MILITARY AND POLICE
LOAD CARRYING SYSTEMS
2018

 **berghaus**[®]

LV EQUIPMENT BV

(LV), a Dutch based wholesale company, supplies products to end users from military & police entities. Distribution is made to NATO, government bodies direct, or through commercial accounts in the EC. LV was founded in 1985 as a wholesale company and has been distributing outdoor specialist gear until 2008. Over the years a number of governments have become a customer, not in the last place because of back ground and experience of its founder.

The knowledge and understanding of military & police requirements and the ongoing demand for high performing products in the field of carrying systems (rucksacks), clothing, footwear and accessories has led to the decision to change the organization in 2008, focusing solely on military & police gear.

LV has an exclusive distribution agreement with Berghaus Ltd. in the UK for the distribution of products throughout the EC. A License agreement allows LV to develop specific carrying systems for the military & police. Berghaus has almost 50 years experience with regard to rucksack making. Combined with the knowledge LV has about the needs of military & police operators, a unique platform has been created for building highly functional and extremely durable carrying systems.

MULTI MISSION PACK SYSTEM

The Berghaus brand is synonymous with performance and protection, so when it comes to providing equipment for the military, police or security, we know what matters. The Multi Mission Pack System (MMPS) has been developed with input from experts in their field to deliver a family of packs that integrate and share modular parts. MMPS delivers the flexibility to carry any load from 10 litres up to 120 litres of kit, depending on the type of mission.

MMPS

MMPS VULCAN IV BH21933-xxx

**GENERAL**

With 100 litre capacity - the ideal sac for those on extended journeys where re-supply is not possible.

FEATURES

- Cyclops II back-system
- Top tension straps
- Front and back reinforced haul loops
- Two detachable MMPS side pockets zip together to make a daysac
- Side compression straps
- Base compression straps
- Cynch straps on hipbelt
- Ice axe attachment
- Ski attachment points on side pockets and rucsac body
- Hip belt can be tightened by pulling two straps in a forward direction
- 38mm wide straps on load lifters and shoulder harness

SPECIAL MISSION PACK SYSTEM

The track record Berghaus has in the field of MMPS rucsacs has led to further development of a mission specific military/police carrying system. A modular Special Mission Pack System (SMPS) has been developed to carry a variety of long distance rifles in a drag bag with a length up to 130cm. Larger rifles can be put inside a drag bag in two parts. Alternatively longer rifles can be carried in one piece, when placed direct in the envelope of the Crusader RC (rifle carrier), without having to use the drag bag

SMPS consists of three components, which can be used stand alone or interacting together, depending on the type of mission. SMPS delivers the flexibility to carry a long distance rifle without sacrificing space for (individual) combat equipment.

SMPS CRUSADER RC LV00046-xxx (size 2), LV00047-xxx (size 3) and LV00048-xxx (size 4)

GENERAL

The Crusader RC has an envelope against the center part of the back in which a long distance rifle can be placed. The complete original pack volume from Crusader 90+20 ltr. remains available to stow (individual) combat equipment.

FEATURES

- Cyclops II back system
- Envelope to store a long distance rifle or DragBag Long with rifle fitted.
- Other features same as Crusader

SMPS CRUSADER RC

FULL MISSION PACK SYSTEM

Crusader EC (extended capacity) is another smart derivate from the Crusader family with unique functions. Any type of man portable radio equipment can be stowed in the wide envelope at the center of the back. The radio can easily be operated without having to open the rucsac itself. FMPS delivers the flexibility to carry a variety of radio equipment and batteries without sacrificing space for (individual) combat equipment. Additional pockets for antenna's and a "mil spec" laptop are making Crusader EC extremely suitable for any comms job !

Crusader EC is not just about radio equipment. The envelope can be changed quickly into a compartment in which odd size equipment can be stowed. Anything like heavy weapons, grenades, .50 inch ammo boxes, large volume cans for water, ski-boots, tents etc. can be stowed in the envelope. Heavy weapon operators love Crusader EC to bits ! The rigid Cyclops system nicely transfers the load on the hips and protects the back from typical military equipment pressing through. Crusader EC is an incredible solution to transport man portable heavy weapons and radio equipment.

FMPS

FMPS CRUSADER EC LV00052-2 LV00052-3 LV00052-4

GENERAL

The Crusader EC, the work horse from the forces. This pack holds every piece of combat equipment a soldier on foot may need. Placed in the envelope at the center of the back a radio can be operated without having to open or unpack the rucsac itself. The complete original pack volume from Crusader (90+20 ltr.) remains available to stow individual equipment.

FEATURES

- Cyclops II back system
- Envelope to stow and operate radio equipment or to hold heavy odd size equipment like ammo boxes, grenades, heavy weapons, tent, water can, ski boots etc.
- Other features same as Crusader

FMPS

FMPS WEAPON BAG S LV00088-xxx

GENERAL

Weapon Bag S is designed to carry and protect the personal weapon in transport in various circumstances. It has a padded stiffener plate inside to secure weapon & optics from damage. Weapon Bag S can be strapped on the body from all large Berghaus rucsacs, allowing to safely land with rucsac and personal weapon when dropped per parachute. It is also the perfect bag to go to the shooting range for the day.

FEATURES

- Takes a weapon incl. optics up to a length of 75cm
- Molle inside to strap the weapon tight inside if needed
- Back panel reinforced with a nylon plate to protect vital parts
- Can be carried as a sling bag or back pack with two 50mm webbing straps (included)

BMPS

BERGHAUS MEDIC PACK SYSTEM

BMPS has been developed to carry medic equipment by both medic specialist team members from operational units, or dedicated medic staff. BMPS was created after intensive contacts with medic experts. Requirements from the medics based on experience in combat and Berghaus as a high end rucksack supplier, formed a unique blend which has led to a modular solution of carrying medic equipment. BMPS packs have been extensively tested and proven in the world's toughest environments.

BMPS FIRST AID KIT (FAK) LV00058-xxx

GENERAL

BMPS FAK holds and protects your first aid medic equipment in an organized and overseable manner.

BERGHAUS HEAVY DUTY DUFFEL

BHDD, the duffel for military & police; rugged, reliable and durable. The BHDD range meets the requirements of those forces who need to transport heavy/bulky loads without compromises. The duffels are all unique: frameless stow-away, wheeled with pull-out handle or wheeled with end/side grab handles.

BHDD

BHDD GLADIUS 90 LV00053-xxx

GENERAL

With its rugged looks and ultra-durable fabric, the Gladius 90 is a great duffel to take on a mission

FEATURES

- Large end pockets with soft wall split lining to segregate sharp objects
- Tie-on points that convert to rucksac straps
- Lockable zip sliders
- Two top compression straps
- Daisy chains
- Foam mat inside
- Internal mesh pockets on all sides and below the top flap

FABRIC, DIMENSIONS & WEIGHT

BHDD GLADIUS 100 STASH DUFFEL LV00071-xxx

GENERAL

Ideal for circumstances when additional volume is required while on the way, or just the light weight duffel to take on a trip. The Gladius Stash Duffel offers 100L space. When stowed in the mesh pocket (BHDD Shirt Organiser) it does hardly take any space. The mesh pocket transfers in a shirt organiser, keeping your shirts and other small pieces nicely organized inside the big duffel.

FEATURES

- Top compression straps
- End grab handles
- Tie-on points that convert to rucksac straps
- Lockable zip sliders
- Comes in mesh pouch (BHDD Shirt Organiser)

BHDD GLADIUS 110 WHEEL II LV00054-xxx

**GENERAL**

Gladius 110 has a pull-out handle, attached to a reinforced (metal bars) PU honey comb board. The aluminum tubes are covered by a rigid foam mat to protect them from denting. Grab handles are placed on all sides to put the duffel in or to pull out of the trunk of a car in a convenient manner. With its rugged looks and ultra-durable fabric, the Gladius 110 is a great wheeled heavy duty duffel to transport some serious equipment.

FEATURES

- Pull-out trolley handle and wheels
- Large end pocket with soft wall split lining to segregate sharp objects
- Tie-on points that convert to rucsac straps
- Lockable zip sliders
- Two top compression straps
- Daisy chains
- Foam mat inside
- Internal light grey colored mesh pockets on all sides and below the top flap
- Bottom can be folded for flat storage
- Internal fold away frame to support upright standing

FABRICS

**ARMADURA 70 D**

A high density ripstop using highly packed 70 D fine yarns for low weight. A combination of DWR treatment on the face and a 4 x PU coating applied to the reverse gives high waterproofness.

**ARMADURA 210 D HD RS**

An ultra lightweight 210 denier high density nylon ripstop woven fabric, delivering fantastic tear strength and durability.

**ARMADURA 1000 D**

A 1000 denier texturised nylon used for its very high tear strength and abrasion resistance.

TARPAULIN®

Tarpaulin is a waterproof coated texturized 1.000D polyester used for its very high tear strength and abrasion resistance.

**GORE-TEX®**

GORE-TEX® is designed to provide breathable comfort and durably waterproof and windproof protection. GORE-TEX® is ideal for a wide range of outdoor activities. The secret of GORE-TEX® fabrics lies within its revolutionary membrane. The expanded PTFE portion of the membrane contains over 9 billion microscopic pores per square inch. These pores are approximately 20,000 times smaller than a drop of water, but 700 times bigger than a molecule of moisture vapour. So whilst water droplets cannot penetrate the GORE-TEX® membrane, moisture vapour (a gas) can easily escape.

**PERTEX®**

Perfected through intensive research and development, PERTEX® Microlight has become the global standard for lightweight outdoor gear. Highly abrasion resistant, soft, downproof, windproof and having a durable water repellency, PERTEX® Microlight contains a well-balanced list of features, making it ideal for all your mountain adventures.

**PRIMALOFT® PL1 FILL**

A unique Microfibre insulation which resembles the physical and thermal properties of down. PRIMALOFT® insulation is lightweight and compressible and is unsurpassed in its ability to keep you drier and warmer than down and other synthetics.

**WINDSTOPPER® SOFT SHELL**

WINDSTOPPER® Soft Shell offers total windproofness and maximum breathability, combining the comfort of a soft mid-layer and the water resistance of a shell in one garment. WINDSTOPPER® Soft Shell keeps you comfortable with the freedom of movement you need for enhanced performance in a wide range of activities and weather conditions.
