: 01 | 02 | 14

Super lightweight, packable Pakcells® are designed to help organize and store garments and gear while packing and travelling. They can be stuffed into a backpack to have them all neatly packed and compressed. Having them in three different sizes allows to match Pakcells® to the backpack capacity without adding bulk or weight.

- Made of lightweight micro-ripstop
- Slim, rubberized carry handles
- Velcro ID panel
- Compression straps with Duraflex® buckles
- YKK® zipper

## FOLDING OUTDOOR CAP®

CODE: **CZ-FOC-NL**

FABRICS: STORMSTRETCH®

WEIGHT: 60 g

COLORS: 01 | 02 | 11 | 12 | 14 | 35

If one is mountaineering in a thermal outfit, it behooves to have a similar fitting cap. Our Folding Outdoor Cap is a new quality amongst the baseball caps. It is made entirely out of lightweight and breathable SoftStrech® fabric, with loop-velcro front panel to attach ID patches. Folding peak allows for easy pocketing of the cap.

- SoftStrech fabric
- Breathable
- Front velcro panel

- Folding peak
- Universal size

## MERINO BEANIE

CODE: **CZ-MBN-MW**

FABRICS: MERINO WOOL

WEIGHT: 25 g

COLORS: 01 | 12

Lightweight merino wool knitted cap would prove its mettle when you need a small volume, amply heating and quick drying product. The merino wool is perfectly natural moisture wicking material, that is lightweight and keeps no odors. It would prove perfect as helmet – be it bicycle, crash or tactical – comforter.

- Lightweight
- Breathable

- Discreet logo

## MERINO WRAP

CODE: **CZ-MWP-MW**

FABRICS: MERINO WOOL

WEIGHT: 30 g

COLORS: 01 | 12

Multifunctional merino wool shawl. Lightweight and quick-drying. Depending on the need, time of the year, weather and preferred activity it can serve as cap, balaclava, shawl, forehead band or hair wrap. Perfect all year round.

- Universal use
- Lightweight

- Breathable

## LIGHT WRAP

CODE: CZ-LWP-PO

FABRICS: POLYESTER

WEIGHT: 25 g

COLORS: 02

The simplest and most multifunctional item right after a common bandana. Multifunctional polyester shawl, lightweight and breathable. Can be worn as neck scarf, cap, forehead band, wrist band, face protection etc. In survival situations can serve as a water filter, band-aid, broken or disjointed limb stiffening element – only the boundaries of one's imagination limits its use.

- Lightweight
- Breathable

- 100% Polyester

**BUSHCRAFT  
LINE**

### **Being one with nature**

We want to be in the bosom of nature, use its resources, enjoy its beauty. Going to the woods, what we want the most is to enjoy the true freedom. All the equipment we take is to be our quiet companion and helper. This message is what guides us in creating the Bushcraft Line.

**FOXTROT MK2 BELT RIG****CODE: TB-FX2-CD****FABRICS:** 100% CORDURA® 500D**WEIGHT:** 690 g | **CAPACITY:** 6 l**COLORS:** 01 | 02 | 11 | 12

The Foxtrot MkII Belt Rig can be worn as a stand-alone item or be worn with functional suspenders. The Foxtrot comprises the main compartment with open-top sewn water bottle pockets. Partial hip belt has MOLLE/PALS attachment points for modular pouches (med kit, knife pouch, cargo pouch etc.). The main compartment comprises two zippered pockets with a velcro-closed one on the front. Additional Versatile Insert System-compatible inserts can be added within the main compartment. Suspenders are easily-adjustable with velcro at the back, they stabilize the load and spread the loads all over the wearer's frame.

- Carrying handle
- 50 mm wide hip belt with buckle
- Main compartment of large capacity
- Two water bottle pockets
- 50 mm MOLLE/PALS system
- Bottom compression ribbons
- Comfortable adjustable H-suspenders with four pack of band attachment eyelets
- MOLLE/PALS system with channels for knife/saw/axe etc.
- Capacious main chamber with zippered mesh pocket and Velcro panel compatible with Versatile Insert System
- Inner velcro-closed pocket with integral organizer
- YKK® zippers

**NEW WANDERER CAP®**

CODE: CZ-WND-WA

FABRICS: 50% WOOL, 50% ACRYLIC

WEIGHT: 90 g

COLORS: 01 | 02

Warm beanie cap made of wool and acrylic, perfect for cold days during bivouacking. Mixture of wool and acrylic enhances breathability and provide better moisture evaporation.

- One size fits most
- Pleasure to touch

- Bushcraft Line Logo

**NEW CHEST PACK NUMBAT®**

CODE: TB-NMB-CD

FABRICS: CORDURA® 500D, VERSASTRETCH®

WEIGHT: 475 g | CAPACITY: 3,5 l

COLORS: 01 | 11 | 12 | 35

Lightweight chest bag to carry all items needed in the field. The bag can fit navigation equipment (GPS, compass etc), fire starters, spare batteries, small binoculars, pencils etc. Internal, detachable divider with map pocket and organizer for small items. On the back part there is an additional velcro panel compatible with Versatile Insert System that allows mounting of pouches, holsters etc. External side of the bag is covered with mesh that enhance breathability. Front and bottom has mounting points compatible with MOLLE/PALS. Also, on the bottom there is additional shock cord that can be used to carry gloves, water bottle, jacket etc. Two pockets on front are made of VersaStretch® in order to provide fast access to carried items.

- Made of 500D Cordura
- Laser cut MOLLE/PALS
- Many ways of mounting additional equipment
- Front pockets made of VersaStretch®
- Compatible with Versatile Insert System

- Integrated map pocket
- Lightweight mesh shoulder straps
- WooJin buckles
- YKK® zippers

**NEW WOODSMAN ANORAK®**

CODE: KU-WDN-DC

FABRICS: DURACANVAS®, STORMSTRETCH®

WEIGHT: 690 g

COLORS: 09 | 11

Woodsmen Anorak® is based on the Mistral Anorak. In the bushcraft version the jacket is made of fabrics more suitable for outdoor and camping. The front was made of DuraCanvas® fabric, therefore it is flash resistant (sparks etc) and durable enough not to be damaged by sharp parts of plants. The back of the jacket was made of StormStretch® fabric, to provide better breathability. The whole jacket is highly wind resistant and very durable. Bushcraft anorak has three pockets, including one kangaroo on the front with integral organizer. Sides are fully zippered to the arm pits to provide easy don and doff. The side zippers can also be used as ventilation. The hood is double adjustable.

- Durable construction made of DuraCanvas® and Stormstretch®
- Flash resistant (sparks etc)
- Breathable back
- Large kangaroo pocket on front

- Adjustable hood
- Ventilation in armpits
- Side zippers provide easy don and doff
- YKK® zippers

## SWAGMAN ROLL® PONCHO

CODE: PO-SMR-NL

FABRICS: CLIMASHIELD® APEX™ INSULATION (67 g/m²), WINDPACK NYLON®

WEIGHT: 820 g

COLORS: 11 | 12 | 14 | 23 | 45

Swagman Roll® is a multifunction tool, applicable wherever a warm cover is required. You can use it as a poncho liner, emergency sleeping bag, enhance your regular sleeping bag with it, wrap in it as if it was a blanket, line your hammock with it – or just wear as a stand-alone long, warm coat. It is made of thin Nylon fabric, filled with one of the most advanced insulating materials – the Climashield® Apex™ – that keeps user warm, is breathable, very light and dries quickly if wet.

- Warm hood
- Integral transport pocket
- Zippered front pocket
- USGI poncho compatible
- Can be used as: emergency jacket, sleeping bag or sleeping bag liner, blanket, hammock liner (quilt) etc.
- Lightweight, non soaking, easy to transport
- Ideally fits the BOB backpack
- Wooljin buckles
- YKK® zippers

## PILGRIM ANORAK®

CODE: KU-PGM-DC

FABRICS: DURACANVAS®

WEIGHT: 920 g

COLORS: 09 | 11

Pilgrim Anorak® is an all-weather intensive-use outdoor coat. The elongated cut, armpit ventilation and large, functional hood protect the wearer from wind, rain or snow. There are four chest pockets, two handwarmer ('Napoleon') pockets and two oblique large Canadian button-closed ones. In the lower part there is a large, open-ended tunnel pocket. The anorak can be worn half-open to avoid sweating in summertime, contrary to most other anoraks. Two ribbon bands are sewn inside for drying wet gloves or for carrying a small water bottle in wintertime.

- Oversized cut
- Elongated tail
- Elastic waist drawstring
- Front fleece-lined pocket
- Zippered upper sleeve pockets
- Two Napoleon pockets, zippered with internal flat pocket/organizer
- Two oblique Canadian button-closed pockets
- Waterproofing-ready
- Spacious, adjustable hood with little visor
- Hidden ventilation slot in the hood's rear
- Mesh lining
- Velcro panels for easy personalization
- Elbow reinforcements
- Internal sock-drying hangers
- Velcro adjustable cuffs
- YKK® zippers
- Designed by Survivaltech.pl

## PILGRIM PANTS®

CODE: SP-PGM-DC

FABRICS: DURACANVAS®

WEIGHT: 730 g

COLORS: 09 | 11

The pants are made of DuraCanvas® fabric, therefore they are robust, yet lightweight for their advanced design. They feature seat and knee reinforcement, additionally knees have inner pockets for added protection of our Neoprene Low Profile Protection Pads Inserts®. The pants feature elevated midriff in the back with additional kidney-protection panel. There is a total of eight pockets. The thigh pockets are lined with mesh for air circulation with open pockets. Waistband and leg cuffs are elastic drawstring adjustable. Suspenders can be buttoned to the pants. The fabric can be water-proofed with a special wax.

- Extended back midriff protects the kidneys
- Two classic front pockets
- Button-closed pockets for folding knife, multitool or pocket light
- Zippered thigh pockets
- Thigh pockets mesh lined for ventilation
- Folding saw pocket inside thigh pocket
- Drawstring adjustable in waist and leg cuffs
- Wax-waterproofing ready
- Suspenders-ready
- Knee reinforcements Low Profile Protective Pad Inserts®-compatible
- YKK® zippers

## SUPERTARP

CODE: PO-STP-PO

FABRICS: POLYESTER RIPSTOP

WEIGHT: 840 g

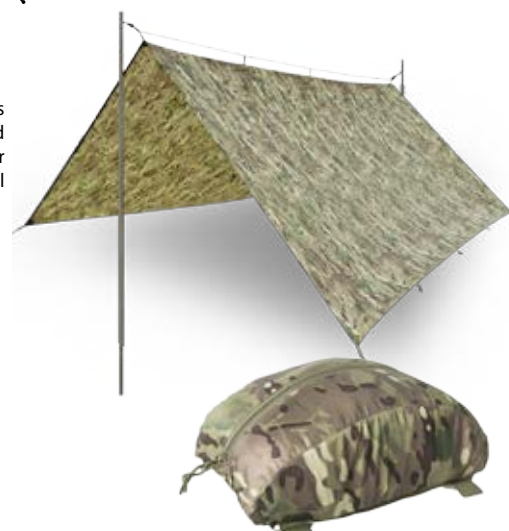

COLORS: 01 | 02 | 03 | 04 | 14

We have created a universal shelter cape for bivouac-goers. 19 attachment points provides for about an endless choice of possible configurations for all terrains and climes. To keep it lightweight, we made it out of plastic-coated ripstop fabric. Reinforced attachment points and glued seams guarantee durability and sealing. The zippered cover allows easy packing, even when wet. Nine ribbons allow to cinch the cover to the backpack, saving the internal capacity. The drawstring-compressed bag enclosed with the tarp allows to compact it for transport.

- Made of coated Ripstop
- Reinforced seams
- Nineteen reinforced attachment points
- Two covers enclosed: a drawstring bag and zippered sleeve

with mesh bottom for drying, attached to the backpack via nine webbing bands

- Designed by Survivaltech.pl

## CARRYALL BACKUP BAG®

CODE: TB-CAB-PO

FABRICS: POLYESTER RIPSTOP

WEIGHT: 150 g | CAPACITY: 29 l

COLORS: 01 | 02 | 04 | 12 | 14

Carryall Backup Bag® is an ideal Musette Bag: you stuff there whatever did not fit inside the backpack – extra food, fire-starting gear etc. Good for shopping, hiking to a mountain chalet, or emergency carry-all stuffed in a vehicle or backpack Just-In-Case.

Made of polyester rip-stop with a comfy, wide carrying strap. Can be collapsed into its own integral carry pocket.

- 100% Polyester Ripstop construction
- High capacity
- Collapsible into integral carry pocket
- Ideal as emergency carry-all bag on bivouac as well as in

urban jungle

- Wide adjustable carry strap
- Designed by Survivaltech.pl

## BUSHCRAFT SATCHEL® BAG

CODE: TB-BST-CD

FABRICS: CORDURA® 500D

WEIGHT: 479 g | CAPACITY: 17 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 41 | 42 | 43 | 44

Bushcraft Satchel® is our general purpose field bag. May be used as a carry-all for one-day outing, or for every day urban activities. Main chamber comprises a zippered mesh pocket for valuable items plus two elastic drawstring pockets. On the outside the bag has a large zippered pocket and two open pockets. MOLLE/PALS panels at the sides and bottom loops allow to attach additional pouches and items. Compression straps allow size adjustment.

- Detachable, adjustable wide carrying strap
- External zippered pocket
- Two internal elastic drawstring pockets for water bottles etc.
- Internal zippered mesh pocket
- Two external built-in sheaths for knife/axe/saw
- MOLLE/PALS side panels
- Bottom loops, 'six-pack' arrangement
- Two compression straps at sides
- YKK® zippers
- Co-design with Survivaltech.pl

## MATILDA BACKPACK®

CODE: PL-MTA-NL

FABRICS: CORDURA® 500D, NYLON 210D

WEIGHT: 1670 g | CAPACITY: 35 l

COLORS: 02 | 11 | 12

Matilda is a functional universal backpack inspired by that American classic – the ALICE backpack. Each external pocket has a back channel, and drawstring adjustable sleeve. The main chamber flap has got two big pockets. MOLLE/PALS ribbons are sewn in several places externally. There are compression straps at the sides. The carry system is based on plastic-stiffened back fitted with breathable mesh pads and anatomically shaped straps. Wide detachable hip belt is also included, with PALS attachment points.

- Carry handle
- Reinforced in key points (e.g. main chamber and pockets bottom)
- Back stiffeners
- Comfortable carrying system
- Ergonomic, comfortable straps
- MOLLE/PALS panels for additional pouch attachment
- Side compression bands
- Two zippered flap pockets: external and mesh internal
- Loop-velcro panel for personalization on the flap
- Double main chamber adjustment with drawstrings
- MOLLE/PALS attachment points inside for modular inserts or pouches
- Hydration systems compatible – Camelbak holder
- Three external buckled pockets with drawstring sleeves
- Detachable adjustable hip belt
- YKK® zippers
- Designed by Survivaltech.pl

## E&E POUCH®

CODE: MO-U03-CD

FABRICS: CORDURA® 500D

WEIGHT: 210 g

COLORS: 01 | 02 | 04 | 11 | 12 | 34 | 35 | 41 | 42 | 43 | 44

A timeless classic based on a revised British Special Forces design. This large pouch holds survival and bushcraft equipment, water bottles, food rations and similar items. There is a sleeve on the back that will hold a folding saw/knife/axe. MOLLE/PALS-compatible

- Buckle closure
- Inner velcro panel, 3 slim inner pockets and dummy cording loop with bottom velcro limiter
- Front & side MOLLE/PALS webbing
- Built in sheath for Knife/axe/saw at the rear of the pouch
- DUTY BELT/MOLLE/PALS-compatible
- Designed by Survivaltech.pl

## ESSENTIAL KITBAG®

CODE: TB-EKB-CD

FABRICS: CORDURA® 500D

WEIGHT: 320 g | CAPACITY: 2,5 l

COLORS: 01 | 02 | 11 | 12 | 34 | 35 | 41 | 42 | 43 | 44

The Essential Kitbag® was designed to hold all essential bushcraft/survival kit. This bag will hold water bottle with cup, folding stove, flashlight, compass, cord, sewing kit etc. All kit is neatly organized in separate pockets. Essential can be carried attached to backpack via MOLLE/PALS or up to 50 mm wide belt, or with its own shoulder strap. There is a sleeve on the back that will hold a folding saw/knife/axe. Capacity can be velcro reduced. Extra pouches can be attached at the front side.

- Adjustable buckle closure
- Takes most 1 liter water bottles (Nalgene, US Canteen) with cup
- Main chamber with adjustable drawstring and compartment for folding expeditionary cooker
- Zippered mesh water purification tablets pocket inside the flap
- Side organizer YKK® - zippered pockets with loop and mesh pocket
- Built in velcro-adjusted sheath for knife/axe/saw
- Detachable, adjustable wide carrying strap, DUTY BELT/MOLLE/PALS-compatible
- D-rings for strap
- Designed by Survivaltech.pl

## CAMP KETTLE

CODE: TK-CKT-AL

FABRICS: ALUMINIUM

WEIGHT: 212 g

COLORS: 19

Simple bushcraft kettle of hard-anodized aluminum. Robust, yet lightweight. Gas-cooker or camp fire compatible.

- Made of hard-anodized aluminum
- Capacity 1.4 liter
- Top-opening with fitted lid

- Folding handle enabling hanging over fireplace
- Designed by Survivaltech.pl

## CAMP CUP

CODE: TK-CCP-AL

FABRICS: ALUMINIUM

WEIGHT: 175 g

COLORS: 19

Large camp cup made of hard-anodized aluminum. May be heated on gas cookers or over fire. Has a lid, folding handle, wide enough to fit 1-liter Nalgene bottle.

- Made of hard-anodized aluminium
- Capacity: 0,85 liter
- Fitted lid

- Folding handle
- Fits over 1 liter Nalgene bottle
- Designed by Survivaltech.pl

## TRITAN™ BOTTLE - 1 liter

CODE: HY-WM1-TT

FABRICS: TRITAN™

WEIGHT: 144 g

COLORS: 01

Tritan is a material that does not affect taste and is perfectly inert towards anything drinkable for humans. Additionally, the material is real tough, almost indestructible. The wide inlet allows one to scoop-up the creek water, and also to use a spoon to stir anything soluble dumped there. The wide neck prevents the contents from freezing up in winter. The water bottle fits the Camp Cup and Essential Kitbag® set.

- Made of Tritan
- BPA-free

- Fits the Camp Cup or Essential Kitbag®
- 4 centimetre wide inlet

## FIRESARK FIRE STARTER

CODE: KR-FSK-FC

FABRICS: HANDLE - 100% ANODIZED ALUMINUM, FIREROD - FERROCERIUM

WEIGHT: 50 g

COLORS: 01

A modern rendering of classical subject: designated survival firestarting kit. Hollow aluminum handle may house water purification tablets, tinder or rolled banknotes. Long spark rod with durable handle make starting a fire with Firespark and knife a breeze.

- Long magnesium rod
- Durable handle with water-tight twist-cap container

- 550 Paracord loop

## SURVIVAL BRACELET

CODE: AC-SBR-NL

FABRICS: NYLON

WEIGHT: 25 g

COLORS: 02 | 11

A bracelet woven of the 550 Paracord is one of the most ubiquitous survival accessories. As it is woven of a continuous length of cord, it can be unwoven in an emergency to use for shelter building or mending equipment. The 550 Paracord consists of 7 core threads, combining to form a superbly robust and durable cord.

- Made of 550-lbs Nylon paracord

## 275 LBS CORD

CODE: AC-PC2-NL

FABRICS: NYLON

WEIGHT: 132 g

COLORS: 01 | 02 | 11

Thin, durable, hydrophobic, tear-resistant and knot-enhancing cord. It prove itself whenever situation calls for something thinner than the standard, traditional 550 Paracord.

- Four strand core in braided Nylon sheath
- 125 kg (275 lbs) dead weight capacity

- US Made
- Length: 100 FT

## 550 LBS. CORD

CODE: AC-PCR-NL

FABRICS: NYLON  
WEIGHT: 210 g  
COLORS: 01 | 02 | 11

NATO Mil-Spec 550 lbs. Nylon cord, known also as Paracord. Strong and lasting – this cord is perfect for all makeshift construction works, packing or field repairs. US made.

- Seven strand core in braided Nylon sheath
- 250 kg (550 lbs ) dead weight capacity

- US Made, Mil-Spec
- Length: 100 FT

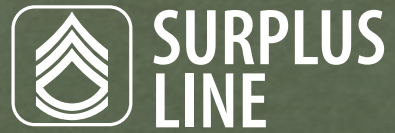

### **Proven solutions**

Some solutions used in the production of clothes have proven themselves and their effectiveness on many battlefields. Even more - they have survived the test of time and are working well today. Our Surplus Line is the large collection of these solutions.

## M65 JACKET

CODE: KU-M65-NY

FABRICS: NYCO SATEEN: 50% COTTON, 50% NYLON

WEIGHT: 2000 g

COLORS: 01 | 02 | 03

The M65 is traditional Nam era design used by the U.S. Army since early 1970's. The construction of M65 clothing system evolved from previous M-series and it is based on on-the-ground experience of U.S. Army warfighters. Straight cut and pocket placement established a particular style and trend of military jackets for decades to come. The M65 is a heavy-duty parka for army lovers and demanding users. Cold weather liner included.

- Stand-up collar
- Full front neck-to-waist zipper with wind and storm flaps
- Foldable hood
- Four front pockets with push button closure
- Shoulder rank tags

## BASE LAYERS

### **Next to skin**

We spend lot of time in the field. We know how important is the next to skin layer of clothing. From comfortable, technical cut, to all the fabrics used – everything matters to us.

## LEVEL 1 UNDERWEAR SET

CODE: KP-UN1-PO

**FABRICS:** HELIKON-TEX® QUICK DRY 130 g/m² POLYESTER KNITTED FABRIC

**WEIGHT:** 500 g

**COLORS:** 01 | 02

LVL 1 Underwear is the base, next-to-skin, clothing layer. It prevents irritation and discomfort caused by high-energy output combined with carrying of military gear carriage. Made of 100% polyester knitted fabric wicks moisture away from the body and stays dry for long. Special fabric weave increases moisture wicking and evaporation area. This feature makes the LVL 1 Underwear a versatile solution for all climates.

- Helikon-Tex® Quick Dry fabric
- Extremely lightweight and compressible
- Great breathability and thermal regulation
- Seamless (flat seam) technology
- Raglan sleeves
- Comfortable fly (drawers)

## LEVEL 2 UNDERWEAR SET

CODE: KP-UN2-PO

**FABRICS:** POLYESTER, ELASTANE (95% / 5%) HELIKON-TEX® COMFORT DRY 210 g/m² BREATHABLE GRID

**WEIGHT:** 768 g

**COLORS:** 01 | 02

Level 2 is a warm underwear for cold weather use. The fabric used warms the body, while wicks surplus humidity away, to other layers. LVL 2 is highly compressible, can be carried in a backpack ready to deploy when needed. Extended tail protects kidney area and other vital internal organs during intense movement. Loose cut prevents tear and irritation from prolonged use.

- Lightweight and compressible
- High breathability
- Provides immediate warmth
- Seamless (flat seam) technology
- Raglan sleeves
- Thumbholes on cuffs
- Elastic waistband (drawers)
- Comfortable fly (drawers)

## LIGHTWEIGHT SOCKS

CODE: SK-LWT-CM

**FABRICS:** 50% COOLMAX, 34% WOOL, 13% NYLON, 3% ELASTANE

**WEIGHT:** 92 g

**COLORS:** 01

Lightweight and durable tactical footwear socks for hot, sunny days. Flat seams combined with anatomically reinforced Y-Cut and the use of Coolmax® fabric protect feet from abrasions and provide comfort in prolonged use.

- Wide, non-constricting welt
- Flat seams

- Anatomic Y – Cut to prevent slipping down
- Reinforced heel and sole

## MEDIUMWEIGHT SOCKS

CODE: SK-MWT-WA

**FABRICS:** 40% WOOL, 25% ACRYLIC, 15% POLYPROPYLENE, 17% POLYAMIDE, 3% ELASTANE

**WEIGHT:** 94 g

**COLORS:** 01

Medium, durable heavy-duty socks for cold weather conditions. Seamless technology combined with anatomic gripping area and high-wool material addition provides abrasion and moisture protection as well as comfort during prolonged wear.

- Wide, comfortable welt
- Seamless technology
- Anatomic gripping area to stop socks from riding down

- Reinforced heel
- Reinforced sole

## HEAVYWEIGHT SOCKS

CODE: SK-HWT-WA

**FABRICS:** 60% WOOL, 20% ACRYLIC, 15% POLYESTER, 5% ELASTANE

**WEIGHT:** 98 g

**COLORS:** 01

Warm, thick and durable tactical footwear socks for cold weather. Flat seams combined with anatomically reinforced Y-Cut and the use of Coolmax® fabric protect feet from abrasions and provide comfort in prolonged use.

- Wide, non-constricting welt
- Flat seams

- Anatomic Y – Cut to prevent slipping down
- Reinforced heel and sole

# FLEECE

## **Keep it warm!**

Our fleece line offers a wide variety of tactical-look jackets. One can choose exactly the needed solution and keep warm under any conditions.

## LIBERTY JACKET - DOUBLE FLEECE

CODE: BL-LIB-HF

FABRICS: POLYESTER, DOUBLE SUPERFINE FLEECE 390 g/m<sup>2</sup>

WEIGHT: 920 g

COLORS: 01 | 04 | 11 | 14 | 16 | 27 | 33 | 35

Liberty is a heavy duty fleece jacket for cold environments. Set of pockets would allow for stowing essentials. Elbow and shoulder areas are reinforced for additional durability needed for tactical operations in full gear. Liberty is available in various colors and camouflage schemes, suitable for both Military and Law Enforcement use.

- Extreme insulation level
- Front two-way YKK® zipper with wind flap and chin guard
- Stand-up collar with retention
- Velcro panels for personalization
- Armpit ventilation zippers
- Zippered upper sleeve pockets

- Back channel pocket with zippers on either side
- External breast pockets with wiring eyelets, D-Rings and device organizer
- Left lower sleeve zippered pocket
- Reinforced shoulders and elbows
- Velcro-adjustable cuffs
- Bottom adjustable by elastic drawcord

## PATRIOT JACKET - DOUBLE FLEECE

CODE: BL-PAT-FL

FABRICS: POLYESTER, DOUBLE SUPERFINE FLEECE 390 g/m<sup>2</sup>

WEIGHT: 1117 g

COLORS: 01 | 02 | 04 | 11 | 14 | 21 | 23 | 27 | 33 | 35

Patriot Heavy Fleece Jacket is the most advanced of our fleece jackets offer. It is designed for tactical use in extreme weather. The jacket features an adjustable, small-visored hood, for additional protection, as well as a set of pockets for tactical essentials. Breast pockets have wiring eyelets and small devices organizers. Three external pockets in easily reachable areas – on either upper and left lower sleeve – would allow additional storage. Elbows are reinforced for additional wear and tear resistance. Jacket can be individually adjusted by velcro-adjustable cuffs, and elastic drawstrings in hood and jacket bottom. Patriot is a versatile and durable upper apparel suitable for cold climates.

- Extremely high insulation
- Main two-way YKK® zipper with wind flap and chin guard
- Integrated, adjustable hood
- Velcro panels on upper sleeve pockets for personalization
- Armpit ventilation zippers
- Zippered upper sleeve pockets

- Back channel pocket, zippered from either side
- Outer chest pockets with wiring eyelets, D-Rings and device slots
- Left lower sleeve zippered pocket
- Profiled elbow reinforcements
- Velcro-adjustable cuffs
- Elastic drawstring bottom adjustment

## POLISH INFANTRY JACKET - FLEECE

CODE: BL-INF-HF

FABRICS: POLYESTER, DOUBLE FLEECE 330 g/m<sup>2</sup>

WEIGHT: 990 g

COLORS: 01 | 17 | 18

Infantry Fleece Jacket is a dedicated Army personnel garment. The jacket features four pockets for basic equipment and velcro pads for easy personalization options. Infantry fleece jacket is a simple and functional design for everyday duty in the garrison and in the field.

- High thermal insulation
- Front two-way YKK® zipper with a wind flap and chin guard
- Upper sleeve pocket with wiring eyelet
- Breast (Napoleon) pocket with wiring eyelet and device organizer

- Two zippered bottom side pockets
- Reinforced shoulders and elbows
- Velcro ID Panels
- Velcro-adjustable cuffs
- Elastic cord-adjustable bottom

## CLASSIC ARMY FLEECE JACKET

CODE: BL-CAF-FL

FABRICS: POLYESTER, FLEECE 300 g/m<sup>2</sup>

WEIGHT: 730 g

COLORS: 01 | 02 | 16

Classic Army is a fleece jacket designed as medium insulation. Comfortable cut and a set of pockets make this jacket an everyday utility apparel. Jacket can be individually fitted by elastic drawstrings in collar, sleeve cuffs and bottom. Elbows and shoulder are reinforced for additional wear and tear protection.

- Stand-up collar with retention
- Two way front zipper with wind flap
- Upper sleeve pocket
- 'Napoleon' breast pocket
- Two bottom zippered side pockets
- Reinforced shoulders and elbows
- Velcro-adjustable cuffs
- Bottom-adjustment by elastic drawstring

## CLASSIC ARMY – WINDBLOCKER FLEECE JACKET

CODE: BL-CAF-FM

FABRICS: POLYESTER

WEIGHT: 1180 g

COLORS: 01 | 16

Classic Army Fleece Jacket upgraded with Helikon-Tex® Windblocker Membrane for additional wind protection. Comfortable cut and a set of pockets make this jacket an everyday utility apparel. Elbow and shoulder parts are reinforced for additional durability. Collar-stowable small hood was added to protect the wearer against light rain.

- Additional wind protection
- Breathability: 8000g/m<sup>2</sup>/24h
- Two-way YKK® zipper with wind flap
- Stand-up collar with retention
- Collar-stowed folding, elastic-drawstring adjustable hood
- Left lower sleeve zippered pocket
- Breast pocket (Napoleon) with wiring eyelet
- Two bottom side slash pockets
- Reinforced shoulders and elbows
- Velcro-adjustable cuffs
- Bottom elastic-drawstring adjustment
- YKK® zippers

## DEFENDER – DUTY FLEECE JACKET

CODE: BL-DEH-HF

FABRICS: POLYESTER

WEIGHT: 1100 g

COLORS: 01

Defender is a duty fleece jacket which comes only in black. This apparel is strictly designated for Law Enforcement and Security Operators. The design features three basic pockets, shoulder and elbow reinforcements. The construction is equipped with three concealable ID panels. Two include blank ID panels allowing user customization by printing or embroidering names on them. Composed Quick Side Access™ provides easy grab of pistol and other duty belt mounted gear. Defender features velcro panels on sleeves and chest.

- High insulation
- Main two-way YKK® zipper with a wind flap and chin guard
- Napoleon pocket with wiring eyelet and device slot
- Two bottom side slash pockets with zipper closure
- Bicep and chest velcro panels
- Reinforced shoulders and elbows
- Quick Side Access™ system
- Hidden ID panels for Law Enforcement personalization (Front: 12 cm wide x 7,5 cm high, Back: 26 cm wide x 10 cm high)
- Adjustable hook and loop cuffs
- Elastic corded bottom with quick-locks for individual fit
- WooJin buckles

# VERSATILE INSERT SYSTEMS

## **Personalize!**

We have created a whole system of practical inserts that allow you to carry various items - from pistols and ammunition to medical supplies and EDC gear. Just choose the insert suitable to your needs and connect it with one of our backpacks, bags or waist packs. Easily attachable and detachable, they will simplify everyday tasks and personalize your equipment.

## BACKPACK PANEL INSERT®

CODE: IN-BPP-CD

FABRICS: CORDURA® 500D

WEIGHT: 210 g

COLORS: 11

Large organizer insert, G-ring attachable to several of our backpacks (incl. EDC Backpack). Has a carrying handle, velcro mounting panel compatible with Versatile Insert System, zippered pocket and an elastic-ribbon cuffed pocket. Can be carried in a backpack or hung from the car seat.

- Close to A4 size
- Velcro ID panel Versatile Insert System-compatible
- Two pockets
- G-rings
- Carry handle

## EDC MEDIUM INSERT®

CODE: IN-EDM-CD

FABRICS: CORDURA® 500D

WEIGHT: 90 g

COLORS: 11

The EDC Insert® as name implies serves as an organizer for all the every day carry essentials. These are usually a knife, a light, first aid gloves, a pain-killer, something to write with, energy bar and similar items. No matter what the user deems essential to his or her EDC, our organizer would keep that neatly in place, ready to grab. Thanks to our stowable velcro mounting panel, the insert can be integrated with our Versatile Insert System, making it compatible with our bags, backpacks, belt rigs – or use as stand alone, without interfering with other items. Also available in larger size.

- Flat pockets
- Zippered mesh pocket
- Five elastic ribbon loops
- A Paracord loop
- Versatile Insert System-compatible
- Matilda Backpack® compatible
- YKK® zipper

## EDC LARGE INSERT®

CODE: IN-EDL-CD

FABRICS: CORDURA® 500D

WEIGHT: 100 g

COLORS: 11

The EDC Insert® as name implies serves as an organizer for all the every day carry essentials. These are usually a knife, a light, first aid gloves, a pain-killer, something to write with, energy bar and similar items. No matter what the user deems essential to his or her EDC, our organizer would keep that neatly in place, ready to grab. Thanks to our stowable velcro mounting panel, the insert can be integrated with our Versatile Insert System, making it compatible with our bags, backpacks, belt rigs – or use as stand alone, without interfering with other items. Also available in smaller size.

- Flat pockets
- Zippered mesh pocket
- Five elastic ribbon loops
- A Paracord loop
- Versatile Insert System-compatible
- YKK® zipper

**TRIPLE | DOUBLE ELASTIC INSERT®**CODE: **IN-TEL-PO** | **IN-DEL-PO**

FABRICS: POLYESTER

WEIGHT: 25 g | 20 g

COLORS: 11

Our Triple Elastic Insert® | Double Elastic Insert® was designed especially for shooters. It enables carrying most full-sized pistol magazines. The Triple Elastic Insert® is fully compatible with our Versatile Insert System, therefore it can be paired with any of the Range, Urban, or Bushcraft series products. One of the corners has a puller loop sewn in to aid in quick detaching the insert from the velcro panel.

• Versatile Insert System-compatible

• Easy-removable with a puller loop

**ORGANIZER INSERTS®**CODE: **IN-OGM-CD** | **IN-OGI-CD**

FABRICS: CORDURA® 500D

WEIGHT: 25 g (LARGE) | 20 g (MEDIUM)

COLORS: 11

Organizer Insert® is a universal insert fitting all products having a velcro panel compatible with Versatile Insert System. It has four | three pockets and four | three elastic ribbon loops.

• Four | Three pockets

• Four | Three elastic ribbon loops

• Versatile Insert System-compatible

**PENCIL CASE®**CODE: **IN-PCC-CD**

FABRICS: CORDURA® 500D

WEIGHT: 80 g

COLORS: 11

Pencil Case® – an insert designed for writing instruments, such as pencils, pens and markers are the most used every day carry items. Thanks to a velcro mounting panel it can be integrated with every bag or backpack sporting the Versatile Insert System, and with velcro covered with an included cover, it can serve as standalone item. Items are held by elastic loops, small pieces can also be held in a small zippered mesh pocket.

• Versatile Insert System-compatible

• Elastic loops to keep writing instruments

• Internal zippered mesh pocket

• YKK® zippers

## DOCUMENT CASE INSERT®

CODE: IN-DCC-CD

FABRICS: CORDURA® 500D

WEIGHT: 65 g

COLORS: 11

Document Case® is a medium sized insert, compatible with Versatile Insert System. The attachment panel can be covered (when covered it won't catch on other velcro panels). Three open pockets and one zippered inside.

- Zipper-closed insert
- Coverable mounting panel
- Four internal pockets: three open, one zippered

- Versatile Insert System-compatible
- YKK® zipper

## PISTOL HOLDER INSERT®

CODE: IN-PTH-NL

FABRICS: NYLON

WEIGHT: 40 g

COLORS: 11

Document Case® is a medium sized insert, compatible with Versatile Insert System. The attachment panel can be covered (when covered it won't catch on other velcro panels). Three open pockets and one zippered inside.

- Versatile Insert System-compatible (incl. Bandicoot® waistpack)
- Puller loop for quick tearing the insert from velcro panel
- Puller loops enhancing handgun and magazine holstering
- Angle of presentation promoting the draw ergonomics

## MOLLE ADAPTER INSERTS®

CODE: IN-MA1-CD | IN-MA2-CD | IN-MA3-CD

FABRICS: CORDURA® 500D

WEIGHT: 8 g (SMALL) | 10 g (MEDIUM) | 20 g (LARGE)

COLORS: 11

One of the most universal inserts of our extended Versatile Insert System-compatible offer. MOLLE Adapter Insert® 1 | 2 | 3 has two rows of PALS ribbons, set in one | two | three column. It can be used with many models of backpacks, bags and side packs of the Urban, Range or Bushcraft lines.

- Two rows of ribbons in one | two | three columns
- Velcro panel

- MOLLE/PALS compatible
- Versatile Insert System-compatible

**DOUBLE RIFFLE MAG INSERT®**CODE: **IN-DRM-PO**

FABRICS: POLYESTER

WEIGHT: 70 g

COLORS: 11

Double Rifle Magazine Insert® is designed to house full-sized rifle magazines – both AR and AK. One of the corners has a puller-loop sewn in to assist in quick detaching the insert from the velcro panel. This insert is compatible with Versatile Insert System.

- Versatile Insert System-compatible

**DOUBLE PISTOL MAG INSERT®**CODE: **IN-DPM-PO**

FABRICS: POLYESTER

WEIGHT: 40 g

**WindPack Nylon®** – Polyamid fabric. Canvas weave reinforced by the ripstop grid. External surfaces treated with DWR waterproofing coating.  
Fabric composition: Micro Ripstop Nylon 100% with DuPont™ Teflon® coating

# PARTNERS

First WooJin Plastic factory was established in 1979 in Korea as a family based company. Years after, in 1993 WJ agreed to be a joint venture of US based National Molding company. Since then, the WooJin Plastic Company continue to grow, winning many prestigious awards, and finally establishing factory in Vietnam. Now WooJin plastic is one of the biggest and most reliable production companies in Asia, supplying buckles and other plastic hardware to many top brands in the world, not only from the outdoor market, but also the military.

YKK® group is one of the most known and respected manufacturer of zippers, fastening products or plastic hardware. Registered in 1946 in Japan it very fast became the key manufacturer of zippers in Asia. Within next 15 years the YKK® group expand to overseas production, opening the factories in New Zealand and US. Today YKK® zippers are the most known zippers on the world, being used not only in civilian market, but also being selected for use in personal equipment in major armies, and the brand's name is the synonymous of great quality.

COBRA® Buckles are considered the safest and strongest load bearing buckles on the market, being the only stab-lock style fastener that will not open under load. Made fully, from CNC, assembly, inspection to packing in one facility to assure the highest quality. All COBRA® Buckles are certified to exceed Mil-Spec guidelines for dust, sand and salt water, as well as all applicable CE, EN, CSA, ANSI and NFPA standards for fall-protection and personal safety. COBRA® Buckles are now the most known and respected safety buckles in the world.

Climashield® APEX™ is the effect of over 25 years of manufacturing experience. Now it is the lightest weight and most thermally efficient continuous filament insulation. Due to the continuous filament properties it requires no quilting, providing the better options for making jackets or sleeping bags. The Climashield® APEX™ maintains thermal efficiency not only in wet conditions, but also after multiple uses, being stretched or washed.

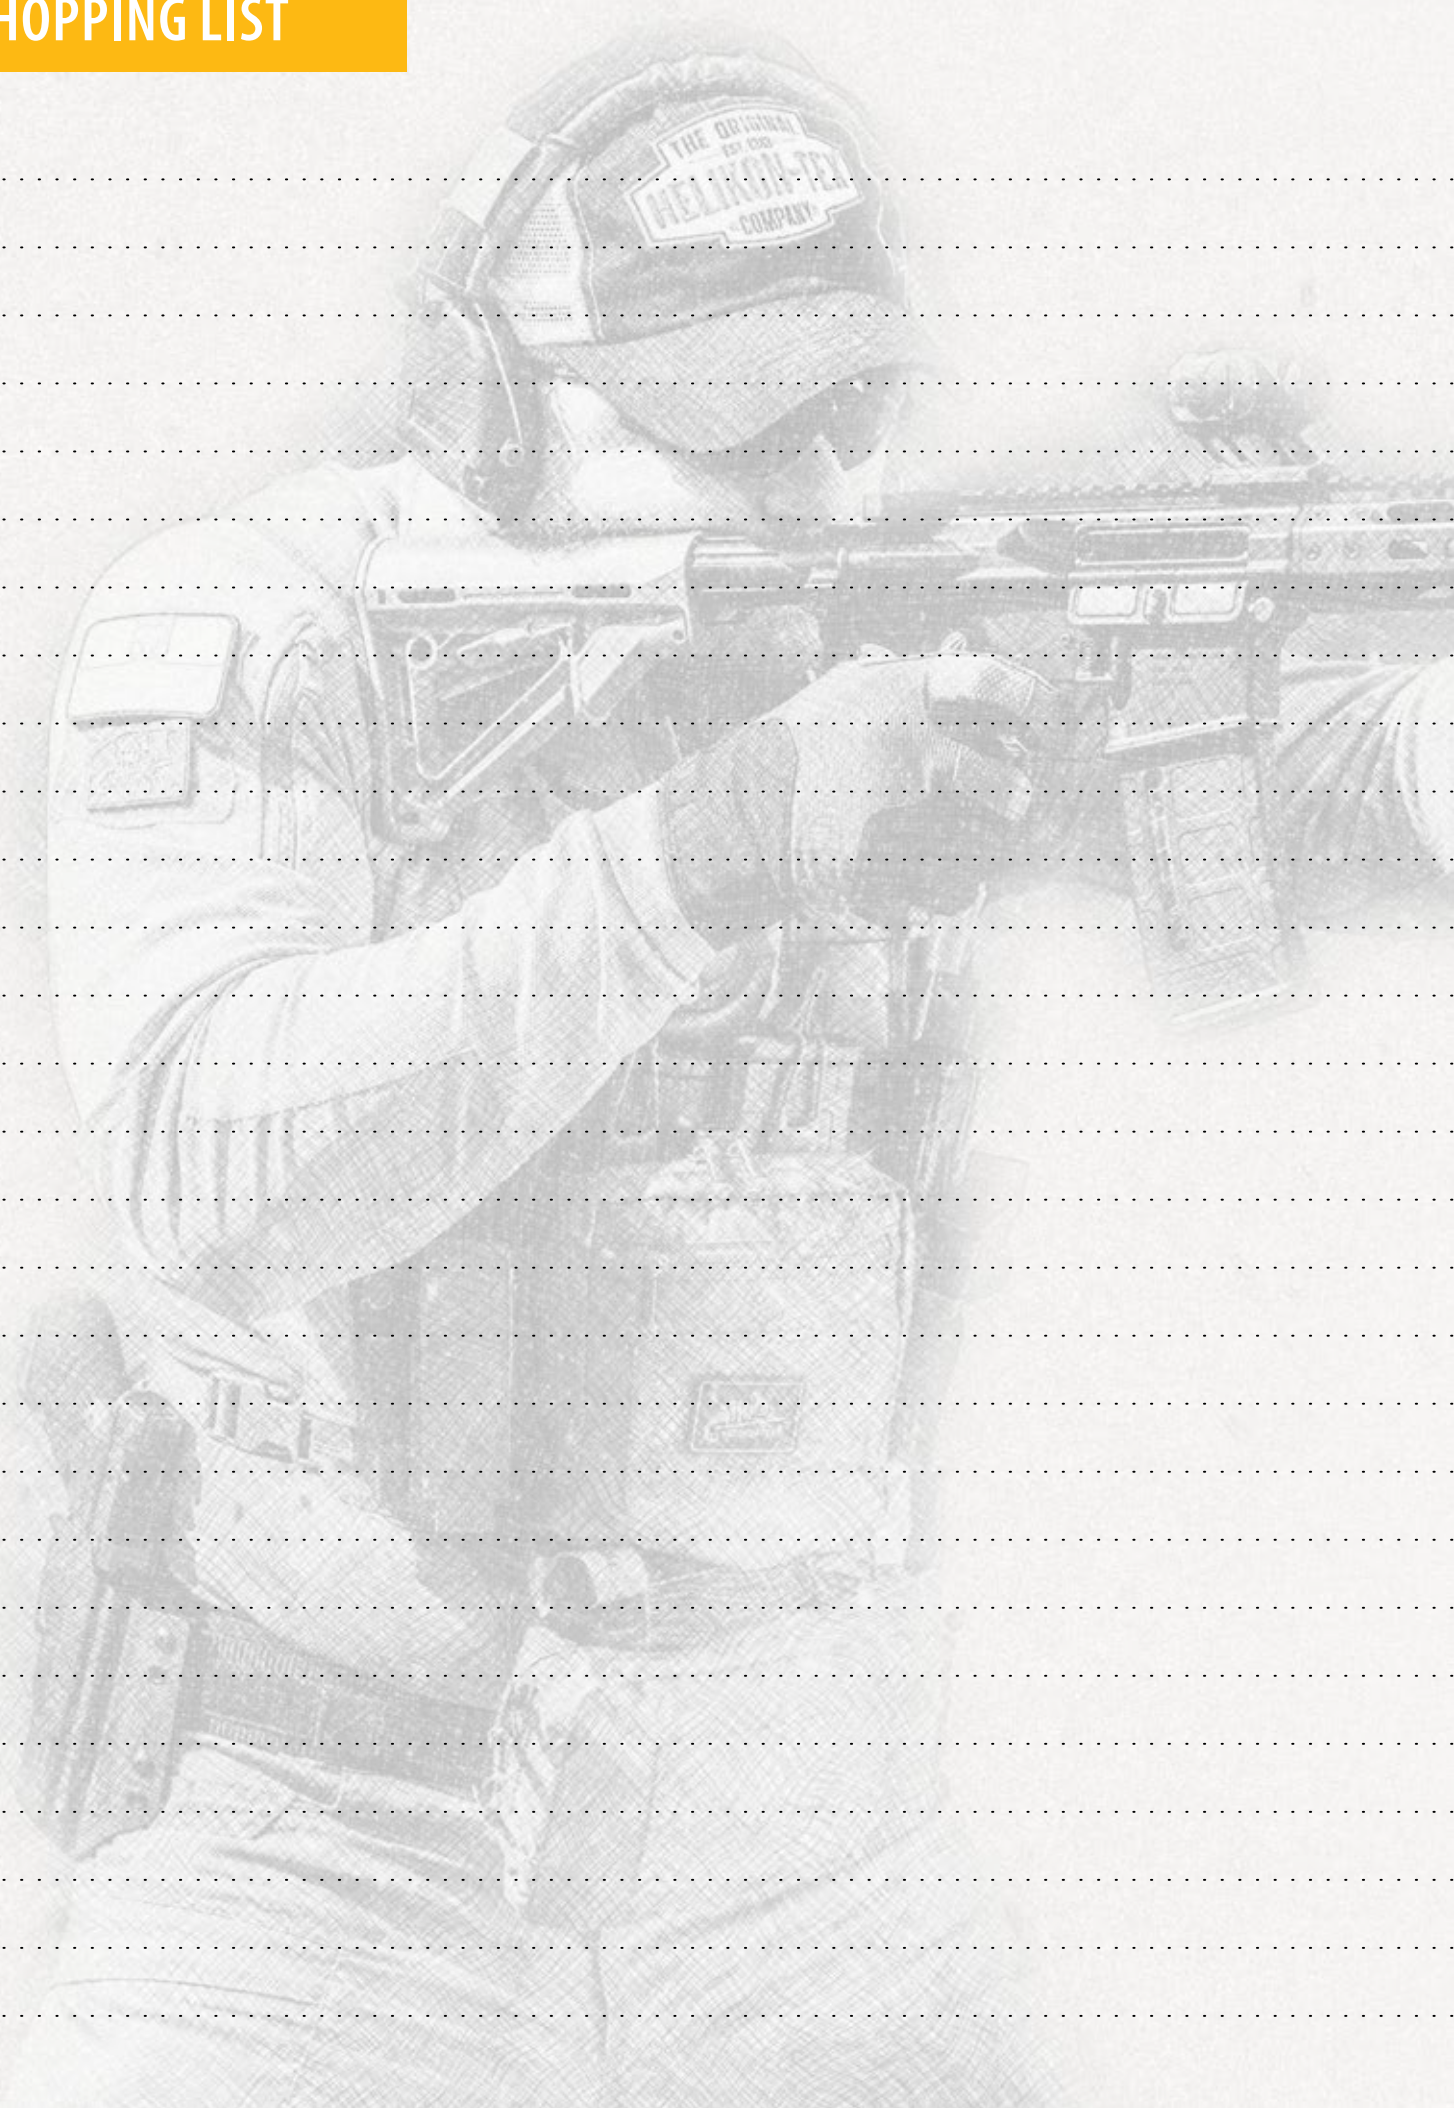

Cordura® is one of the most known fabric brands in the world. Originally developed as a type of rayon during the World War II, was transferred as a nylon product in late 60's. By 1980 over 40% of luggage were made of Cordura® fabric. Made of polyamide 6.6 textured yarns offers very high durability, that is about 2 times more abrasion resistant than standard nylon. Thanks to that Cordura® soon became the most common used fabric for all military equipment, first in its 1000D version, and then in lighter 500D or even 330D.
