PRODUCTS 2019

Helikon-Tex® was established in Poland in 1983. During our first decade, our business activity was primarily focused on the sale of military surplus equipment. In order to better serve the demands of our customers, and for those customers to come, we started our own military/paramilitary and outdoor clothing production in 1999. Our range is proof that the decision was right – we are proud to offer you a wide range of uniforms, tactical clothing, backpacks and equipment that have gained recognition among soldiers, policemen, law enforcement officers and survival and outdoor enthusiasts all over the world.

At Helikon-Tex® we strive to deliver cutting edge designs by matching our enthusiasm for perfection with demanding aficionados' expectations.

You're welcome to join us on our journey to perfection.

OUR DESIGNERS

The strength of our brand resides in the experience and real-world training of our Research and Development team. Outfitted with military veterans, special forces operators, long-range competition shooters, shooting instructors, and survival specialists, we're creating products backed by a true passion for getting outdoors and having real adventures.

We understand our gear because we're not just sitting in a room designing something and sending it out into the world. We're testing it, putting it through its paces, and finding out what works and what doesn't. Here at Helikon-Tex®, we care about what we do and the products we sell because it's part of who we are and what we love, day in and day out.

OUR LINES

HELIKON-TEX®
URBAN LINE

Urban Line is our take on both the challenges and routines of a modern world – merging tactical, sporting and EDC (every day carry) elements into one. Pants, daypacks, light casual garments – they are all oriented to give you sharp looks and enough space to hold all your daily stuff. "Low Profile" is a rule we follow with our new Urban Line designs.

HELIKON-TEX®
RANGE LINE

We, at Helikon-Tex®, are shooting sports enthusiasts and firearms tactics practitioners. It's no wonder that we wanted to create a line with great clothing and gear for the range. No matter if you're an IPSC champion, one-mile precision shooter or just a guy or gal that shoots for skill and fun, we have something new for you in stock - from belts, gun bags and range pants to shooter's sniper mats.

HELIKON-TEX®
PATROL LINE

Patrol Line gives you a choice of best MIL/LE field and combat type clothing, including some specialized individual camouflage solutions and uniform accessories. Our idea is to combine and supplement the elements of the Patrol Line with other Helikon-Tex® lines – such as Outback Line for inclement weather conditions, Range for firearms training, etc.

HELIKON-TEX[®]
MEDICAL LINE

Medical Line products come in different shapes and sizes – from basic pocket inserts to a vehicle med kit bag solution. The layout and proposed contents of each med kit are based on consultations by professionals, and our intent is to make these kits to supplemental all other Helikon-Tex® Lines.

HELIKON-TEX®
OUTBACK LINE

Outback Line is our technical clothing and accessories conceptualization. From baselayers through all intermediate levels of insulation, for both dynamic and static activities, to outer layers including windshirts, softshells, hardshells and Climashield® parkas. Accessories developed for Outback Line focus on travel, gear packing and outdoor expeditions.

HELIKON-TEX®
BUSHCRAFT LINE

Hikers, hunters, wildlife enthusiasts and photographers – they all appreciate a solid, rugged and well-thought out gear and garments. We have developed a complete line of products that are useful in the wild – a range of camping gear, survival essentials, heavy duty, and practical clothing that withstand wear-and-tear and campfires much better than high-tech garments.

HELIKON-TEX®
SURPLUS LINE

Proven solutions

Some solutions used in the production of clothes have proven themselves and their effectiveness on many battlefields. Even more - they have survived the test of time and are working well today. Our Surplus Line is the large collection of these solutions.

HELIKON-TEX®
MORALE LINE

Stand out!

We all like to not only stand out, but also share our interests with others. Our Morale Line allows you to find your style and personalize your clothes and gear. It brings a little bit of fun and humor to everyday life.

PANTS

URBAN TACTICAL PANTS FLEX®

CODE: SP-UTF-NR

DESIGN:

Following up the popularity of the Urban Tactical Pants®, we've decided to release their new version – Urban Tactical Flex Pants®. Even though the main construction of the pants is the same as in the UTP, there are some major changes. The most important change is the fabric – we've decided to use nonelastic NyCo fabric, which is known to be one of the best and most durable clothing fabric on the market. To maintain the users freedom of movement, we've decided to add VersaStretch® elastic panels in the crotch and back neck area. The cut and pockets layout employed in these pants maintain civilian look, while retaining full functionality of combat pants, capable of supporting tactical essentials. Elastic hook&loop-closed belt allows easy adjustment. Wide belt loops allow as wide as 50 mm belt, including all Helikon-Tex® tactical belts: MidPro Belt, UTL or Cobras.

WOMEN'S URBAN TACTICAL PANTS®

CODE: SP-UTW-DM | PR

DESIGN:

Women's UTP® is a must have for all female fans of the Urban Tactical Line®. Wide belt loops allow as wide as 50 mm belt, including all Helikon® tactical belts: EDC, UTL® or Cobras®. By judicious layout of the pockets, equipment can be placed close to the center mass, around the hips and waist. Front and rear pockets edges are reinforced to withstand constant movement of light or knife clips. Two hook&loop-closed front pockets are big enough to carry a smartphone & or even an AR/AK rifle magazine. Thigh zippered pockets look flat & but its design allows pouches or wallets to be carried with ease.

SHORTS & SKIRTS

URBAN TACTICAL SHORTS® 8.5"

CODE: SP-UTS-PR

DESIGN:

By popular demand we have truncated our UTP® Shorts even shorter, to 8,5 inches. The cut and pockets layout allow them to stay civilian enough not to disclose the wearer's identity. By judicious layout of the pockets, equipment can be placed close to the center mass, around the hips and waist and the shorts are not at cross with human anatomy. Perfect choice for a stifling hot summertime.

WOLFHOUND JACKET

CODE: KU-WLF-NL

DESIGN:

Wolfhound is a lightweight warm jacket designed as an insulation layer, either standalone or combined with some outer layer. The Climashield® Apex™ insulation (same as in Level 7 Jacket) keeps user warm in all conditions. VersaStretch fabric panels in armpits improve air circulation and enhances comfort, while cuffs of the same fabric keep sleeves closed, trapping the warm air and preventing wind from chilling arms. Outstanding warming properties, high breathability, light weight and high compressibility – all combine to make Wolfhound a perfect all-year garment for all outdoor enthusiasts (and more).

JACKETS

URBAN HYBRID SOFTSHELL JACKET®

CODE: KU-UHS-NL

DESIGN:

A softshell, as the name implies, should be soft, yet able to shield the user from elements. Urban Hybrid Softshell sets a new standard. By combining as many as three raw materials we have created a lightweight, expandable and breathing urban jacket. Urban Hybrid Softshell protects from wind, while the DWR (Durable Water Repellent) coating repels rainwater. Four pockets allow equal distribution of every day carry essentials, while small size allows it to be carried folded in a backpack while not in use.

WINDRUNNER® WINDSHIRT

CODE: KU-WDR-NL

DESIGN:

Windrunner is an ideal carry-on item – in a bag or backpack – because of its minimum weight and size when folded. Ultralight, tight-woven Nylon fabric protects from the wind, and if the DWR coating is regularly maintained, also from light rain. Windrunner would also be an ideal garment for jogging. Mesh ventilation slats in armpits allow air circulation. On a cooler day, worn on top of a fleece, keeps the body warmth from escaping and protects against wind chilling. Large channel pocket would accommodate a cap, gloves or a buff. Two small flat pockets inside the large pocket would help to organize small items like a smartphone or cards holder.

FABRICS:

PATRIOT JACKET

CODE: BL-PAT-HF

DESIGN:

Patriot Heavy Fleece Jacket is the most advanced of our fleece jackets offer. It is designed for tactical use in extreme weather. The jacket features an adjustable, visored hood, for additional protection, as well as a set of pockets for tactical essentials. Chest pockets have wiring eyelets and small devices organizers. Three external pockets in easily reachable areas – on either upper and left lower sleeve – would allow additional storage. Elbows are reinforced for additional wear and tear resistance. Jacket can be individually adjusted by hook&loop-adjustable cuffs, and elastic drawstrings in hood and jacket bottom. Patriot is a versatile and durable upper apparel suitable for cold climates.
